Projects funded under this priority must include within the degree program information about and experience in the State VR system. Projects must include partnering activities for students with the State VR agency including experiential activities, such as formal internships or practicum agreements. to as the Comprehensive System of Personnel Development (CSPD);

(2) Address the academic degree and academic certificate needs specified in the CSPD plans of those States with which the project will be working; and

(3) Develop innovative approaches (e.g., distance learning, competency-based programs, and other methods) that would maximize participation in, and the effectiveness of, project training.

V. Application Review Information

Selection Criteria: The selection criteria for these competitions are from 34 CFR 75.210 and 34 CFR 386.20 and are listed in the application package.

VI. Award Administration Information

1. **Award Notices:** If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. **Administrative and National Policy Requirements:** We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. **Reporting:** At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

4. **Performance Measures:** The Government Performance and Results Act (GPRA) of 1993 directs Federal departments and agencies to improve the effectiveness of programs by engaging in strategic planning, setting outcome-related goals for programs, and measuring program results against those goals.

The goal of the Rehabilitation Services Administration's (RSA) Rehabilitation Training: Rehabilitation Long-Term Training program is to increase the number of qualified VR personnel, including counselors and other professional staff, working in State VR or related agencies. At least 75 percent of all grant funds must be used for direct payment of student scholarships.

Grantees are required to track current and former RSA scholars and maintain accurate information on them from the time they are enrolled in the program until they successfully meet their payback requirements. Specifically, each grantee is required to maintain information on the cumulative support granted to RSA scholars, scholar debt in years, program completion date and reason for exit for each scholar, dates each scholar's work begins and is completed to meet his or her payback agreement, type of employment scholars attain, all current contact information for scholars including home address, and the place of employment of individual scholars.

Grantees are required to report annually to RSA on these data elements using the RSA Grantee Reporting Form, OMB number 1820-0617, an electronic reporting system supported by the RSA Management Information System (RSA MIS). The RSA Grantee Reporting Form

collects specific data, including the number of RSA scholars entering the rehabilitation workforce, the rehabilitation field each scholar enters, and the type of employment setting each scholar chooses (e.g., State agency, nonprofit service provider, or practice group). This form allows RSA to measure results against the goal of increasing the number of qualified VR personnel working in State VR and related agencies.

All Rehabilitation Long-Term Training grantees must also submit information in their annual report that details their relationship with State VR agencies including any information demonstrating articulation agreements, internships for RSA scholars, or employment of program graduates in the State VR agency.

SUPPLEMENTARY INFORMATION:

This notice of final priority is in concert with NIDRR's Final Long-Range Plan for FY 2005-2009 (Plan). The Plan, which was published in the **Federal Register** on February 15, 2006 (71 FR 8165), can be accessed on the Internet at the following site: <http://www.ed.gov/about/offices/list/opers/nidrr/policy.html>.

Through the implementation of the Plan, NIDRR seeks to: (1) Improve the

quality and utility of disability and rehabilitation research; (2) foster an exchange of expertise, information, and training to facilitate the advancement of knowledge and understanding of the unique needs of traditionally underserved populations; (3) determine best strategies and programs to improve rehabilitation outcomes for underserved populations; (4) identify research gaps; (5) identify mechanisms of integrating research and practice; and (6) disseminate findings.

Purpose of Program: The purpose of the Disability and Rehabilitation Research Projects and Centers Program is to plan and conduct research, demonstration projects, training, and related activities, including international activities, to develop methods, procedures, and rehabilitation technology, that maximize the full inclusion and integration into society, employment, independent living, family support, and economic and social self-sufficiency of individuals with disabilities, especially individuals with the most severe disabilities, and to improve the effectiveness of services authorized under the Rehabilitation Act of 1973, as amended.

RRTC Program

The purpose of the RRTC program is to improve the effectiveness of services authorized under the Rehabilitation Act of 1973, as amended, through advanced research, training, technical assistance, and dissemination activities in general problem areas, as specified by NIDRR. Such activities are designed to benefit rehabilitation service providers, individuals with disabilities, and the family members or other authorized representatives of individuals with disabilities. In addition, NIDRR intends to require all RRTC applicants to meet the requirements of the *General Rehabilitation Research and Training Centers (RRTC) Requirements* priority that it published in a notice of final priorities in the **Federal Register** on February 1, 2008 (73 FR 6132). Additional information on the RRTC program can be found at: <http://www.ed.gov/rschstat/research/pubs/res-program.html#RRTC>.

Applicable Program Regulations: 34 CFR part 350.

We published a notice of proposed priority (NPP) for NIDRR's Disability and Rehabilitation Research Projects and Centers Program in the **Federal Register** on December 18, 2009 (74 FR 67186). The NPP included a background statement that described our rationale for the priority proposed in that notice.

There are no differences between the NPP and this notice of final priority (NFP) as discussed in the following section.

Public Comment: In response to our invitation in the NPP, three parties submitted comments on the proposed priority. An analysis of the comments and of any changes in the priority since publication of the NPP follows.

Generally, we do not address technical and other minor changes, or suggested changes the law does not authorize us to make under the applicable statutory authority. In addition, we do not address general comments that raised concerns not directly related to the proposed priority.

Analysis of Comments and Changes

Comment: One commenter recommended that NIDRR award grants to applicants who propose research that will contribute to the improvement of rehabilitation programs for underserved populations. This commenter also suggested that NIDRR select applicants who clearly identify robust methods for research and practice.

Discussion: NIDRR agrees that the research funded under this priority should contribute to improved employment practices for underserved populations. We have structured the requirements of this priority with the aim of identifying individuals with disabilities who are at risk for poor employment outcomes and generating new knowledge that can be used to
