

Agency: Employee Benefits Security Administration.

Type of Review: Extension without change of a currently approved collection.

Title of Collection: Employee Benefit Plan Claims Procedure Under ERISA.

OMB Control Number: 1210-0053.

Affected Public: Private sector.

Estimated Number of Respondents: 6,646,164.

Total Estimated Annual Burden

Hours: 506,808.

Total Estimated Annual Costs Burden (operation and maintenance): \$509,877,037.

Description: The Employee Retirement Income Security Act of 1974 (ERISA) Section 503 and the Department's implementing regulations at 29 CFR 2560.503-1 require employee benefit plans to establish procedures for resolving benefit claims under the plan, including initial claims and appeal of denied claims. The regulation requires specific information to be disclosed at different stages of the claims process. It also requires claims denial notices to be provided within specific time frames and to include specific information. For additional information, see related notice published in the **Federal Register** on January 14, 2010 (Vol. 75 FR page 2161).

Agency: Employee Benefits Security Administration.

Type of Review: Extension without change of a currently approved collection.

Title of Collection: PTE 80-83—Sale of Securities to Reduce Indebtedness of Party in Interest.

OMB Control Number: 1210-0064.

Affected Public: Private sector.

Estimated Number of Respondents: 25.

Total Estimated Annual Burden

Hours: 15.

Total Estimated Annual Costs Burden (operation and maintenance): \$0.

Description: This Class Exemption exempts from the prohibited transaction provisions of the Employee Retirement Income Security Act of 1974 certain transactions involving an employee benefit plan's purchase of securities that may aid the issuer of the securities, who is a party in interest to the plan, in reducing or retiring its indebtedness to a third party. For additional information, see related notice published in the **Federal Register** on December 30, 2009 (Vol. 74 FR page 69366).

Agency: Employee Benefits Security Administration.

Type of Review: Extension without change of a currently approved collection.

Title of Collection: Prohibited Transaction Class Exemption 75-1 Security Transactions with Broker-Dealers, Reporting Dealers and Banks.

OMB Control Number: 1210-0092.

Affected Public: Private sector.

Estimated Number of Respondents: 8,376.

Total Estimated Annual Burden

Hours: 1,396.

Total Estimated Annual Costs Burden (operation and maintenance): \$0.

Description: This class exemption from the prohibited transaction provisions of the Employee Retirement Income Security Act of 1974 permits certain banks, registered broker-dealers, and reporting dealers in government securities who are parties in interest to employee benefit plans to engage in specified kinds of securities transactions with the plans. For additional information, see related notice published in the **Federal Register** on December 31, 2009 (Vol. 74 FR page 69366).

Agency: Employee Benefits Security Administration.

Type of Review: Extension without change of a currently approved collection.

Title of Collection: PTE 88-59—Residential Mortgage Financing Arrangements Involving Employee Benefit Plans.

OMB Control Number: 1210-0095.

Affected Public: Private sector.

Estimated Number of Respondents: 2,237.

Total Estimated Annual Burden

Hours: 932.

Total Estimated Annual Costs Burden (operation and maintenance): \$0.

Description: This class exemption permits employee benefit plans to enter into specified transactions involving residential mortgage loans with parties in interest without violating the prohibited transaction provisions of the Employee Retirement Income Security Act of 1974, provided specified conditions are met. Among other conditions, the plan must maintain records pertaining to covered transactions for the duration of the loan and must make the records available upon request to plan trustees, investment managers, participants and beneficiaries, and agents of the Department or the Internal Revenue Service. For additional information, see related notice published in the **Federal Register** on December 31, 2009 (Vol. 74 FR page 69363).

Agency: Employee Benefits Security Administration.

Type of Review: Extension without change of a currently approved collection.

Title of Collection: Petition for Finding Under Section 3(40) of ERISA.

OMB Control Number: 1210-0119.

Affected Public: Private sector.

Estimated Number of Respondents: 45.

Total Estimated Annual Burden

Hours: 225.

Total Estimated Annual Costs Burden (operation and maintenance): \$163,268.

Description: The Department's regulations at 29 CFR 2570.150 *et seq.* provide procedures for an entity against whom State jurisdiction has been asserts to petition the Secretary to make a finding under section 3(40)(A)(i) of the Employee Retirement Income Security Act of 1974 (ERISA) that the entity is established or maintained under or pursuant to one or more collective bargaining agreements. The regulations establish procedures for initiating an administrative proceeding before the Office of Administrative Law Judges (ALJs) and establish that an ALJ's decision shall constitute a finding under section 3(40)(A)(i) of ERISA. The regulations also provide for an appeal of an ALJ decision to the Secretary. For additional information, see related notice published in the **Federal Register** on December 30, 2009 (Vol. 74 FR page 69148).

NATIONAL TRANSPORTATION SAFETY BOARD

Sunshine Act Meeting

TIME AND DATE: 9:30 a.m., Tuesday, May 4, 2010.

PLACE: NTSB Conference Center, 429 L'Enfant Plaza SW., Washington, DC 20594.

STATUS: The one item is open to the public.

Agenda

MATTER TO BE CONSIDERED: 8082A Aircraft Accident Report—Loss of Thrust in Both Engines After Encountering a Flock of Birds and Subsequent Ditching on the Hudson River, US Airways Flight 1549, Airbus A320-214, N106US, Weehawken, New Jersey, January 15, 2009.
NEWS MEDIA CONTACT: Telephone: (202) 314-6100.

The press and public may enter the NTSB Conference Center one hour prior to the meeting for set up and seating.

Individuals requesting specific accommodations should contact

Rochelle Hall at (202) 314-6305 by Friday, April 30, 2010. The public may view the meeting via a live or archived Webcast by accessing a link under "News & Events" on the NTSB home page at www.nts.gov.

FOR MORE INFORMATION CONTACT: Candi Bing, (202) 314-6403.

Dated: Friday, April 16, 2010.

Candi R. Bing,

Federal Register Liaison Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 050-16; NRC-2010-0159]

DTE Energy; Enrico Fermi Atomic Power Plant, Unit 1

Environmental Assessment and Finding of No Significant Impact for an Exemption From Certain Control and Tracking Requirements in 10 CFR Part 20 Appendix G Section III.E

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption from certain control and tracking requirements in 10 CFR Part 20 Appendix G Section III.E for Facility Operating License No. DPR-9 issued to DTE Energy (DTE or the licensee), for the Enrico Fermi Atomic Power Plant Unit 1, (Fermi-1) located in Monroe County, Michigan.

Environmental Assessment

Identification of Proposed Action

The proposed action is in accordance with the licensee's application for an exemption dated November 13, 2009. The licensee has requested an exemption from certain control and tracking requirements in 10 CFR Part 20 Appendix G Section III.E, which require the licensee to investigate, and file a report with the NRC, if shipments of low-level radioactive waste are not acknowledged by the intended recipient within 20 days after transfer to the shipper.

The proposed action would grant an exemption to extend the time period that can elapse during shipments of low-level radioactive waste before the licensee is required to investigate and file a report with the NRC. Specifically, the exemption would extend the time period for the licensee to receive acknowledgment that the low-level radioactive waste shipment has been received by the intended recipient from 20 days to 35 days.

The Need for the Proposed Action

DTE is in the process of decommissioning Fermi-1. During the decommissioning process, large volumes of slightly contaminated debris are generated and require disposal. DTE transports low-level radioactive waste from Fermi-1 to distant locations such as a waste disposal facility operated by Energy Solutions in Clive, Utah.

The licensee's request to extend the 20-day investigation and reporting requirements for shipments of low-level radioactive waste to 35 days is based on historical data derived from recent shipments from Fermi-1. That experience indicates that rail or mixed mode truck/rail transportation times to waste disposal facilities consistently exceeded the 20-day reporting requirement. A review of the data indicates that transportation time for shipments by rail or truck/rail took over 20 days on average and, on occasion, took up to 34 days to receive the manifest confirming shipment. Shipping from Fermi-1 is expected to continue to be either by rail or a combination of truck/rail shipments, as larger and bulkier components are planned for shipment. The use of rail is expected to continue to result in shipping delays that exceed the 20 day reporting time for shipments from Fermi-1.

The licensee believes, and the staff agrees, that the need to investigate, trace, and report to the NRC on the shipment of low-level waste packages not reaching their destination within 20 days does not serve the underlying purpose of the rule. Therefore, the NRC staff finds that granting an exemption to extend the time period from 20 days to 35 days for mixed-mode or truck/rail or rail shipments of low-level radioactive waste will not result in an undue hazard to life or property.

Environmental Impacts of the Proposed Action

The NRC has reviewed the licensee's proposed exemption request and concluded that the proposed exemption is procedural and administrative in nature.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released offsite, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed

action does not involve any historic sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (*i.e.*, the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Agencies and Persons Contacted

In accordance with NRC policy, on March 23, 2010, NRC staff consulted with a representative from the Michigan Department of Natural Resources and the Environment, Radiological Protection and Medical Waste Section, regarding the environmental impact of the proposed action. The state official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

Dated at Rockville, Maryland, this 14th day of April 2010.

For the U.S. Nuclear Regulatory Commission.

Keith I. McConnell,

Deputy Director, Decommissioning and Uranium Recovery Licensing Directorate, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs.
