Program Description

Program Objectives

The mission of the NIST Center for Neutron Research is to assure the availability of neutron measurement capabilities to meet the needs of U.S. researchers from industry, academia and other government agencies. The primary program objectives of the NIST Center for Neutron Research (NCNR) Comprehensive Grants Program are:

1. To advance, through cooperative efforts with one or more recipients, research consistent with the mission of NIST, and NCNR specifically. See <http://www.nist.gov/ncnr/> and 15 U.S.C. 271 *et seq.*

2. To encourage significant research involving Neutron Research and Spectroscopy specifically aimed at assisting visiting researchers at the NIST Center for Neutron Research.

3. To develop new instrumentation for Neutron Research.

4. To conduct collaborative research with NIST scientists and to conduct other outreach and educational activities that advance the use of neutrons by U.S. academic and industrial scientists.

The NCNR intends this financial assistance program to address all of these objectives through one or more Cooperative Agreements. An eligible applicant is not prohibited from including any collaborating subrecipients in its application.

Additional information about the NCNR can be found at: <http://www.nist.gov/ncnr>.

Additional information about the NIST Center for Neutron Research (NCNR) Comprehensive Grants Program NCNR may be found in the Federal Funding Opportunity (FFO) announcement for this program.

Funding Availability: NIST anticipates making 1-3 awards for a period of performance of up to 5 years at \$1,500,000—\$2,000,000 per year per award.

Total Amount to be Awarded: Up to \$25 million in Cooperative Agreements.

The funding instrument used in this program will be a Cooperative Agreement.

Proposals will be considered for Cooperative Agreements with durations of up to five years, funded in one year increments, subject to the availability of funds, satisfactory progress, and the continuing relevance to the objectives of the NIST Center for Neutron Research. The anticipated level of funding is up to \$2,000,000 per year and one or more awards may be approved. Between one and three awards are likely. Projects are expected to start by October 1, 2010.

NIST will determine whether to fund one award for the full amount; to divide available funds into multiple awards of any size, and negotiate scopes of work and budgets as appropriate; or not to select any proposal for funding, upon completing the selection process described below.

Cost Share Requirements: None.

Eligibility: This program is open to institutions of higher education; hospitals; nonprofit organizations; commercial organizations; state, local, and Indian tribal governments; foreign governments; organizations under the jurisdiction of foreign governments; and international organizations.
