Recovery Policy RP9523.5, Debris Removal From Waterways

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice of availability.

SUMMARY: This document provides notice of the availability of the final Recovery Policy RP9523.5, *Debris Removal from Waterways*.

DATES: This policy is effective March 29, 2010.

ADDRESSES: This final policy is available online at <http://www.regulations.gov> under docket ID FEMA-2010-0025 and on FEMA's Web site at <http://www.fema.gov>. You may also view a hard copy of the final policy at the Office of Chief Counsel, Federal Emergency Management Agency, Room 835, 500 C Street, SW., Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: Mr. Byron Mason, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472; 202-646-4368 phone; 202-646-3304 facsimile; Byron.Mason@dhs.gov.

SUPPLEMENTARY INFORMATION: The Public Assistance Program provides, following a Presidentially-declared major disaster or emergency, supplemental Federal disaster grant assistance for the repair, replacement, or restoration of disaster damaged, publicly-owned facilities and the facilities of certain Private Non-Profit (PNP) organizations. To be eligible under the Public Assistance Program, work must be required as the result of the emergency or major disaster, be located within the designated area, and be the legal responsibility of an eligible applicant. Emergency work that must be performed to reduce or eliminate an immediate threat to life, to protect public health and safety, and to protect improved property that is threatened in a significant way as a result of the major disaster or emergency includes debris removal.

This policy was developed to provide guidance for determining the eligibility of debris removal from navigable waterways, the coastal and inland zones, and wetlands under the Public Assistance Program. Recent disaster activity, including Hurricanes Katrina and Ike, demonstrated the need for additional guidance to clarify the roles

and responsibilities of FEMA, the U.S. Army Corps of Engineers (USACE), and the U.S. Coast Guard (USCG) in removing debris, wreckage, and sunken vessels from waterways. This policy draws upon recent disaster experience in delineating eligibility for debris removal from waterways under the Public Assistance Program. The USACE and USCG reviewed and provided input on this policy.

Authority: 42 U.S.C. 5170b, 5173, and 5192.

Fish and Wildlife Service

[FWS-R2-ES-2010-N062; 20124-11130000-C2]

Endangered and Threatened Wildlife and Plants; Mexican Wolf (*Canis lupus baileyi*) Conservation Assessment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability: Conservation assessment.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of the Mexican Wolf Conservation Assessment (assessment). The assessment provides scientific information relevant to the conservation of the Mexican wolf (*Canis lupus baileyi*) in Arizona and New Mexico as a component of the Service's gray wolf (*Canis lupus*) recovery efforts. Not required by the Endangered Species Act (Act), the assessment is a nonregulatory document that does not require action by any party.

ADDRESSES: An electronic copy of the assessment is on our Web site at <http://www.fws.gov/southwest/es/Library/>. You may also obtain a paper copy by contacting Maggie Dwire, by U.S. mail at U.S. Fish and Wildlife Service, New Mexico Ecological Services Field Office, 2105 Osuna NE, Albuquerque, NM 87113; by telephone at 505-761-4783; by facsimile at 505-346-2542; or by e-mail at Maggie_Dwire@fws.gov.

FOR FURTHER INFORMATION CONTACT: Maggie Dwire (see **ADDRESSES**).

SUPPLEMENTARY INFORMATION:

Listed Entity

The Mexican wolf was listed as an endangered subspecies of gray wolf in 1976 (41 FR 17736, April 28, 1976). In 1978, the Service listed the gray wolf species in North America south of Canada as endangered, except in Minnesota where it was listed as threatened (43 FR 9607, March 9, 1978). The 1978 rangewide listing of the gray wolf species subsumed the subspecies listing; however, we stated in the preamble to the rule that the Service would continue to recognize the

Mexican wolf as a valid biological subspecies for purposes of research and conservation (43 FR 9607). After the 1978 listing of the gray wolf in the U.S. Code of Federal Regulations (CFR), the 50 CFR 17.11(h) List of Endangered and Threatened Wildlife did not explicitly refer to an entity called the "Mexican wolf." Due to the Mexican wolf's previous listed status as a subspecies, we have continued to refer to the gray wolf in the southwestern United States as the "Mexican wolf." Today, the gray wolf has been delisted in Idaho and Montana and portions of Oregon, Washington, and Utah (74 FR 15123, April 2, 2009). It is listed as threatened in Minnesota and remains endangered throughout the remaining coterminous United States and Mexico, except where designated as nonessential experimental populations (63 FR 1752, January 12, 1998, and 74 FR 15123).

Background

The conservation and recovery of species are primary goals of the Service's endangered species program. The Mexican wolf historically inhabited the southwestern United States and portions of Mexico until it was virtually eliminated in the wild by private and governmental predator eradication efforts in the late 1800s and early to mid-1900s. Conservation and recovery efforts to ensure the survival of the Mexican wolf were initially guided by the 1982 Mexican Wolf Recovery Plan (U.S. Fish and Wildlife Service 1982) (recovery plan), which recommended the establishment of a captive breeding program and the reintroduction of Mexican wolves to the wild. Both of these recommendations have been implemented. Today an international captive breeding program houses more than 300 wolves, and a wild population of approximately 42 wolves (as of the official 2009 end-of-year count) inhabits Arizona and New Mexico.

Although the 1982 recovery plan was instrumental in guiding the inception of the Mexican wolf program in the southwest, the plan requires updating to provide current guidance for the reintroduction and recovery effort. We have initiated revisions to the 1982 recovery plan, but have been unable to finalize a revision due to various constraints. We are working to resolve these constraints to reinstate a full revision of the recovery plan, and are undertaking this conservation assessment as an interim step.

This assessment provides the type of information typically contained in a recovery plan, including the listing history of the Mexican wolf and gray wolf, current species' biology and
