

consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Clean Air Act. Unless EPA or the Department of Justice determines, based on any comment which may be submitted, that consent to the settlement agreement should be withdrawn, the terms of the agreement will be affirmed.

II. Additional Information About Commenting on the Proposed Settlement Agreement

A. How can I get a copy of the settlement agreement?

Direct your comments to the official public docket for this action under Docket ID No. EPA-HQ-OGC-2010-0400 which contains a copy of the settlement agreement. The official public docket is available for public viewing at the Office of Environmental Information (OEI) Docket in the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OEI Docket is (202) 566-1752.

An electronic version of the public docket is available through <http://www.regulations.gov>. You may use the <http://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, key in the appropriate docket identification number, then select "search".

It is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing online at <http://www.regulations.gov> without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. Information claimed as CBI and other information whose disclosure is restricted by statute is not included in the official public docket or in the electronic public docket. EPA's policy is that copyrighted material, including copyrighted material contained in a public comment, will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. Although not all docket materials may be available electronically, you may still access any

of the publicly available docket materials through the EPA Docket Center.

B. How and to whom do I submit comments?

You may submit comments as provided in the **ADDRESSES** section. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment and with any disk or CD-ROM you submit. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <http://www.regulations.gov> Web site to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment. In contrast to EPA's electronic public docket, EPA's electronic mail (e-mail) system is not an "anonymous access" system. If you send an e-mail comment directly to the Docket without going through <http://www.regulations.gov>, your e-mail address is automatically captured and included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

II. Background

A. What Action is the Agency Taking?

In accordance with 40 CFR 155.58, this notice announces the availability of EPA's proposed registration review decisions for the pesticides shown in the table in Unit II.A. and opens a 60-day public comment period on the proposed decisions.

Garlic oil is the volatile oil extracted from the bulb of the garlic plant or the entire plant. Garlic oil is used as a repellent for the control of insects, mites, birds, deer, rabbits and squirrels and is registered for use on terrestrial food and feed such as vegetables, fruits, nuts, and grains. Garlic oil is also registered for use on terrestrial non-food crops such as ornamental plants and shrubs.

Capsaicin is a naturally occurring polymer that comprises the principal active element of chili peppers (genus *Capsaicum*). Capsaicin is used as a fungicide, insect repellent and vertebrate animal repellent. Use sites are indoor and outdoor terrestrial uses. Applications are residential, commercial and when applied as a defensive repellent, circumstantial.

TABLE—REGISTRATION REVIEW PROPOSED FINAL DECISIONS

Registration Review Case Name and Number	Pesticide Docket ID Number	Regulatory Action Leader, Telephone Number, E-mail Address
Garlic Oil (case number 4007)	EPA-HQ-OPP-2009-0113	Cheryl Greene, (703) 308-0352, green.cheryl@epa.gov

TABLE— REGISTRATION REVIEW PROPOSED FINAL DECISIONS—Continued

Registration Review Case Name and Number	Pesticide Docket ID Number	Regulatory Action Leader, Telephone Number, E-mail Address
Capsaicin (case number 4018)	EPA-HQ-OPP-2009-0121	Chris Pfeifer, (703) 308-0031, pfeifer.chris@epa.gov

The registration review docket for a pesticide includes earlier documents related to the registration review of the case. For example, the review opened with the posting of a Summary Document, containing a Preliminary Work Plan, for public comment. A Final Work Plan was posted to the docket following public comment on the initial docket.

The documents in the dockets describe EPA's rationales for conducting additional risk assessments for the registration review of the pesticides included in the table in Unit II.A., as well as the Agency's subsequent risk findings. These proposed registration review decisions are supported by the rationales included in those documents..

Following public comment, the Agency will issue final registration review decisions for products containing the pesticides listed in the table in Unit II.A.

The registration review program is being conducted under Congressionally mandated time frames, and EPA recognizes the need both to make timely decisions and to involve the public. Section 3(g) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, required EPA to establish, by regulation, procedures for reviewing pesticide registrations, originally with a goal of reviewing each pesticide's registration every 15 years to ensure that a pesticide continues to meet the FIFRA standard for registration. The Agency's final rule to implement this program was issued in August 2006 and became effective in October 2006, and appears at 40 CFR part 155, subpart C. The Pesticide Registration Improvement Act of 2003 (PRIA) was amended and extended in September 2007. FIFRA, as amended by PRIA in 2007, requires EPA to complete registration review decisions by October 1, 2022, for all pesticides registered as of October 1, 2007.

The registration review final rule at 40 CFR 155.58(a) provides for a minimum 60-day public comment period on all proposed registration review decisions. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the proposed decision. All comments should be

submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. These comments will become part of the docket for the pesticides included in the table in Unit II.A. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

The Agency will carefully consider all comments received by the closing date and will provide a "Response to Comments Memorandum" in the docket. The final registration review decision will explain the effects that any comments had on the decision and provide the Agency's response to significant comments.

Background on the registration review program is provided at: http://www.epa.gov/oppsrrd1/registration_review. Links to earlier documents related to the registration review of these pesticides are provided at: http://www.epa.gov/oppsrrd1/registration_review/reg_review_status.htm.

B. What is the Agency's Authority for Taking this Action?

Section 3(g) of FIFRA and 40 CFR part 155, subpart C, provide authority for this action.
