k. Description of Request: Pacific Gas and Electric Company (licensee) is requesting that its license for the Battle Creek Hydroelectric Project be amended to support the Battle Creek Salmon and Steelhead Restoration Project (Restoration Project). The Restoration Project is a collaborative effort to restore fish habitat on Battle Creek and some of its tributaries through modification of the project facilities and operations, including instream flow releases. This collaborative effort is between PG&E, the U.S. Department of the Interior, Bureau of Reclamation, the U.S. Fish and Wildlife Service, the National Oceanic and Atmospheric Administration National Marine Fisheries Service, and the California Department of Fish and Game.

The Restoration Project will reestablish approximately 42 miles of prime salmon and steelhead habitat in the North and South Forks of Battle Creek, plus an additional six miles of habitat on the tributaries of Battle Creek. The Restoration Project will be accomplished in three phases. The licensee is filing this license amendment application for approval and implementation of 1B (second phase) of the Restoration Project. Proposed work for *Phase 1B* includes:

(1) Installing a slide gate on an existing outlet of the Inskip Powerhouse to block discharge into South Fork Battle Creek; (2) installing a tailrace connector from Inskip Powerhouse to Coleman Canal;

(3) installing an Inskip Powerhouse bypass facility to divert overflow from Eagle Canyon and Inskip Canals; and (4) modifying the diversion at Coleman Diversion Dam.

The licensee has submitted the Battle Creek Salmon and Steelhead Restoration Project Final Environmental Impact Statement/Environmental Impact Report (EIS/EIR), prepared in July 2005, as part of its application. The referenced EIS/EIR was a collaborative effort between PG&E, the Bureau of Reclamation, California State Water Resources Control Board, California Bay-Delta Authority, and the Federal Energy Regulatory Commission (Commission), to fulfill National Environmental Policy Act (NEPA) and California Environmental Quality Act requirements. The Commission intends to use the EIS/EIR to meet the NEPA requirements under the proposed action to amend the Battle Creek Project. The EIS/EIR is available for review at the Restoration Projects Web site (link: http://www.usbr.gov/mp/nepa/nepa_projdetails.cfm?Project_ID=99).
