**SUPPLEMENTARY INFORMATION:****I. Abstract**

The Department of Commerce (DOC) National Environmental Policy Act (NEPA) Environmental Questionnaire and Checklist (EQC) was developed to assist DOC in complying with NEPA by facilitating the collection of data concerning potential environmental impacts, streamlining the collection of that data, and maintaining consistency in quality and quantity of information received.

The EQC address a diverse range of potential environmental issues covered under Federal environmental laws and regulations, and will allow DOC reviewers to rapidly review infrastructure projects, facilitate in evaluating the potential environmental impacts of a project, and help in determining the appropriate level of documentation (Categorical Exclusion, Environmental Assessment, or Environmental Impact Statement) necessary to comply with NEPA.

**Background**

The Endangered Species Act of 1973 (15 U.S.C. 1531 *et seq.*) requires that NMFS and USFWS develop and implement recovery plans for the conservation and survival of threatened and endangered species under their jurisdiction, unless it is determined that such plans would not promote the conservation of the species. This Plan discusses the natural history, current status, and the known and potential threats to the Kemp's ridley. The Plan lays out a recovery strategy to address
