**SUPPLEMENTARY INFORMATION:** The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the

regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226).

The ADFG requests a five-year permit to conduct studies on cetaceans in waters of the Bering, Chukchi, and Beaufort Seas in Alaska to determine population abundance, stock structure, feeding areas and other important habitats, migration routes, behavior relative to human disturbance, and to genetically identify individuals to determine survival and calving intervals. The target species are beluga whale (*Delphinapterus leucas*), endangered bowhead whale (*Balaena mysticetus*), gray whale (*Eschrichtius robustus*), and endangered humpback whale (*Megaptera novaeangliae*). Research activities for beluga whales include aerial survey (up to 1,000 animals per each of four stocks annually), capture for tagging and sample collection (up to 35 animals per each of four stocks annually), and remote biopsy (up to 350 animals per each of four stocks annually). Research activities for bowhead whales include tagging (105 animals annually) and remote biopsy (up to 50 animals annually). Research activities for gray whales include tagging (up to 50 animals annually) and biopsy (up to 50 animals annually). Research activities for humpback whales include tagging (up to 20 animals annually) and remote biopsy (up to 20 animals annually). Up to 10 each of harbor seals (*Phoca vitulina*), bearded seals (*Erignathus barbatus*), ringed seals (*P. hispida*), and spotted seals (*P. largha*) would be harassed annually incidental to the cetacean research. Tissue samples collected from whales would be imported and exported to collaborators for genetic, health, and dietary studies.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: April 14, 2010.
