BILLING CODE P

DEPARTMENT OF THE INTERIOR

Minerals Management Service

[Docket No. MMS-2009-MRM-0014]

**Termination of Royalty-in-Kind (RIK)
Eligible Refiner Program**

AGENCY: Minerals Management Service,
Interior.

ACTION: Advance notice for the
termination of the RIK Eligible Refiner
Program.

SUMMARY: On behalf of the Secretary of
the Interior (Secretary), the Minerals
Management Service (MMS) has
conducted a determination of need for
the RIK Eligible Refiner Program under
30 CFR 208.4 and has concluded that a
need for the program no longer exists.

DATES: As a result of this determination,
MMS will discontinue the sales of
Federal royalty production to eligible
refiners under the Eligible Refiner
Program until further notice.

FOR FURTHER INFORMATION CONTACT:
Colin Bosworth, telephone (303) 231-
3186, FAX (303) 231-3846, or e-mail
colin.bosworth@mms.gov.

SUPPLEMENTARY INFORMATION: The
regulations at 30 CFR 208.4(a) provide
that the Secretary may evaluate crude
oil market conditions from time to time.
The evaluation will include, among
other things, the availability of crude oil
and the crude oil requirements of the
Federal Government, primarily those
requirements concerning matters of

national interest and defense.

Furthermore, the regulations at 30 CFR
208.4(b) state that, upon a determination
by the Secretary under paragraph (a) of
this section that defined eligible refiners
do not have access to adequate supplies
of crude oil at equitable prices, the
Secretary, at his or her discretion, may
elect to take in kind some or all of the
royalty oil accruing to the United States
from oil and gas leases on Federal lands
onshore and the Outer Continental Shelf
for sale to eligible refiners.

On September 16, 2009, the Secretary
announced a phased-in termination of
the RIK Program. The termination of the
RIK Program precludes future sales of
Federal royalty oil to eligible refiners as
part of the Eligible Refiner Program. The
MMS will honor all existing RIK sales
contracts as defined in the contract
terms.

The MMS's determination is
supported by decreased participation in
the RIK Eligible Refiner Program as well
as eligible refiners demonstrating a
successful ability to compete in the
open market. In 1999, six eligible
refiners participated in the program,
compared to only two in 2009. Over the
past few years, eligible refiners have
been successfully competing in the RIK
Unrestricted Oil Sales Program as well
as in the open market. The RIK
unrestricted oil sales were open to any
bidder who met prequalification
requirements, and bidders included
many of the major oil companies
operating in the United States. On
average, 50 percent of the volumes that
MMS offered in the RIK Unrestricted Oil
Sales Program during the past year have
been awarded to eligible refiners. In the
most recent unrestricted oil sale, one
eligible refiner bid successfully on 80
percent of the volumes that MMS
offered for sale. The decreased
participation in the Eligible Refiner
Program, in conjunction with the
increased success of eligible refiners in
the RIK Unrestricted Oil Sales Program,
clearly demonstrates that an RIK
Eligible Refiner Program is not needed
at this time.

Dated: March 18, 2010.

Gregory J. Gould,

*Associate Director for Minerals Revenue
Management.*
