DEPARTMENT OF HEALTH AND HUMAN SERVICES

Request for Comments on Proposed NIH, AHRQ and CDC Process Change for Electronic Submission of Grant Applications

AGENCY: Department of Health and Human Services.

ACTION: Process change.

SUMMARY: The National Institutes of Health (NIH), the Agency for Healthcare Research and Quality (AHRQ), and the Center of Disease Control (CDC) seek comments from the public on the impact of eliminating the correction window from the electronic grant application submission process on our applicant organizations and the timing of such a change.

DATES: To assure consideration, comments must be received by April 19, 2010.

ADDRESSES: Individuals and organizations interested in submitting comments may submit them electronically via http://grants.nih.gov/cfdocs/era_process_changes_rfi/add.htm. Although submission via the web is the preferred method of submission as it expedites analysis of comments, e-mails will also be accepted at oeer@od.nih.gov.

FOR FURTHER INFORMATION CONTACT: Megan Columbus, NIH Program Manager for Electronic Receipt of Grant Applications, 6705 Rockledge Dr, Suite 5040, Bethesda, MD 20892, e-mail columbum@od.nih.gov concerning programmatic questions.

SUPPLEMENTARY INFORMATION: In December 2005, when NIH began its transition from paper grant application submission to electronic submission using a new application form and the Federal portal, Grants.gov, the agency built into the process a temporary error correction window to ensure a smooth and successful transition for applicants. This window provides applicants a period of time beyond the grant application due date to correct any error or warning notices of noncompliance with application instructions that are identified by NIH's eRA systems. (The standard NIH error correction window is 2 days, but it has been temporarily extended to 5 days to facilitate the transition for applicants to newly restructured, shorter applications.) The NIH is considering the elimination of the error correction window within the year.

Eliminating the error correction window will allow NIH to enforce a fair and consistent submission deadline for
