SUPPLEMENTARY INFORMATION: This is a summary of the Federal Communication Commission's Public Notice in EB Docket No. 04-296, DA 10-500, released on March 25, 2010. This document is available to the public at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-10-500A1.doc.

Synopsis of the Public Notice

1. CAP is an open, interoperable, data interchange format for collecting and distributing all-hazard safety notifications and emergency warnings to multiple information networks, public safety alerting systems, and personal communications devices. In conjunction with appropriate alert transmission architectures, CAP will allow FEMA, the National Weather Service (NWS), a State Governor, or any other authorized initiator of a public alert and warning to

automatically format and geo-target a particular alert simultaneously to the public over multiple media platforms such as television radio, cable, cell phones and electronic highway signs. CAP will also allow an alert initiator to send alerts specifically formatted for people with disabilities and for non-English speakers.

2. The Commission, in its *Emergency Alert System (EAS) Second Report and Order and Further Notice of Proposed Rulemaking (Second Report and Order)*, FCC No. 07–109 (adopted May 31, 2007; released July 12, 2007) mandated that all EAS Participants must accept CAP-based EAS alerts 180 days after the date on which FEMA publishes the applicable technical standards for its adoption of CAP as the basis for FEMA-generated alerts. On July 30, 2008, FEMA announced its intention to adopt a version of CAP, and more recently announced that this adoption may occur as early as the third quarter of 2010. Such action would trigger the Commission's 180 day requirement.

3. The Commission's EAS rules, 47 CFR part 11, were not written to accommodate a CAP-based EAS and will likely require significant revision or replacement once CAP is adopted and implemented, even if CAP-formatted messages continue to be utilized in connection with the alert transmission architectures of the current or "legacy" EAS. In advance of any rulemaking that may need to be conducted by the Commission once FEMA announces its adoption of standards for CAP, PSHSB seeks informal comment regarding what, if any, part 11 changes might be necessitated by the introduction of CAP. PSHSB asks commenters to identify, with specificity, those rules that need to be modified or deleted, and to suggest new rules for Part 11—or a new rules framework to replace part 11 rules. Accordingly, commenters should feel free to address the entirety of part 11 rules in this regard. For example, commenters may address rules for a CAP-based EAS system architecture, equipment requirements, organization, operations, testing, and access for people with disabilities and non-English speakers. PSHSB also asks commenters to consider the degree to which the Commission can implement flexibility into any new rules adopted for part 11, such that future versions of CAP can be accommodated without further rule changes.

4. Further, FEMA's adoption of CAP anticipates FEMA's deployment of IPAWS, which will combine new and innovative technologies and distribution systems with greater redundancy and resiliency for the delivery of emergency

alerts. In its *EAS Second Report and Order*, the Commission requires EAS Participants to configure their networks to receive CAP-formatted alerts delivered via any new delivery systems, whether wireline, internet, satellite, or other, within 180 days after the date that FEMA announces the technical standards for the Next Generation EAS. However, the Commission's rules presently also do not address such alert distribution methods.

5. Accordingly, PSHSB also takes this opportunity to ask commenters to identify specific rule changes or additions that they foresee could advance or facilitate introduction of a CAP-based Next Generation EAS architecture. In this regard, PSHSB seeks comment on the extent to which states already are adopting CAP-based systems for distribution of state and local EAS alerts, and the extent to which any revisions to Part 11 can be adopted in manner consistent with those systems. Again, PSHSB urges commenters to consider the degree to which the Commission can and should implement flexibility into its new rules, in order to accommodate future changes to EAS delivery systems without necessitating repeated revisions to Part 11. What factors should the Commission weigh in determining whether and/or when to implement future rule changes? Should the structure and content of state EAS Plans covered by § 11.21 of the EAS rules be altered to accommodate CAP and, if so, how?

6. Finally, PSHSB seeks comment on what rules changes, if any, are necessary to our Part 11 rules to ensure access to a CAP-based EAS by people with disabilities and those who do not speak English. We seek comment on how states that have adopted CAP currently address this issue. We also seek comment on the status of any initiatives or programs developed by, as well as any ongoing discussions among, interested stakeholders to address these issues.

Fisheries of the Economic Exclusive Zone Off Alaska; Pacific Cod in the Bering Sea and Aleutian Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; modification of a closure.

SUMMARY: NMFS is opening directed fishing for Pacific cod by catcher vessels less than 60 feet (18.3 meters) length overall using hook-and-line or pot gear in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to fully use the 2010 total allowable catch (TAC) of Pacific cod specified for the BSAI.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), April 30, 2010, through 2400 hrs, A.l.t., December 31, 2010. Comments must be received at the following address no later than 4:30 p.m., A.l.t., April 29, 2010.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

NMFS closed directed fishing for Pacific cod by catcher vessels less than 60 feet (18.3 meters) length overall using hook-and-line or pot gear in the BSAI under § 679.20(d)(1)(iii) on March 25, 2010 (75 FR 15626, March 26, 2010).

NMFS has determined that as of April 9, 2010, approximately 400 metric tons of Pacific cod remain in the 2010 Pacific cod apportionment for catcher vessels less than 60 feet (18.3 meters) length overall using hook-and-line or pot gear in the BSAI. Therefore, in accordance with § 679.25(a)(1)(i), (a)(2)(i)(C), and (a)(2)(iii)(D), and to fully use the 2010 TAC of Pacific cod in the BSAI, NMFS is terminating the previous closure and is opening directed fishing for Pacific cod by catcher vessels less than 60 feet (18.3 meters) length overall using hook-and-line or pot gear in the BSAI.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the

requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the opening of the Pacific cod fishery by Pacific cod by catcher vessels less than 60 feet (18.3 meters) length overall using hook-and-line or pot gear in the BSAI. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing season, and to avoid potential disruption to the fishing fleet and processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of April 9, 2010.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Without this inseason adjustment, NMFS could not allow the fishery for Pacific cod by catcher vessels less than 60 feet (18.3 meters) length overall using hook-and-line or pot gear in the BSAI to be harvested in an expedient manner and in accordance with the regulatory schedule. Under § 679.25(c)(2), interested persons are invited to submit written comments on this action to the above address until April 29, 2010.

This action is required by § 679.25 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 12, 2010.
