

annually and seasonally adjusted data are subject to revision for up to five years following the original release. Unadjusted data are not routinely subject to revision, and previously published unadjusted data are only corrected when significant calculation errors are discovered. Accordingly, FHFA uses data that have not been seasonally adjusted.

For 2010, applying the unadjusted CPI-U, the current CFI asset cap has been increased by 1.8 percent to reflect inflation over the prior year. Thus, as of January 1, 2010, the CFI asset cap is \$1,029,000,000, which amount was obtained by rounding to the nearest million, which has been the practice for all prior adjustments.
