SUPPLEMENTARY INFORMATION: OEC was formed under Title XVIII of the Homeland Security Act of 2002, 6 U.S.C. 101 *et seq.*, as amended, and requires OEC to foster the development of interoperable emergency communications capabilities and to facilitate the sharing of information on best practices for achieving, maintaining, and enhancing interoperable emergency communications capabilities. OEC meets these requirements, in part, by developing and disseminating guidance documents on interoperable emergency communications issues. The guidance document request form and the guidance document evaluation form will help OEC stakeholders to, first, request the guidance documents and, second, to assess the effectiveness of the guidance documents. OEC will use the request form to track the request for and dissemination of the guidance documents to stakeholders. OEC will use the evaluation information for continuous improvement to its documents. Guidance document request forms and evaluation forms will primarily be submitted electronically. They may also be submitted in paper form at conferences, meetings, and other

events. OMB is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
