

which must be received not later than seven days before the expiration date of the Order.

A copy of this Order shall be served on the Respondent and shall be published in the **Federal Register**.

This Order is effective immediately and shall remain in effect for 180 days.

Issued this March 7, 2010.

**David W. Mills,**

*Assistant Secretary of Commerce for Export Enforcement.*

### National Oceanic and Atmospheric Administration

RIN 0648-XV18

#### Endangered and Threatened Species; Notice of Intent to Prepare a Recovery Plan for Central California Coast Coho Salmon

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of availability; request for comments and notice of public meetings.

**SUMMARY:** NMFS announces that the Draft Recovery Plan for Central California Coast coho salmon (Draft Plan) is available for public review and comment. The Draft Plan addresses the Central California Coast coho salmon (*Oncorhynchus kisutch*) Evolutionarily Significant Unit (ESU). NMFS is soliciting review and comment from the public and all interested parties on the Draft Plan. In addition, public meetings will be announced as opportunities for providing comments on the Draft Plan (dates to be determined).

**DATES:** NMFS will consider and address all substantive comments received during the comment period. Comments must be received no later than 5 p.m. Pacific daylight time on May 17, 2010. Public meetings will also be held (see Public Meetings section below).

**ADDRESSES:** Comments may be submitted by any of the following methods:

- Via email:

*CohoRecovery.swr@noaa.gov* (No files larger than 5MB can be accepted).

- Via U.S. mail: Charlotte A.

Ambrose, National Marine Fisheries Service, 777 Sonoma Avenue, Suite 325, Santa Rosa, CA 95404 ATTN: Recovery Coordinator/CCC Coho Salmon Public Draft Recovery Plan Comments.

- Hand delivered: National Marine Fisheries Service, 777 Sonoma Avenue, Suite 325, Santa Rosa, CA 95404 ATTN: Recovery Coordinator/CCC Coho Salmon Comments. Business hours are 8 am to 5 pm Monday through Friday, except Federal holidays.

- Via fax: 707-578-3435. Please include the following on the cover page of the fax "ATTN: Recovery Coordinator/CCC Coho Salmon Public Draft Recovery Plan Comments".

#### FOR FURTHER INFORMATION CONTACT:

Charlotte Ambrose, North Central California Coast Recovery Coordinator (707-575-6068).

**SUPPLEMENTARY INFORMATION:** NMFS is charged with the recovery of Pacific salmon and steelhead species listed under the ESA. Recovery means that listed species and their ecosystems are restored, and their future secured, so that the protections of the ESA are no longer necessary. The ESA specifies that recovery plans must include: (1) a description of management actions necessary to achieve the plan's goals for the conservation and survival of the species; (2) objective, measurable criteria which, when met, would result in the species being removed from the list; and (3) estimates of time and costs required to achieve the plan's goal and the intermediate steps towards that goal. Section 4(f) of the ESA, as amended in 1988, requires that public notice and an opportunity for public review and comment be provided during recovery plan development. NMFS is hereby soliciting relevant information on CCC Coho Salmon ESU populations and their freshwater/marine habitats.

NMFS worked closely with the California Department of Fish and Game to integrate, where appropriate, recovery actions included in the previously approved February 2004 Recovery Strategy for California Coho Salmon. The document was used as a foundational tool to aid in the development of the Draft Plan. NMFS requests relevant information from the public that should be considered by NMFS during preparation of the final recovery plan.

Persons wishing to review the Draft Plan can obtain an electronic copy (i.e., CD ROM) from Ms. Andrea Berry by calling 1-866-300-2948 or by e-mailing a request to *andrea.berry@noaa.gov* with the subject line "CD ROM Request for CCC coho Salmon and Recovery Draft Plan." Electronic copies of the Draft Plan are also available on line on the following NMFS websites:

- <http://swr.nmfs.noaa.gov/recovery>

- [ftp://ftp.afsc.noaa.gov/SWR/Public/Public\\_draft\\_recovery\\_plan\\_CCC\\_coho\\_salmon/](ftp://ftp.afsc.noaa.gov/SWR/Public/Public_draft_recovery_plan_CCC_coho_salmon/)

#### Public Meetings

Public meetings are planned for Ft. Bragg, Santa Cruz and Santa Rosa, CA. Information on exact locations, dates and times will be posted on the above website.

**Authority:** 16 U.S.C. 1531 *et seq.*

Dated: March 15, 2010.

### National Oceanic and Atmospheric Administration

RIN 0648-XRO1

#### Fisheries off West Coast States; Pacific Coast Groundfish Fishery; Trawl Rationalization Program

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public workshop.

**SUMMARY:** NMFS announces a workshop to solicit feedback from owners and managers of shoreside processors that intend to take delivery of trawl-caught groundfish under the proposed Trawl Rationalization Program. We are interested in feedback concerning proposed regulations to improve catch monitoring and accounting in the trawl fisheries. Specifically, we seek feedback into proposed requirements for catch weighing, and the development of Catch Monitoring and Control Plans (CMCPs) that shoreside processors would be required to submit and conduct operations under. The workshop is open to the public, but NMFS is particularly seeking participation by people who are knowledgeable about the operations of shoreside processors that intend to participate in the rationalized trawl fishery.

**DATES:** The public workshops will be held on March 26, 2010, at 10 a.m. in Astoria Oregon; at 10 a.m. in Newport Oregon; and on April 1, 2010, at 10 a.m. in Eureka.

**ADDRESSES:** The Astoria Oregon workshop will be held at the Holiday Inn Express, 204 W Marine Drive. The Newport Oregon workshop will be held at the Guinn Library, Hartfield Marine

Science Center, 2020 Southeast Marine Science Drive. The Eureka California workshop will be held at the Humboldt Bay Aquatic Center, 921 Waterfront Drive.

**FOR FURTHER INFORMATION CONTACT:** Lori Jesse, 503-230-5429.

**SUPPLEMENTARY INFORMATION:** The Pacific Fishery Management Council (Council) has been developing a trawl rationalization program that would affect the limited entry trawl fishery of the Pacific Coast groundfish fishery. The Council has developed a trawl rationalization program through two amendments to the Pacific Coast Groundfish Management Plan (FMP). Amendment 20 which would create the structure and management details of the program; and Amendment 21 which would allocate the groundfish stocks between trawl and non-trawl fisheries.

As part of the rationalization process, NMFS is proposing new regulations concerning the monitoring of catch at shoreside processors taking deliveries of trawl groundfish. These proposed regulations are similar to regulations currently required for processors that take deliveries from rationalized fisheries off Alaska (Bering Sea and Aleutian Islands pollock, Gulf of Alaska rockfish). These regulations can be found at 50 CFR 679.28(g). Similar regulations also apply to processors taking deliveries under the crab rationalization program at 50 CFR 680.23(g).

In brief these regulations require shoreside processors to write and submit a CMCP that details how the processor will ensure that all catch is sorted and weighed to species; how that process can be monitored by NMFS-authorized personnel; and how the processor will test scales used to weigh catch. The CMCP also requires that processors give a list of the specific scales that will be used for weighing catch, their type, location and serial numbers. All scales used to weigh catch must be approved by the State and produce a printed record of the amount of catch weighed.

The CMCP regulations used in Alaska are based on a series of performance standards and they provide a great deal of flexibility for processors of a wide variety of sizes. However, these regulations will require some degree of modification for west coast processors. At this time, NMFS staff has not finalized draft regulations. However, draft proposed regulations will be made available at the time of each workshop.

NMFS seeks input into these proposed regulations from those with knowledge of trawl-groundfish

processor operations, including plant owners, managers, and staff; and vendors or manufacturers of scales currently used in processing facilities. In order to better understand operations and issues associated with individual processors, NMFS staff will be available to tour individual processors following each workshop.

#### Special Accommodations

The workshops will be physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Murray Bauer, 541-867-0580, at least 5 working days prior to the meeting date.

Dated: March 15, 2010.

**Tracey L. Thompson,**

### National Oceanic and Atmospheric Administration

**RIN 0648-XU09**

#### Listing Endangered and Threatened Species; Initiation of 5-Year Reviews for 27 Evolutionarily Significant Units and Distinct Population Segments of Pacific Salmon and Steelhead

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of initiation of 5-year reviews; request for information.

**SUMMARY:** We, NMFS, announce 5-year reviews of 16 evolutionarily significant units (ESUs) of Pacific salmon (*Oncorhynchus sp.*) and 11 distinct population segments (DPSs) of steelhead (*Oncorhynchus mykiss*) under the Endangered Species Act of 1973, as amended (ESA). The purpose of the review is to ensure the accuracy of the listing classifications of these salmonids. On June 28, 2005, NMFS issued final listing determinations for 16 ESUs of Pacific salmon and on January 5, 2006 for ten DPSs of steelhead. We will also complete a 5-year review of Puget Sound steelhead listed on May 11, 2007. The 5-year reviews will be based on the best scientific and commercial data available at the time of the reviews; therefore, we request submission of any such information on these ESUs and DPSs that has become available since the listing determinations in 2005, 2006, and 2007. Based on the results of these

5-year reviews, we will make the requisite determinations under the ESA.

**DATES:** To allow us adequate time to conduct these reviews, we must receive your information no later than May 17, 2010. However, we will continue to accept new information about any listed species at any time.

**ADDRESSES:** Please submit information on salmonids in Oregon, Idaho, and Washington to Eric Murray, NMFS Northwest Region, 1201 Lloyd Blvd, Suite 1100, Portland, OR 97232 and information on salmonids in California to Craig Wingert, NMFS Southwest Region, 501, West Ocean Blvd., Long Beach, CA, 90802-4213. Information received in response to this notice will be available for public inspection by appointment, during normal business hours, at the above addresses. Information may also be submitted via facsimile (fax) to (503) 230-5441 (Northwest Region) or (562) 980-4027 (Southwest Region).

**FOR FURTHER INFORMATION CONTACT:** Eric Murray at the above address or at (503) 231-2378 or Craig Wingert at the above address or at (562) 980-4021.

**SUPPLEMENTARY INFORMATION:** Section 4(c)(2)(A) of the ESA requires that we conduct a review of listed species at least once every five years. On the basis of such reviews, we determine under section 4(c)(2)(B) whether a species should be delisted, or reclassified from endangered to threatened or from threatened to endangered.

We will undertake reviews for the following salmon ESUs: (1) Sacramento River winter-run Chinook salmon, (2) Upper Columbia River spring-run Chinook salmon, (3) Snake River spring/summer-run Chinook salmon; (4) Central Valley spring-run Chinook salmon; (5) California Coastal Chinook salmon; (6) Puget Sound Chinook salmon; (7) Lower Columbia River Chinook salmon; (8) Upper Willamette River Chinook salmon; (9) Snake River fall-run Chinook salmon; (10) Hood Canal summer-run chum salmon; (11) Columbia River chum salmon; (12) Central California Coast coho salmon; (13) Southern Oregon/Northern California Coast coho salmon; (14) Lower Columbia River coho salmon; (15) Snake River sockeye salmon; and (16) Ozette Lake sockeye salmon.

We will undertake reviews for the following steelhead DPSs: (1) Southern California; (2) Upper Columbia River; (3) Middle Columbia River; (4) Snake River Basin; (5) Lower Columbia River; (6) Upper Willamette; (7) South-Central California Coast; (8) Central California Coast; (9) Northern California; (10) California Central Valley; and (11) Puget
