Federal Transit Administration

[FTA Docket No. 2010-0011]

Agency Information Collection Activity Under OMB Review

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice of request for comments.

SUMMARY: The Federal Transit Administration invites public comment about our intention to request the Office of Management and Budget's (OMB) to approve the following information collection: 49 U.S.C. Section 5308—Clean Fuels Grant Program. The information to be collected for this program is used to satisfy the program oversight responsibilities. FTA will use the information to evaluate the impact of the program on air quality and its support of emerging markets for new clean fuel and advanced propulsion technologies. The **Federal Register** notice with a 60-day comment period soliciting comments was published on November 20, 2009.

DATES: Comments must be submitted before April 16, 2010. A comment to OMB is most effective if OMB receives it within 30 days of publication.

FOR FURTHER INFORMATION CONTACT: Sylvia L. Marion, Office of Administration, Office of Management Planning, (202) 366-6680.

SUPPLEMENTARY INFORMATION:

Title: 49 U.S.C. 5308, Clean Fuels Grant Program.

Abstract: The Section 5308 Clean Fuels Grant program was initiated as a formula program under the Transportation Equity Act for the 21st Century (TEA-21) in June 1998. The program was reauthorized in August 2005 under the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) as a grant program. The program supports the development and deployment of clean fuel and advanced propulsion technologies for transit buses by providing funds for clean fuel vehicles and facilities. To meet program oversight responsibilities, FTA needs information on the operations and performance of clean fuel technology buses to help assess the reliability, benefits and costs of these technologies compared to conventional vehicle technologies.

Respondents: State and local government and public transportation authorities located in areas designated as non-attainment or maintenance for ozone or carbon monoxide.
