

PROPOSED MISSION TIMETABLE—Continued

Date	Day	Activity
		• Depart for Vienna and DC.

Note: The final schedule and potential site visits will depend on the availability of local government and business officials, specific goals of mission participants, and air travel schedules.

Participation Requirements

All persons interested in participating in the Civil Nuclear Policy Mission must complete and submit an application for consideration by the Department of Commerce. All applicants will be evaluated on their ability to meet certain conditions and best satisfy the selection criteria as outlined below. Approximately 8 to 12 companies will be selected to participate in the mission from the applicant pool. U.S. companies already doing business in the region as well as U.S. companies seeking to enter the region for the first time are encouraged to apply.

Fees and Expenses

After a company or trade organization has been selected to participate in the mission, a payment to the Department of Commerce in the form of a participation fee is required. The participation fee, which will cover one representative, will be \$4,500.00 for large firms and \$3,000.00 for a small or medium-sized enterprise (SME)¹ or non-government organization.² The fee for each additional firm representative is \$600. Expenses for travel, lodging, most meals, and incidentals will be the responsibility of each mission participant.

Conditions for Participation

- An applicant must submit a completed and signed mission application and supplemental application materials, including adequate information on the company's products and/or services, primary market objectives, and goals for participation. If the U.S. Department of Commerce receives an incomplete application, the Department may reject the application, request additional information, or take the lack of information into account when evaluating.

¹ An SME is defined as a firm with 500 or fewer employees or that otherwise qualifies as a small business under SBA regulations (see http://www.sba.gov/services/contracting_opportunities/sizestandardstopping/index.html).

² Parent companies, affiliates, and subsidiaries will be considered when determining business size. The dual pricing reflects the Commercial Service's user fee schedule that became effective May 1, 2008 (see <http://www.export.gov/newsletter/march2008/initiatives.html> for additional information).

- Certify that the products and services the export of which it seeks to promote through the mission are either produced in the United States, or, if not, marketed under the name of a U.S. firm and have at least fifty-one percent U.S. content. Because of the unique nature of the energy sector targeted by this mission, in cases where the U.S. content does not exceed fifty percent, especially where the applicant intends to pursue investment and major project opportunities, the following factors, often associated with U.S. ownership, may be considered in determining whether the applicant's participation in the trade mission is in the U.S. national interest:

- U.S. materials and equipment content;
- U.S. labor content;
- Repatriation of profits to the U.S. economy; and/or
- Potential for follow-on business that would benefit the U.S. economy;

- No applicant may represent a company that is majority owned or controlled by a foreign government entity or entities.

Selection Criteria for Participation

Selection will be based on the following criteria:

- Suitability of the company's products or services;
- Applicant's potential for business in Poland, Czech Republic and Slovakia, including likelihood of exports resulting from the mission; and
- Consistency of the applicant's goals and objectives with the stated scope of the mission.

Referrals from political organizations and any documents containing references to partisan political activities (including political contributions) will be removed from an applicant's submission and not considered during the selection process.

Timeframe for Recruitment and Applications

Mission recruitment will be conducted in an open and public manner, including publication in the **Federal Register**, posting on the Commerce Department trade mission calendar (<http://www.ita.doc.gov/doctm/tmcal.html>) and other Internet Web sites, press releases to general and trade media, direct mail, notices by

industry trade associations and other multiplier groups, and publicity at industry meetings, symposia, conferences, and trade shows.

Recruitment for the mission will begin immediately and conclude no later than Monday, March 15, 2010. The U.S. Department of Commerce will review all applications after the deadline. We will inform applicants of selection decisions after March 15, 2010. Applications received after the deadline will be considered only if space and scheduling constraints permit.
