

Assessment builds upon information presented in the *Integrated Science Assessment for Particulate Matter* (Final Report)¹ and two draft assessment documents, *Quantitative Health Risk Assessment for Particulate Matter—Second External Review Draft*² and *Particulate Matter Urban-Focused Visibility Assessment—Second External Review Draft*.³ The first draft Policy Assessment may be accessed online through EPA's TTN Web site at http://www.epa.gov/ttn/naaqs/standards/pm/s_pm_2007_pa.html. The EPA is soliciting advice and recommendations from the CASAC by means of a review of the first draft Policy Assessment at an upcoming public teleconference of the CASAC that will be held on April 8–9, 2010 (75 FR 8062; February 23, 2010). The EPA will consider comments received from the CASAC and the public in preparing revisions to this document. A second draft Policy Assessment document will be issued later this spring for CASAC and public review. The EPA will consider CASAC and public comments on the second draft Policy Assessment in preparing a final Policy Assessment. The final Policy Assessment will serve to “bridge the gap” between the scientific information and the judgments required of the Administrator in determining whether it is appropriate to retain or revise the current PM NAAQS.

The first draft Policy Assessment does not represent and should not be construed to represent any final EPA policy, viewpoint, or determination. The EPA will consider any public comments submitted in response to this notice when revising this document.
