

the pillow, thereby further reducing an already low risk of flammability.

* * * the MyRide * * * child restraint is not designed to be easily removed from a motor vehicle once installed * * * the MyRide seat is tethered into the seat or is installed for use with the motor vehicle's type II lap and shoulder belt. Therefore, the only risk of exposure to an ignition source would be while installed in a motor vehicle where pinpoint open flame in the upper portion of the child restraint system on one particular side is highly unlikely.

Graco has considered the potential for variety of potential ignition sources that may be exposed to the tag. The Company believes that the likelihood of the Label coming accidentally in contact with any type of ignition device is extremely low. Graco's analysis also included potential ignition from cigarettes or other smoking materials * * *

Graco also mentioned that real world reports support the Company's belief that the noncompliant pillow labels are not a risk to safety. Graco said it has received no reports or complaints of a fire involving the MyRide™ 65 seat or any of its components. Graco added, "The insignificant opportunity of a fire hazard to a child from ignition of this small tag, located in the interior portion of the child seat contained inside a motor vehicle supports Graco's assertion regarding the inconsequential nature of this noncompliance."

In summation Graco restated its belief that based on the size of the pillow label, its location, compliance of all other labels and fabric with FMVSS No. 213, and the nearly impossible opportunities for direct ignition of the pillow label only, that the described noncompliance of the pillow label to meet the requirements of FMVSS No. 213 is inconsequential to motor vehicle safety. Thus, Graco requests that NHTSA grant its petition to exempt it from providing notification of noncompliance as required by 49 U.S.C. 30118 and remedying the noncompliance as required by 49 U.S.C. 30120.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance.
