

(c) To ensure PMAs include readily available information concerning actual and potential pediatric uses of medical devices.

■ 4. In § 814.20, revise paragraph (b)(3)(i) to read as follows:

§ 814.20 Application.

* * * * *

(b) * * *

(3) * * *

(i) *Indications for use.* (A) A general description of the disease or condition the device will diagnose, treat, prevent, cure, or mitigate, including a description of the patient population for which the device is intended.

(B) Information concerning uses in pediatric patients who are 21 years of age or younger: The application must include the following information, if readily available:

(1) A description of any pediatric subpopulations (neonates, infants, children, adolescents) that suffer from the disease or condition that the device is intended to treat, diagnose, or cure; and

(2) The number of affected pediatric patients.

* * * * *

■ 5. In § 814.37, revise the section heading and paragraph (b) to read as follows:

§ 814.37 PMA amendments and resubmitted PMAs.

* * * * *

(b)(1) FDA may request the applicant to amend a PMA or PMA supplement with any information regarding the device that is necessary for FDA or the appropriate advisory committee to complete the review of the PMA or PMA supplement.

(2) FDA may request the applicant to amend a PMA or PMA supplement with information concerning pediatric uses as required under § 814.20(b)(3)(i).

* * * * *

■ 6. In § 814.39, add paragraph (h) to read as follows:

§ 814.39 PMA supplements.

* * * * *

(h) The application must include the following information, if readily available:

(1) A description of any pediatric subpopulations (neonates, infants, children, adolescents) that suffer from the disease or condition that the device is intended to treat, diagnose, or cure; and

(2) The number of affected pediatric patients who are 21 years of age or younger.

(3) If information concerning the device that is the subject of the

supplement was previously submitted under § 814.20(b)(3)(i), that information may be incorporated by reference to the application or submission that contains the information. However, if additional information required under § 814.20(b)(3)(i) has become readily available to the applicant since the previous submission, the applicant must submit that information as part of the supplement.

■ 7. In § 814.44, redesignate paragraphs (e)(1)(ii) through (e)(1)(iv) as paragraphs (e)(1)(iii) through (e)(1)(v), respectively, and add new paragraph (e)(1)(ii) to read as follows:

§ 814.44 Procedures for review of a PMA.

* * * * *

(e) * * *

(1) * * *

(ii) The submission of additional information concerning potential pediatric uses required by § 814.20(b)(3)(i) that is readily available to the applicant;

* * * * *

■ 8. Amend § 814.100 as follows:

■ a. Redesignate paragraphs (b) through (e) as paragraphs (d) through (g), respectively;

■ b. Redesignate paragraph (a) as paragraph (b), and remove the first sentence of newly redesignated paragraph (b); and

■ c. Add new paragraphs (a) and (c) to read as follows:

§ 814.100 Purpose and scope.

(a) This subpart H implements sections 515A and 520(m) of the act.

* * * * *

(c) Section 515A of the act is intended to ensure the submission of readily available information concerning actual and potential pediatric uses of medical devices.

* * * * *

■ 9. Amend § 814.104 as follows:

■ a. Revise the last sentence of paragraph (b)(4)(ii);

■ b. Revise the last sentence of paragraph (b)(5); and

■ c. Add paragraph (b)(6) to read as follows:

§ 814.104 Original applications.

* * * * *

(b) * * *

(4) * * *

(ii) * * * The effectiveness of this device for this use has not been demonstrated.

(5) * * * If the amount charged is \$250 or less, the requirement for a report by an independent certified public accountant or an attestation by a responsible individual of the organization is waived; and

(6) Readily available information concerning actual and potential pediatric uses of the device, as required by § 814.20(b)(3)(i).

* * * * *

■ 10. In § 814.116, redesignate paragraphs (c)(2) through (c)(4) as paragraphs (c)(3) through (c)(5), respectively, and add new paragraph (c)(2) to read as follows:

§ 814.116 Procedures for review of an HDE.

* * * * *

(c) * * *

(2) The submission of additional information concerning potential pediatric uses required by § 814.20(b)(3)(i) that is readily available to the applicant;

Food and Drug Administration

21 CFR Parts 1002, 1003, 1004, 1005, 1010, 1020, 1030, 1040, and 1050

[Docket No. FDA-2010-N-0010]

Medical Devices; Technical Amendment

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA) is amending certain medical device regulations to correct statutory and regulatory references to ensure accuracy, consistency, and clarity in the agency's regulations.

DATES: This rule is effective April 1, 2010.

FOR FURTHER INFORMATION CONTACT: Bernice E. Noland, Center for Devices and Radiological Health, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 66, rm. 4430, Silver Spring, MD 20993-0002, 301-796-5742.

SUPPLEMENTARY INFORMATION: FDA is amending its regulations at part 1002 (21 CFR part 1002) to correct a regulatory reference. FDA is revising § 1002.30(b) by deleting "paragraph (c) of § 1002.61" and replacing it with "table 1 of § 1002.1." FDA updated

§ 1002.30(a) to reflect this change, but inadvertently retained the reference to “paragraph (c) of § 1002.61” in § 1002.30(b). With this technical amendment, the entirety of the regulation at § 1002.30 accurately references “table 1 of § 1002.1,” which is the former paragraph (c) of § 1002.61.

In addition, FDA is amending its regulations at part 1002 and parts 1005 and 1010 (21 CFR parts 1005 and 1010) to correct statutory references. These parts intermittently cite sections of the Radiation Control for Health and Safety Act of 1968 (Radiation Control Act) (Public Law 90–602). However, “Act” is defined in 21 CFR 1000.3(b), and applicable throughout 21 CFR parts 1000 to 1050, subchapter J, to mean the Federal Food, Drug, and Cosmetic Act (FFDCA) (21 U.S.C. 360hh–360ss). The Safe Medical Devices Act of 1990 (SMDA) (Public Law 101–629), transferred the Radiation Control Act to the FFDCA. With these technical amendments, FDA is replacing citations to the Radiation Control Act with citations to the corresponding sections of the FFDCA. FDA is revising §§ 1002.41(a)(1) and 1002.42 by replacing section “359” of the act with section “535.” FDA is revising § 1005.25(c) by replacing section “360(d)” of the act with section “536(d).” FDA is revising § 1010.4(c)(3) by replacing section “360A(e)” of the act with section “537(e).”

Finally, FDA is amending its authority citations in parts 1003, 1004, 1005, 1010, 1020, 1030, 1040, and 1050 to correct statutory citations. These parts cite to the Public Health Service Act, which codified the Radiation Control Act at 42 U.S.C. 263b–263n, until the SMDA transferred the Radiation Control Act to the FFDCA. Section 19(a)(3) of the SMDA also repealed section 354 of the Radiation Control Act, codified at 42 U.S.C. 263b, which contained Congress’s declaration of purpose in enacting the program of electronic product radiation controls. The SMDA redesignated and transferred the remaining sections to the FFDCA at 21 U.S.C. 360hh–360ss. The authority citations in parts 1003, 1004, 1005, 1010, 1020, 1030, 1040, and 1050 to 42 U.S.C. 263b–263n were not correspondingly updated to reflect the transfer of the Radiation Control Act from the Public Health Service Act to the FFDCA. With these technical amendments, FDA is replacing citations to the Public Health Service Act with citations to the corresponding sections of the FFDCA. Thus, FDA is revising parts 1003, 1004, 1010, 1030, 1040, and 1050 by replacing the authority citation of “42 U.S.C. 263b–263n” with “21

U.S.C. 360hh–360ss.” FDA is similarly revising part 1005 by replacing the authority citation of “42 U.S.C. 263d, 263h” with “21 U.S.C. 360ii, 360mm.” FDA is also revising part 1020 by deleting the authority citation to 21 U.S.C. 360gg. Although section 354 of the Radiation Control Act would have been designated as 21 U.S.C. 360gg had the provision been transferred to the FFDCA, the SMDA repealed that section. As a result, the citation to 21 U.S.C. 360gg in part 1020 is an inadvertent error that this technical amendment will correct by deleting that part of the authority citation.

Publication of this document constitutes final action on the change under the Administrative Procedure Act (5 U.S.C. 553). These technical amendments correct regulatory and statutory references in the Code of Federal Regulations. FDA therefore, for good cause, has determined that notice and public comment are unnecessary, under 5 U.S.C. 553(b)(3)(B). Further, this rule places no burden on affected parties for which such parties would need a reasonable time to prepare for the effective date of the rule. Accordingly, FDA, for good cause, had determined this technical amendment to be exempt under 5 U.S.C. 553(d)(3) from the 30-day effective date from publication.

FDA has determined under 21 CFR 25.30(i) that this final rule is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required. In addition, FDA has determined that this final rule contains no collections of information. Therefore, clearance by the Office Management and Budget under the Paperwork Reduction Act of 1995 is not required.

For the effective date of this final rule, see the **DATES** section of this document.

21 CFR Chapter I

[Docket No. FDA–2010–N–0148]

Revision of Organization and Conforming Changes to Regulations

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is issuing this final rule to amend the regulations to reflect organization change in the agency and to make other conforming changes. This action is editorial in nature and is intended to improve the accuracy of the agency's regulations.

DATES: This rule is effective April 1, 2010.

FOR FURTHER INFORMATION CONTACT: Vanessa Starks, Office of Management Programs (HFA–410), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–4654; or Sharon Burgess, Division of Human Capital Management (HFA–410), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–2065.

SUPPLEMENTARY INFORMATION:

I. Background

FDA is issuing this final rule to amend its regulations by updating the organizational information in part 5 (21 CFR part 5).

The agency has updated the references to part 5, subpart M.

The portion of this final rule updating the organizational information in part 5, subpart M is a rule of agency organization, procedure, or practice. FDA is issuing these provisions as a final rule without publishing a general notice of proposed rulemaking because such notice is not required for rules of agency organization, procedure, or practice under 5 U.S.C. 553(b)(3)(A). For the conforming changes to the other regulations, the agency finds good cause under 5 U.S.C. 553(b)(3)(B) to dispense with prior notice and comment, and good cause under 5 U.S.C. 553(d)(3) to make these conforming changes effective less than 30 days after publication because such notice and comment and delayed effective date are unnecessary and contrary to the public interest. These conforming changes merely update the footnotes in part 5, subpart M. These changes do not result
