POLICY JUSTIFICATIONIraq – Various Radios and Communication Equipment

The Government of Iraq has requested a possible sale of (300) 50-watt Very High Frequency (VHF) Base Station radios, (230) 50-Watt VHF Vehicular Stations, (150) 20-watt High Frequency/Very High Frequency (HF/VHF) Base Station Systems, (50) 20-watt HF/VHF Vehicular Radios, (50) 50-watt Ultra High Frequency/Very High Frequency (UHF/VHF) Base Stations, (10) 150-watt HF/VHF Vehicular Radio Systems, (10) 150-watt HF Base Station Radio Systems, (30) 20-watt HF Vehicular Mobile Radio Stations, (250) 20-watt HF/VHF Handheld Radio Systems, (300) 50-watt UHF/VHF Vehicular Stations, (10) 150-watt HF/VHF Fixed Base Station Radio Systems, (590) Mobile Communications, Command and Control Center Switches, (4) Mobile Work Shops, High Capacity Line of Sight Communication Systems with Relay Link, generators, accessories, installation, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, contractor engineering and technical support services, and other related elements of logistics support. The estimated cost is \$142 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

The proposed sale of the Radios and Communications equipment will advance Iraq's efforts to develop a strong national police authority and a strong and dedicated military. The communications equipment will provide Iraq with updated frequency-hopping capabilities as well as a digital data capability. This expansion will enable Iraq to equip new forces to assume the missions currently accomplished by U.S. and coalition forces and to sustain itself in its efforts to establish stability.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be The Harris Corporation, White Plains, New York; and Cobham Defense Electronics, Bolton, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

With the wide range and volume of communication equipment in this proposed sale, levels of U.S. Government and Contractor technical assistance will be required but cannot be fully defined at this time. The use of existing, deployed U.S. military personnel will be maximized.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
