U.S. Honey Producer Research, Promotion, and Consumer Information Order; Referendum Procedures

AGENCY: Agricultural Marketing Service, Agriculture, USDA.

ACTION: Final rule.

SUMMARY: This rule establishes procedures which the Department of Agriculture (USDA or the Department) will use in conducting a referendum to determine whether the issuance of the proposed U.S. Honey Producer Research, Promotion, and Consumer Information Order (Proposed U.S. Producer Order) is favored by persons to be covered by and assessed under this Order. The Proposed U.S. Producer Order will be implemented if it is approved by a majority of the eligible producers voting in the referendum who also represent a majority of the volume of U.S. honey produced. These procedures will also be used for any subsequent referendum under the Order, if it is approved in the initial referendum. The Proposed U.S. Producer Order is being published separately in this issue of the **Federal Register**. This program is being implemented under the Commodity Promotion, Research, and Information Act of 1996 (1996 Act).

DATES: Effective Date: April 13, 2010.

FOR FURTHER INFORMATION CONTACT: Kimberly Coy, Marketing Specialist, Research and Promotion Branch, FV, AMS, USDA, Stop 0244, Room 0634-S, 1400 Independence Avenue, SW., Washington, DC 20250-0244; telephone 202-720-9915 or (888) 720-9917 (toll free) or e-mail kimberly.coy@usda.gov.

SUPPLEMENTARY INFORMATION: A referendum will be conducted among eligible U.S. producers of honey to determine whether they favor issuance of the proposed U.S. Honey Producer Research, Promotion, and Consumer Information Order (Proposed U.S. Producer Order) [7 CFR part 1245]. The program will be implemented if it is approved by a majority of U.S. honey producers voting in the referendum who also represent a majority of the volume of U.S. honey produced. The Order is authorized under the Commodity Promotion, Research, and Information Act of 1996 (1996 Act) [7 U.S.C. 7411-

7425]. The Order would cover the producers of U.S. honey of 100,000 pounds or more. A proposed rule and referendum order is published separately in this issue of the **Federal Register**.

Prior documents: Proposed rules on both the Proposed Order [74 FR 34182] and the Referendum Procedures [74 FR 34200] were published in the **Federal Register** on July 14, 2009 with a 60-day comment period.

Executive Order 12866

This rule has been determined to be not significant for purposes of Executive Order 12866 and, therefore, has not been reviewed by OMB.

Executive Order 12988

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. It is not intended to have retroactive effect.

Section 524 of the Act provides that the Act shall not affect or preempt any other Federal or State law authorizing promotion or research relating to an agricultural commodity.

Under Section 519 of the Act, a person subject to an order may file a petition with USDA stating that an order, any provision of an order, or any obligation imposed in connection with an order, is not established in accordance with the law, and requesting a modification of an order or an exemption from an order. Any petition filed challenging an order, any provision of an order, or any obligation imposed in connection with an order, shall be filed within two years after the effective date of an order, provision or obligation subject to challenge in the petition. The petitioner will have the opportunity for a hearing on the petition. Thereafter, USDA will issue a ruling on the petition. The Act provides that the district court of the United States for any district in which the petitioner resides or conducts business shall be the jurisdiction to review a final ruling on the petition, if the petitioner files a complaint for that purpose not later than 20 days after the date of entry of USDA's final ruling.

Final Regulatory Flexibility Act

In accordance with the Regulatory Flexibility Act (RFA) [5 U.S.C. 601-612], the Department is required to examine the impact of this rule on small entities. The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such action so that small businesses will not be disproportionately burdened.

The 1996 Act, which authorizes the Department to consider industry

proposals for generic programs of promotion, research, and information for agricultural commodities, became effective on April 4, 1996. The 1996 Act provides for alternatives within the terms of a variety of provisions.

Paragraph (e) of Section 518 of the 1996 Act provides three options for determining industry approval of a new research and promotion program: (1) By a majority of those persons voting; (2) by persons voting for approval who represent a majority of the volume of the agricultural commodity; or (3) by a majority of those persons voting for approval who also represent a majority of the volume of the agricultural commodity. In addition, Section 518 of the 1996 Act provides for referenda to ascertain approval of an order to be conducted either prior to its going into effect or within three years after assessments first begin under an order. The American Honey Producers Association (AHPA), the proponent of the Proposed U.S. Producer Order, has recommended that the Department conduct a referendum in which approval of an order would be based on a majority of U.S. producers of honey voting in the referendum who also represent a majority of the volume of U.S. honey produced. The Department is conducting a referendum prior to the Proposed U.S. Producer Order going into effect.

This rule establishes the procedures under which producers of U.S. honey will vote on whether they want a U.S. honey producer research, promotion, and consumer information program to be implemented. This rule adds a new subpart which establishes procedures to conduct an initial referendum and future referenda. The subpart covers definitions, voting instructions, use of subagents, ballots, the referendum report, and confidentiality of information.

There are approximately 317 producers of honey who would be subject to the program and eligible to vote in the first referendum. The Small Business Administration defines in 13 CFR 121, small agricultural producers as those having annual receipts of no more than \$750,000 annually and small agricultural service firms as those having annual receipts of no more than \$7.0 million. Using these criteria, most producers would be considered small businesses.

National Agricultural Statistic Service (NASS) data reports that U.S. production of honey, from producers with five or more colonies, totaled 155 million pounds in 2006. The top ten producing States in 2006 included North Dakota, South Dakota, California,

Florida, Minnesota, Montana, Texas, Wisconsin, Idaho, and New York. To avoid disclosing data for individual operations, NASS statistics do not include Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, Oklahoma, Rhode Island, and South Carolina. NASS reported the value of honey sold in 2006 was \$161,314,000. Honey prices increased during 2006 to 104.2 cents, up 14 percent from 91.8 cents in 2005.

There is a current Honey Packers and Importers Research, Promotion, Consumer Education, and Industry Information Order (Packers and Importers Order) in effect (7 CFR part 1212) that replaced the Original Honey Research, Promotion, and Consumer Information Order (Original Order) on May 15, 2008 [73 FR 29390]. Based on the assessment reports in connection with the Original Honey Research, Promotion, and Consumer Information Order and recorded by U.S. Customs and Border Protection, seventeen countries produced over 93 percent of the honey imported into the U.S. In 2005, five of these countries produced almost 79 percent of the total honey imported into the United States. These countries and their share of the imports are: China (28%), Argentina (21%), Vietnam (13%), Canada (10%), and India (8%). Imports accounted for 69 percent of U.S. consumption in 2006, an increase of 18 percent, up from 51 percent since 2002. In 2006, 155 million pounds of honey were produced in the United States, 279.4 million pounds were imported and 7.6 million pounds were exported. At the initial rate of \$0.02 per pound, revenue for the Proposed U.S. Producer Order would be approximately \$1.9 million in a twelve month period.

This rule provides the procedures under which U.S. honey producers will vote on whether they want the Proposed U.S. Producer Order to be implemented. In accordance with the provisions of the 1996 Act, subsequent referenda may be conducted, and it is anticipated that these procedures will apply. There are approximately 317 producers of honey will be eligible to vote in the first referendum. U.S. honey producers of less than 100,000 pounds of U.S. honey annually will be exempt from assessments and not eligible to vote in the referendum.

USDA will keep these U.S. honey producers informed throughout the program implementation and referendum process to ensure that they are aware of and are able to participate in the program implementation process. USDA will also publicize information regarding the referendum process so

that trade associations and related industry media can be kept informed.

Voting in the referendum is optional. However, if U.S. honey producers choose to vote, the burden of voting will be offset by the benefits of having the opportunity to vote on whether or not they want to be covered by the Proposed U.S. Producer program.

The information collection requirements contained in this rule are designed to minimize the burden on U.S. honey producers. This rule provides for a ballot to be used by eligible U.S. honey producers to vote in the referendum. The estimated total cost of providing information by an estimated 317 U.S. producers would be \$317 or \$1.00 per U.S. producers.

USDA considered requiring eligible voters to vote in person at various USDA offices across the country. USDA also considered electronic voting, but the use of computers is not universal. Conducting the referendum from one central location by mail ballot will be more cost effective and reliable. USDA will provide easy access to information for potential voters through a toll free telephone line.

There are no Federal rules that duplicate, overlap, or conflict with this rule.

Paperwork Reduction Act

In accordance with the OMB regulation [5 CFR 1320] which implements the Paperwork Reduction Act of 1995 [44 U.S.C. Chapter 35], the referendum ballot, which represents the information collection and recordkeeping requirements that may be imposed by this rule, was submitted to OMB for approval and will be approved under OMB number 0581-NEW.

Title: U.S. Honey Producers Research, Promotion, and Consumer Information Order.

OMB Number: 0581-NEW.

Expiration Date of approval: 3 years from approval date.

Title: New information collection for research and promotion programs.

Type of Request: New information collection for research and promotion programs.

Abstract: The information collection requirements in the request are essential to carry out the intent of the Act, to provide the respondents the type of service they request, and to administer the Order. The ballot is needed for the referendum that will be held to determine whether U.S. producers are in favor of the program. The information collected is used by USDA to determine whether a majority of the eligible U.S. producers voting in a referendum, who also represent a majority of the volume

of U.S. honey and honey products, approve this program.

Referendum Ballot

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 0.25 hours per response for each U.S. honey producer.

Respondents: U.S. honey producers.

Estimated Number of Respondents: 317.

Estimated Number of Responses per Respondent: 1 every 7 years (0.14).

Estimated Total Annual Burden on Respondents: 11 hours.

The ballot will be added to the other information collections approved for use under OMB Number 0581-NEW.

The estimated annual cost of providing the information by an estimated 317 U.S. honey producers would be \$317 or \$1.00 per producer.

Background

The 1996 Act, which became effective on April 4, 1996, authorizes the Department to establish a national research and promotion program covering domestic and imported honey and honey products. The AHPA submitted the Proposed U.S. Producer Order on May 25, 2007, and modifications were made to the proposal to make it consistent with the 1996 Act. Proposed rules on both the Proposed Order [74 FR 34182] and the Referendum Procedures [74 FR 34200] were published in the **Federal Register** on July 14, 2009 with a 60-day comment period. A second proposal addressing the comments received for the Proposed U.S. Producer Order is published in this issue of the **Federal Register**.

The Proposed U.S. Producer Order would provide for the development and financing of an effective and coordinated program of promotion, research, and consumer and industry information for honey and honey products in the United States. The program would be funded by an assessment levied on U.S. honey producers at an initial rate of \$0.02 per pound. U.S. honey producers of less than 100,000 pounds of U.S. honey annually will be exempt from assessments. At the initial rate of \$0.02 per pound, revenue for the Proposed U.S. Producer Order would be approximately \$1.9 million in a twelve month period.

The assessments would be used to pay for promotion, research, and consumer and industry information; administration, maintenance, and functioning of the U.S. Honey Producer Board; and expenses incurred by the Department in implementing and

administering the Order, including referendum costs.

Section 1245.19 of the Proposed U.S. Producer Order provides for a referendum to be conducted among U.S. honey producers to determine whether they favor implementation of the program. That section also requires the Proposed U.S. Producer Order to be approved by a majority of U.S. honey producers who also represent a majority of the volume of U.S. honey produced.

This rule establishes the procedures under which U.S. honey producers of honey may vote on whether they want the U.S. honey producer research, promotion, and consumer information program to be implemented. There are approximately 317 eligible voters.

This action adds a new subpart establishing procedures to be used in this and future referenda. This subpart covers definitions, voting, instructions, use of subagents, ballots, the referendum report, and confidentiality of information.

Proposed referendum procedures were published in the **Federal Register** on July 14, 2009. Copies of the proposed rule were made available by USDA and the Office of the Federal Register, and were also available via the Internet at www.regulations.gov. The proposed rule provided a 60-day comment period ending on September 14, 2009. No comments were received by the deadline.

It is found that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** (5 U.S.C. 553) so that a referendum may be scheduled as early in 2010 as possible.
