

## Disclosure

The Department will disclose calculations performed for these preliminary results to the parties within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b).

## Public Comment

Interested parties may submit written comments no later than 30 days after the date of publication of these preliminary results of review. See 19 CFR 351.309(c). Rebuttals to written comments must be limited to the issues raised in the written comments and may be filed no later than five days after the deadline for filing case briefs. See 19 CFR 351.309(d). Further, parties submitting written comments and rebuttal comments are requested to provide the Department with an additional copy of those comments on diskette. Any interested party may request a hearing within 30 days of publication of these preliminary results. See 19 CFR 351.310(c). If requested, a hearing normally will be held two days after the scheduled date for submission of rebuttal comments. See 19 CFR 351.310(d). Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

The Department will issue the final results of this new shipper review, which will include the results of its analysis of any issues raised in written comments, within 90 days of the date on which these preliminary results are issued, in accordance with 19 CFR 351.214(i)(1), unless the time limit is extended. See 19 CFR 351.214(i)(2).

## Assessment Rates

Pursuant to 19 CFR 351.212(b), the Department will determine, and CBP shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. For assessment purposes, the Department will calculate importer-specific (or customer) *ad valorem* duty assessment rates based on the ratio of the total amount of the dumping margins calculated for the examined sales to the total entered value of those same sales. The Department will instruct CBP to assess antidumping duties on all appropriate entries covered by this review if any importer-specific assessment rate calculated in the final results of this review is above *de minimis*. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of the final results of review.

## Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this new shipper review for shipments of subject merchandise from Zhejiang Tianyi entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) For subject merchandise produced and exported by Zhejiang Tianyi, the cash deposit rate will be that established in the final results of this review; (2) for subject merchandise exported by Zhejiang Tianyi but not produced by Zhejiang Tianyi, the cash deposit rate will continue to be the PRC-wide rate of 216.01 percent; (3) for subject merchandise produced by Zhejiang Tianyi, and exported by any party but itself, the cash deposit rate will be the rate applicable to the exporter. If the cash deposit rate calculated in the final results is zero or *de minimis*, no cash deposit will be required for those entries of subject merchandise both produced and exported by Zhejiang Tianyi. These cash deposit requirements, when imposed, shall remain in effect until further notice.

## Notification to Interested Parties

This notice serves as a reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

The Department is issuing and publishing this determination in accordance with sections 751(a)(2)(B) and 777(i) of the Act, and 19 CFR 351.214(h) and 351.221(b)(4).

Dated: February 23, 2010.

**Ronald K. Lorentzen,**

*Deputy Assistant Secretary for Import Administration.*

## DEPARTMENT OF COMMERCE

### National Institute of Standards and Technology

[Docket Number: 100217092-0110-01]

### Solicitation of Participation In and Public Meeting to Discuss Public Safety 700 MHz Broadband Demonstration Network

**AGENCY:** National Institute of Standards and Technology, Department of Commerce.

**ACTION:** Notice of solicitation of participation.

**SUMMARY:** The National Institute of Standards and Technology (NIST) announces the building of a 700 MHz Public Safety Broadband Demonstration Network (Demonstration Network), which will provide manufacturers and first responders a location for early deployment of their systems in a multi-vendor, neutral host environment.<sup>1</sup> Emergency responders will see how these broadband systems will function and determine through hands-on experience how these systems meet their unique needs. This Notice of Solicitation of Participation both seeks Expressions of Interest from parties that may be interested in participating in the Demonstration Network and also announces a project kick-off meeting for all interested stakeholders.

**DATES:** Expressions of Interest in participating in the program are due on or before 5:00 pm Mountain Time, April 30, 2010. A kick-off informational meeting will be held March 15, 2010, via webinar over the Internet. The registration deadline for participation in the meeting is due by 5 p.m. Mountain Time, March 12, 2010. Please see registration instructions in the **SUPPLEMENTARY INFORMATION** section of this notice.

**ADDRESSES:** Expressions of Interest in participating in the Demonstration Network and registrations for the kick-off meeting should be sent to [700MHz@its.bldrdoc.gov](mailto:700MHz@its.bldrdoc.gov). The webinar details, meeting time and teleconference bridge information will be e-mailed to registrants prior to the event.

**FOR FURTHER INFORMATION CONTACT:** Emil Olbrich, (303) 497-4950, e-mail: [700MHz@its.bldrdoc.gov](mailto:700MHz@its.bldrdoc.gov). The mailing address is 325 Broadway, Mail Stop ITS.P, Boulder, CO, 80305.

**SUPPLEMENTARY INFORMATION:** Public safety agencies have long struggled with

<sup>1</sup> NIST Tech Beat (2009), Demonstration Network Planned for Public Safety 700 MHz Broadband. [http://www.nist.gov/public\\_affairs/techbeat/tb2009\\_1215.htm](http://www.nist.gov/public_affairs/techbeat/tb2009_1215.htm).

effective cross-agency radio communications, due mainly to incompatible systems and non-contiguous spectrum assignments. But newly enacted Congressional legislation<sup>2</sup> and FCC Rulings<sup>3</sup> have created broadband spectrum cleared by the Digital Television (DTV) transition available to local, state and tribal public safety agencies (i.e. fire, police, emergency medical services), allowing for a unified system that would foster nationwide roaming and interoperability. Though this spectrum will provide ample opportunity for the build-out of next-generation communications systems that could achieve true interoperability for public safety, no government or independent laboratory facilities exist in the United States to test and demonstrate the behaviors of this yet-to-be-deployed 700 MHz network and the applications that could run on top of it.

To address this critical gap, the National Institute of Standards and Technology (NIST), through its Public Safety Communications Research (PSCR) program, will begin building a Public Safety Broadband Demonstration Network. This Demonstration Network will allow NIST, manufacturers and public safety users a site for the early deployment of their systems in order to evaluate the Third Generation Partnership Project (3GPP) Long Term Evolution (LTE) standard, in a multi-vendor environment and create integration opportunities for commercial service providers.

#### **Public Safety Broadband Demonstration Network**

The goal of this project is to demonstrate and evaluate the behaviors of 3GPP LTE technology deployed in the 700 MHz bands, specific to the needs of public safety agencies. NIST has developed an initial network design that must be evaluated by vendors, service providers, academia, and other stakeholders to ensure that it can support all test cases. In this project, emergency responders, vendors, carriers, academia and other stakeholders will have the opportunity to participate in the development, test planning and network design evaluation of the Demonstration Network system. Each participant may provide individual input to NIST; no consensus advice will be provided. Public Safety users will see how these broadband systems will function and determine

through hands-on experience how the systems meet their unique needs. Features and system performance that commercial carriers may not be testing for commercial purposes, but that are of importance to public safety, will be a primary area of assessing public safety user requirements within the 3GPP LTE standard. This will include multicast/broadcast capabilities, priority access, pre-emption, SMS, and voice. Vendors who are developing LTE equipment (Band Class 14) are eligible to participate in this project.

On or before April 30, 2010, interested parties wishing to participate in the Demonstration Network should submit to the e-mail address in the **ADDRESSES** section, their name, address, phone number, and an e-mail address. After receiving all submissions, NIST may contact any party that submitted an expression of interest to follow-up on how its technology would meet the above evaluation criteria. As part of the Demonstration Network project, NIST will enter into Cooperative Research and Development Agreements (CRADAs) with participating equipment stakeholders.

The following information details the technical specifications of the Demonstration Network as it relates to radio frequency and the ability to transmit over the air.

**Demonstration Network Technology:** Equipment utilizing minimum 3GPP LTE Release 8, Evolved Packet Core (EPC) and IP Multimedia System (IMS). Other air interfaces may be considered.

**Demonstration Network Frequency Band:** 758–768 MHz & 788–798 MHz (3GPP Band Class 14) Authorization to transmit over-the-air for the Demonstration Network: Via a request for FCC Special Temporary Authority (STA) for Part 90 and/or Part 27.

**Phases for Stakeholder Participation:** The Demonstration Network will have the following three major phases for stakeholder participation:

Phase 1—Network and Test Planning: Stakeholders will be involved in creating a common test plan for all vendors and creating a common network deployment and coverage scheme.

Phase 2—Deployment: Equipment is scheduled for delivery to site locations. Coverage, network planning, site preparation completed. Installation and commissioning takes place.

Phase 3—Testing and Demonstrations: Test plan execution takes place. This may be staggered into sub-phases as equipment and features become available. Network is available to perform system level testing and demonstrations on.

**Equipment Disposition:** Stakeholder equipment used for the demonstration network will be returned to the stakeholders, at their expense, after the completion of the project or upon withdrawal from the project.

**Demonstration Network Timeline:** This demonstration network is currently in the preliminary planning stages and is expected to go live in mid 2010.

**Webinar:** NIST intends to hold a webinar meeting on March 15, 2010 webinar to bring together interested stakeholders (vendors, carriers, public safety practitioners, academics) to specifically discuss how to move forward on the Demonstration Network and to establish the focus and goals of the project. There is no charge for participation in the meeting. The registration deadline is 5 p.m. Mountain Time on March 12, 2010. Please submit your name, email address and phone number to [700MHz@its.bldrdoc.gov](mailto:700MHz@its.bldrdoc.gov) and you will be provided with the logistics for the webinar meeting.

Dated: February 26, 2010.

**Marc G. Stanley,**

*Acting Deputy Director.*

## **COMMISSION OF FINE ARTS**

### **Notice of Meeting**

The next meeting of the U.S. Commission of Fine Arts is scheduled for 18 March 2010, at 10 a.m. in the Commission offices at the National Building Museum, Suite 312, Judiciary Square, 401 F Street, NW., Washington DC, 20001-2728. Items of discussion may include buildings, parks and memorials.

Draft agendas and additional information regarding the Commission are available on our *Web site*: <http://www.cfa.gov>. Inquiries regarding the agenda and requests to submit written or oral statements should be addressed to Thomas Luebke, Secretary, U.S. Commission of Fine Arts, at the above address; by e-mailing [staff@cfa.gov](mailto:staff@cfa.gov); or by calling 202-504-2200. Individuals requiring sign language interpretation for the hearing impaired should contact the Secretary at least 10 days before the meeting date.

Dated: February 24, 2010 in Washington DC.

**Thomas Luebke,**  
*AIA Secretary.*
