2. Title and Purpose of Information Collection:

Voluntary Customer Surveys in

Accordance With E.O 12862; 3220-0192

In accordance with Executive Order 12862, the Railroad Retirement Board (RRB) conducts a number of customer surveys designed to determine the kinds and quality of services our beneficiaries, claimants, employers and members of the public want and expect, as well as their satisfaction with existing RRB services. The information collected is used by RRB management to monitor customer satisfaction by determining to what extent services are satisfactory and where and to what extent services can be improved. The surveys are limited to data collections that solicit strictly voluntary opinions, and do not collect information which is required or regulated. The information collection, which was first approved by the Office of Management and Budget (OMB) in 1997, provides the RRB with a *generic clearance authority*. This generic authority allows the RRB to submit a variety of new or revised customer survey instruments (needed to timely implement customer monitoring activities) to the Office of Management and Budget (OMB) for expedited review and approval. Our ICR describes the information we seek to collect from the public.

RIN 3244-AF61

Small Business Innovation Research Program Policy Directive

AGENCY: U.S. Small Business Administration.

ACTION: Notice of Final Amendments to Policy Directive.

SUMMARY: This document announces a final amendment to the Small Business Innovation Research (SBIR) Program Policy Directive (PD). This amendment adjusts the SBIR Program award threshold amounts to offset the effect of inflation. This document also considers the public comments received in response to SBA's Notice of Proposed Amendment to the Policy Directive, which was published in the **Federal Register** on August 15, 2008.

DATES: This amendment is effective on March 30, 2010.

FOR FURTHER INFORMATION CONTACT:

Edsel M. Brown, Jr., Assistant Director, Office of Technology, SBA, at (202) 205-7343. You may also email questions to technology@sba.gov.

SUPPLEMENTARY INFORMATION: On August 15, 2008, SBA published in the **Federal Register** proposed amendments to the SBIR Program PD to raise the SBIR Phase I award threshold amount from \$100,000 to \$150,000, and the Phase II award threshold amount from \$750,000 to \$1,000,000 (FR 48004). Congress established the current award threshold amounts of \$100,000 for Phase I and \$750,000 for Phase II in the program's 1992 reauthorization legislation. SBA has statutory authority to increase these award amounts to adjust for inflation or other economic or programmatic considerations once every five years (U.S.C. 638(j)(2)(D)). The regulatory

guideline for the SBIR award amounts can be found in Section 7(h)(1) of the SBIR Policy Directive (67 FR 6008, Sept. 24, 2002). SBA has determined that to restore the average economic value of the SBIR awards, the award threshold amounts should be increased at this time. SBA determined that adjusting the threshold amounts to \$150,000 for Phase I and \$1,000,000 for Phase II adequately offsets the general effects of inflation, maintains a degree of stability and simplicity to the threshold levels, and continues to provide participating agencies with an appropriate degree of flexibility in award size. In the proposed amendment, the SBA explained that it monitored information from the U.S. Department of Commerce's Bureau of Economic Analysis, including the GDP Implicit Price Deflator and the Satellite R&D Account, as well as the Biomedical Research and Development Price index, to determine the appropriate time for, and amount of, this adjustment. The SBA believes this information still supports the adjustment in this final amendment.

Discussion of Comments on the Final Amendments

The 30-day public comment period closed on September 15, 2008. SBA received two comments on the proposed amendment. Both of the comments supported the proposed amendments and commended SBA for making the adjustments to the threshold amounts. One commenter noted further that because the National Institutes of Health (NIH) had already taken advantage of existing flexibility to exceed the guidelines, he did not foresee a significant reduction in the number of awards at that agency resulting from the change in guideline levels. SBA will move forward with the amendment as originally proposed.

Paperwork Reduction Act

SBA has determined that these amendments to the SBIR PD do not impose additional reporting or recordkeeping requirements under the Paperwork Reduction Act, 44 U.S.C. Chapter 35.

Regulatory Impact Analysis

OMB has determined that this amendment constitutes a "significant regulatory action" under Executive Order 12866 and in the proposed amendment to the Policy Directive, the SBA prepared a Regulatory Impact Analysis. The SBA received no comments on this analysis and continues to believe that the analysis was accurate.
