Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the presumption that reimbursement of antidumping and/or countervailing duties occurred and the subsequent increase in antidumping duties by the amount of antidumping and/or countervailing duties reimbursed.

Administrative Protective Order

This notice also is the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

These amended final results of administrative review and notice are issued and published in accordance with sections 751(a)(1) and (h), and 777(i)(1) of the Act, and 19 CFR 351.224.

National Oceanic and Atmospheric Administration

RIN 0648-XU49

Fisheries of the Pacific Region

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of determination of an overfished condition.

SUMMARY: This action serves as a notice that NMFS, on behalf of the Secretary of

Commerce (Secretary), has determined that in the Pacific Region, the petrale sole stock has been determined to be in an overfished condition. The Pacific Fishery Management Council is in the process of reviewing the overfished threshold for petrale sole; however, regardless of future changes, NMFS has determined that the stock is overfished at this time, based on the current status determination criteria. For stocks which NMFS determines to be in an overfished condition and provides notice to the applicable Council, the applicable Council must, within two years of such notification, prepare and implement an FMP amendment or proposed regulations to rebuild such stocks.

FOR FURTHER INFORMATION CONTACT: Mark Nelson, (301) 713-2341.

SUPPLEMENTARY INFORMATION: Pursuant to sections 304(e)(2) and (e)(7) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1854(e)(2), and implementing regulations at 50 CFR 600.310(e)(2), NMFS, on behalf of the Secretary, must notify the appropriate Council whenever it determines a stock or stock complex is overfished.

For a fishery determined to be in an overfished condition, NMFS requests that the appropriate Council take action to end overfishing in the fishery and to implement conservation and management measures to rebuild affected stocks. A Council receiving notification that a fishery is overfished must, within 2 years of notification, implement a rebuilding plan, through an FMP amendment, which ends overfishing immediately and provides for rebuilding the fishery in accordance with 16 U.S.C. 1854(e)(3)-(4) as implemented by 50 CFR 600.310(j)(2)(ii). When developing rebuilding plans Councils, in addition to rebuilding the fishery within the shortest time possible in accordance with 16 U.S.C. 1854(e)(4) and 50 CFR 600.310(j)(2)(ii), must ensure that such management actions address the requirements to establish a mechanism for specifying and actually specify annual catch limits (ACLs) and accountability measures (AMs) to prevent overfishing in accordance with 16 U.S.C. 1853(a)(15) and 50 CFR 600.310(j)(2)(i) for each affected stock or stock complex.

On February 9, 2010, NMFS notified the Pacific Fishery Management Council that the most recent stock assessment for petrale sole indicated that the biomass fell below the overfished threshold which triggered an overfished determination. The letter acknowledges

that the Pacific Fishery Management Council is in the process of reviewing the overfished threshold for petrale sole. Regardless of future changes to the overfished threshold, based on the current status determination criteria, NMFS has determined the stock to be overfished at this time.

As noted above, within 2 years of notification that a fishery is overfished, the respective Council must adopt and implement a rebuilding plan, through a FMP amendment which immediately ends overfishing and provides for rebuilding of the overfished stock.

Dated: March 3, 2010.

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Certain Large Diameter Carbon and Alloy Seamless Standard, Line, and Pressure Pipe From Japan: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Mary Kolberg or Nancy Decker, AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-1785 or (202) 482-0196, respectively.

SUPPLEMENTARY INFORMATION:

Background

On July 29, 2009, the Department of Commerce ("Department") published in the **Federal Register** the initiation of administrative review of the antidumping duty order on certain large diameter carbon and alloy seamless standard, line, and pressure pipe from Japan, covering the period June 1, 2008, through May 31, 2009. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Deferral of Administrative Review*, 74 FR 37690 (July 29, 2009). The preliminary results for this administrative review are currently due no later than March 9, 2010.¹

¹ As explained in the memorandum from the Deputy Assistant Secretary for Import Administration, the Department has exercised its discretion to toll deadlines for the duration of the closure of the Federal Government from February 5, through February 12, 2010. Thus, all deadlines in this segment of the proceeding have been extended by seven days. The revised deadline for the preliminary determination of this review is now

Extension of Time Limits for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested and a final determination within 120 days after the date on which the preliminary results are published. If it is not practicable to complete the review within the time period, section 751(a)(3)(A) of the Act allows the Department to extend these deadlines to a maximum of 365 days and 180 days, respectively.

The review covers four manufacturers/exporters: JFE Steel Corporation; Nippon Steel Corporation; NKK Tubes; and Sumitomo Metal Industries, Ltd. These four manufacturer/exporters submitted letters to the Department certifying that they made no shipments or entries for consumption in the United States of the subject merchandise during the period of review ("POR"). In response to the Department's query to U.S. Customs and Border Protection ("CBP"), CBP data showed POR entries for consumption of subject merchandise that were manufactured by one of the respondent companies. The information regarding these entries has been placed on the record of this review under the terms of the administrative protective order. The Department solicited additional information and comments regarding these entries. Because the Department requires additional time to analyze the additional information and comments, it is not practicable to complete this review within the original time limit (*i.e.*, March 9, 2010). Therefore, the Department is extending the time limit for completion of the preliminary results by 30 days to April 8, 2010, in accordance with section 751(a)(3)(A) of the Act and section 351.213(h)(2) of the Department's regulations.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: March 4, 2010.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.
