1. Waiver of Supplemental Security Income Payment Continuation—20 CFR 416.1400–416.1422—0960–NEW

SSA uses Form SSA 263–U2 to determine whether an individual meets the provisions of the Social Security Act regarding waiver of payment continuation. Recipients must use Form SSA 263–U2 when they are awaiting a determination on their appeal and have decided to stop their payment continuation. SSA needs the information on the form as proof respondents no longer want their payments to continue. Respondents are recipients of SSI payments who wish to discontinue receipt of payment while awaiting a determination on their appeal.

Number of Respondents: 3,000.

Frequency of Response: 1.

2. Centenarian Project Development Worksheets: Face-to-Face Interview; Telephone Interview; Third Party Contact; Unable To Locate—20 CFR 416.204(b) and 422.135—0960–NEW

SSA conducts interviews with centenary beneficiaries age 103 and older to assess: (1) If the beneficiaries are still living; (2) to prevent fraud, through either identity misrepresentation or representative payee misuse of funds; and (3) to assess the well-being of the beneficiaries. SSA's San Francisco field offices currently use this survey, and we intend to expand its use to all other SSA field offices. Field office personnel obtain the information through one-time, in-person interviews with centenarians. During the interview, SSA employees will make overall observations of the centenarian and their representative payee (if applicable). The interviewer will use the appropriate Centenarian Development Worksheet as a guide for the interview and to document findings. SSA will conduct the interview one time only at the beneficiary's residence or over the phone if a site visit is not possible. Refusal of the interview will not result in the suspension of the centenarian's payments. Respondents are SSI recipients or Social Security beneficiaries 103 years old or older, their representative payees, or caregivers.

Type of Request: Existing information collection in use without an OMB number.

Number of Respondents: 14,000.

When a claimant dies before we make a determination on that person's request for reconsideration of their disability cessation, SSA seeks a qualified substitute party to pursue the appeal. If SSA locates a qualified substitute party, the agency collects information on Form SSA–770 about whether to pursue or withdraw the reconsideration request. The information Form SSA–770 collects is the basis of the decision to continue or discontinue the appeals process. Respondents are substitute applicants who are pursuing a reconsideration request for a deceased claimant.

Type of Request: Revision of an OMB-approved information collection.

Number of Respondents: 1,200.

Frequency of Response: 1.

Average Burden per Response: 5 minutes.

4. Application for Benefits Under the Italy-U.S. International Social Security Agreement—20 CFR 404.1925—0960–0445

SSA collects information using Form SSA–2582 based on the United States-Italy agreement effective November 1, 1978. Article 19.2 of the agreement provides that an applicant for benefits can file an application with either country. Article 4.3 of the Protocol to the Agreement dictates the country receiving the application will forward agreed-upon forms and applications to the other country. As agreed upon by the United States and Italian Social Security agencies, individuals filing an application for U.S. benefits directly with one of the Italian Social Security agencies must complete Form SSA–2528. SSA uses the SSA–2528 to establish age, relationship, citizenship, marriage, death, military service, or to evaluate a family bible or other family record when determining eligibility for benefits. The Italian Social Security agencies assist applicants in completing Form SSA–2528 and then forward the application to SSA for processing. The respondents are individuals living in

SSA discovered that as many as 70 percent of the wage reports it receives for children under age 7 are actually the earnings of someone other than the child. To ensure we credit the correct person with the reported earnings, SSA verifies wage reports for children under age 7 with the children's employers before posting to the earnings record. SSA uses Form SSA–L3231–C1 for this purpose. The respondents are employers who report earnings for children under age 7.

Type of Request: Revision of an OMB-approved information collection.

Number of Respondents: 20,000.

Frequency of Response: 1.

The Work Incentives Planning and Assistance (WIPA) program collects identifying information from project sites and Community Work Incentives Coordinators (CWIC). In addition, the program collects data from beneficiaries on background employment, training, benefits, and work incentives. SSA is interested in identifying beneficiary outcomes under the WIPA program to determine the extent to which beneficiaries with disabilities achieve their employment, financial, and health care goals. SSA will also use the data in its analysis and future planning for Social Security Disability Insurance and SSI programs.

SSA's Office of the Inspector General collects information through Form SSA–322, the Beneficiary Interview and Auditor's Observation form, to interview beneficiaries and/or their payees to determine if they are complying with their duties and responsibilities. SSA must secure evidence necessary for individuals to establish rights to benefits. Some of the required evidence categories include evidence of age, relationship, citizenship, marriage, death, and military service. Form SSA–704 allows SSA employees, state record custodians, and other custodians of evidentiary documents to record information from documents and records to establish these types of evidence. State record custodians and other custodians of evidentiary documents are the respondents.

Type of Request: Revision of an OMB-approved information collection.

Number of Respondents: 4,800.
