

address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this Information Collection:

(1) *Type of Information Collection:* Extension of an existing information collection.

(2) *Title of the Form/Collection:* Petition for Qualifying Family Member of a U-1 Nonimmigrant.

(3) *Agency form number, if any, and the applicable component of the Department of Homeland Security sponsoring the collection:* Form I-929; U.S. Citizenship and Immigration Services (USCIS).

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. Section 245(m) of the Immigration and Nationality Act (Act) allows certain qualifying family members who have never held U nonimmigrant status to seek lawful permanent residence or apply for immigrant visas.

Before such family members may apply for adjustment of status or seek immigrant visas, the U-1 nonimmigrant who has been granted adjustment of status must file an immigrant petition on behalf of the qualifying family member using Form I-929. Form I-929 is necessary for USCIS to make a determination that the eligibility requirements and conditions are met regarding the qualifying family member.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* 2,000 responses at 1 hour per response.

(6) *An estimate of the total public burden (in hours) associated with the collection:* 2,000 annual burden hours.

You may review a Privacy Act, system of records notice regarding our public dockets in the January 17, 2008, issue of the **Federal Register** (73 FR 3316).

Background and Purpose

NVIC 11–93, which was last revised in November 2003, provides guidance on tonnages used for documentation purposes and the applicability of a vessel’s tonnage assignment under domestic regulatory and international tonnage measurement systems to both domestic regulations and international standards. It also clarifies the applicability of U.S. tonnage measurement systems to U.S. flag vessels based on vessel type, length, service, and vessel keel laid date or date of last substantial alteration. Definitions of frequently used terms, including convention length and deck cargo are provided to ensure consistency for users of NVIC 11–93.

Since its latest revision, multiple regulations and standards with tonnage thresholds, such as Non-Tank Vessel

Response Plans, Long Range Identification Tracking System, and the International Convention for the Prevention of Pollution from Ships (MARPOL) Annex VI, have come into force. To reflect these developments and incorporate updates of an administrative nature, the Coast Guard is considering the following changes:

(1) Adding new enclosures discussing the implications of tonnage changes that result from vessel alterations, changes in vessel service, or the addition of temporary deck equipment. This would include discussion of loss of tonnage grandfathering provisions under Article 3(2)(d) of the 1969 International Tonnage Convention and associated interim schemes for the Safety of Life At Sea (SOLAS) and Prevention of Pollution from Ships (MARPOL) international conventions.

(2) Amending Section 2 of Enclosure 1. The Coast Guard would clarify the definition of the terms, “overall length” and “remeasurement,” to provide more detail on their applicability. We would also add the terms, “registered length” and “alternate tonnage.”

(3) Providing additional examples of tonnage application. The Coast Guard will provide examples of tonnage application that are reflective of newly implemented domestic regulations and international standards.

(4) Amending Tables 5, 6, and 7 of Enclosure 1. The Coast Guard will revise language in Tables 5, 6, and 7 to more comprehensively address international tonnage grandfathering provisions, and reflect the correct date that MARPOL came into force.

(5) Incorporating administrative changes such as updating contact information and making editorial corrections.

Request for Comments

The Coast Guard requests your general comments on the revision under consideration. We also seek comments on any or all of the specific proposed revisions for NVIC 11–93 CH–3. We encourage suggestions for specific examples of tonnage grandfathering, remeasurement, or the use of interim schemes. Written comments and responses will be added to the docket number for this notice (USCG–2010–0025). The Coast Guard intends to review and analyze all comments received in order to develop the next revision to NVIC 11–93.

Authority: This notice is issued under authority of 5 U.S.C. 552 and 46 U.S.C. 14301.

Dated: February 19, 2010.

Director, Commercial Regulations and Standards, U.S. Coast Guard.
