

3757 on January 22, 2010, allowing for a sixty day comment period.

The purpose of this notice is to allow for an additional 30 days for public comment until April 28, 2010. This process is conducted in accordance with 5 CFR 1320.10.

If you have comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Paige M. Harrison, Bureau of Justice Statistics, 810 Seventh Street, NW., Washington, DC 20531 (phone: 202-514-0809).

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

(1) *Type of Information Collection:* Reinstatement, with change, of existing collection for which approval has expired.

(2) *Title of the Form/Collection:* National Inmate Survey.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Forms—National Inmate Survey (NIS), NIS consent (NIS-C), Juvenile consent (NIS-J), PAPI consent (NIS-P), Paper and Pencil Instrument (NIS-PAPI); The Bureau of Justice Statistics, Office of Justice Programs, Department of Justice is the sponsor for this collection.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: State, Local, or Tribal

Government. Other: Federal Government, Business or other for-profit, Not-for-profit institutions. The work under this clearance will be used to produce estimates for the incidence and prevalence of sexual assault within correctional facilities as required under the Prison Rape Elimination Act of 2003 (Pub. L. 108-79).

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated that 105,500 respondents will spend approximately 35 minutes on average responding to the survey. This estimate has been revised from the 60-day notice.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 63,681 total burden hours associated with this collection. This estimate has been revised from the estimate published in the 60-day notice (57,592).

*If additional information is required contact:* Lynn Bryant, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Patrick Henry Building, Suite 1600, 601 D Street, NW., Washington, DC 20530.

Dated: March 24, 2010.

**Lynn Bryant,**

*Department Clearance Officer, PRA, U.S. Department of Justice.*

## NATIONAL SCIENCE FOUNDATION

### Proposal Review Panel for Physics; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting.

*Name:* Proposal Review Panel for Physics, LIGO Site Visit in Louisiana (1208).

*Date and Time:* Wednesday, April 14, 2010; 8:30 a.m.–6:30 p.m.

Thursday, April 15, 2010; 8:30 a.m.–6 p.m.

Friday, April 16, 2010; 9 a.m.–12 p.m.

*Place:* LIGO Observatory, Livingston, Louisiana.

*Type of Meeting:* Partially Closed.  
*Contact Person:* Dr. Thomas Carruthers, Program Director for LIGO, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230.  
*Telephone:* (703) 292-7373.

*Purpose of Meeting:* To provide an evaluation concerning the proposal

submitted to the National Science Foundation.

### Agenda

*Wednesday, April 14, 2010*

Closed: 8:30–9, Executive Session  
Open 9:15–10:15, LIGO status, accomplishments, plans

Closed: 10:30–12, Management topics  
Open: 1–3, Tour and facilities maintenance

Closed: 3:00–6:30, Cybersecurity, EPO, LSC status and Executive Session

*Thursday, April 15, 2010*

Closed: 8:30–12, Project overview and Project Management status

Closed: 1:30–2:45, Technical Progress, Development, R&D support

Closed: 5:30–6, Executive Session

*Friday, April 16, 2010*

Closed: 9–12, Executive Session, report writing, Close Out report

*Reason for Closing:* The proposal contains proprietary or confidential material including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552(b)(c) and (6) of the Government in the Sunshine Act.

Dated: March 23, 2010.

**Susanne Bolton,**

*Committee Management Officer.*

## NATIONAL TRANSPORTATION SAFETY BOARD

### Proposed Information Collection Activity: Submission for OMB Review; Comment Request

**AGENCY:** National Transportation Safety Board (NTSB).

**ACTION:** Notice.

**SUMMARY:** The NTSB is announcing that it is submitting an Information Collection Request (ICR) to the Office of Management and Budget (OMB) for approval, in accordance with the Paperwork Reduction Act. This ICR describes a form that the NTSB proposes to use to obtain information from operators who need to report the occurrence of a resolution advisory (RA) in which an aircraft encountered a risk of collision with another aircraft. The proposed form is shorter than the form in which the NTSB currently receives reports of incidents under 49 CFR 830.5 (NTSB Form 6120.1). This Notice informs the public that they may submit

comments concerning the proposed use of this new form to the NTSB Desk Officer at the OMB.

**DATES:** Submit written comments regarding this proposed collection of information by May 28, 2010.

**ADDRESSES:** Respondents may submit written comments on the collection of information to the Office of Information and Regulatory Affairs of the Office of Management and Budget, Attention: Desk Officer for the National Transportation Safety Board, Washington, DC 20503.

**FOR FURTHER INFORMATION CONTACT:** Scott Dunham, NTSB Office of Aviation Safety, at (202) 314-6387.

**SUPPLEMENTARY INFORMATION:** In accordance with OMB regulations that require this Notice for proposed ICRs, the NTSB seeks to notify the public that it may submit comments on this proposed ICR to OMB. 5 CFR 1320.10(a).

The proposed form that the NTSB seeks to use will obtain information from operators who, had they not complied with an RA, would have encountered a substantial risk of collision with another aircraft, or who received an RA while operating in class A airspace. The NTSB's purpose in proposing to use a new form is to allow operators to avoid completing the NTSB's lengthier form in which the NTSB obtains a variety of information concerning an accident or incident (Form 6120.1), when completion of the lengthier form is unnecessary. The proposed new form will solicit the following information: (1) Confirmation that the incident to be reported falls under the scope of the rule; (2) contact information, such as the submitter's name, company (if any), e-mail address, and telephone number; (3) information about the flight and aircraft, such as the call sign, type of aircraft, location and time of the occurrence, and altitude at which the aircraft experienced the RA; (4) information about the ATC services being provided to the aircraft when the RA occurred, such as the ATC facility name and communications frequency in use; and (5) a brief description of the RA type and circumstances of the incident.

For the convenience of operators who submit reports of RAs, the NTSB plans to provide the form on the NTSB Web site. The NTSB's purpose in creating this Web-based form is to provide a convenient way in which submitters may comply with a portion of the NTSB's new regulations, which became effective on March 8, 2010, 75 FR 922-01 (Jan. 7, 2010). In particular, 49 CFR 830.5(a)(10) now requires reports of the following: "Airborne Collision and

Avoidance System (ACAS) resolution advisories issued either: When an aircraft is being operated on an instrument flight rules flight plan and compliance with the advisory is necessary to avert a substantial risk of collision between two or more aircraft; or to an aircraft operating in class A airspace." The NTSB notes that this new regulation does not require reports of RAs unless compliance with the RA is necessary to avoid a substantial risk of collision between two or more aircraft, or unless an aircraft receives an RA while operating in class A airspace. Therefore, before being allowed to continue, the submitter will be asked to confirm that the proposed report involves an incident that falls within the scope of the rule. Once a submitter completes the form, the NTSB may contact the submitter and may consider asking the submitter to complete NTSB Form 6120.1, if the NTSB determines that it needs additional information.

The NTSB also notes that respondents' completion of the form is optional, because respondents may call the NTSB Communications Center or an NTSB field office if they prefer to notify the NTSB via telephone. The form will only be available on the NTSB Web site, and the NTSB has carefully reviewed the form to ensure that it has used plain, coherent, and unambiguous terminology in its requests for information. The form is not duplicative of another agency's collection of information. The NTSB believes this proposed form, given its brevity, will impose a minimal burden on respondents: the NTSB estimates that respondents will spend approximately 10 minutes in completing the form. The NTSB estimates that approximately 20 respondents per year will complete the form.

Dated: March 23, 2010.

## **NUCLEAR REGULATORY COMMISSION**

[Docket No. NRC-2010-0113]

### **Agency Information Collection Activities: Proposed Collection; Comment Request**

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to the Office of Management and

Budget (OMB) and solicitation of public comment.

**SUMMARY:** The NRC invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* NRC Form 314, Certificate of Disposition of Materials.

2. *Current OMB approval number:* 3150-0028.

3. *How often the collection is required:* This form is submitted once, when a licensee terminates its license.

4. *Who is required or asked to report:* Persons holding a NRC license for the possession and use of radioactive byproduct, source, or special nuclear material that are ceasing licensed activities and terminating the license.

5. *The number of annual respondents:* 136.

6. *The number of hours needed annually to complete the requirement or request:* 68.

7. *Abstract:* The NRC Form 314 furnishes information to the NRC regarding transfer or other disposition of radioactive material by licensees who wish to terminate their licenses. The information is used by the NRC as part of the basis for its determination that the facility has been cleared of radioactive material before the facility is released for unrestricted use.

Submit, by May 28, 2010, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, Maryland 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC
