The Commission is reporting a 4,333 hour adjustment increase in burden hours and a \$2,139,400 decrease in annual costs. The change in burden hours and costs are due to a complete review of the Commission's initial burden estimates.

The public burden requirements will be used by incumbent licensees and new entrants to negotiate relocation agreements and to coordinate operations to avoid interference. The information will also be used by the clearinghouses to maintain a national database, determine reimbursement obligations of entrants pursuant to the Commission's rules and notify such entrants of their reimbursement obligations. Also, the information will be used to facilitate dispute resolution and for FCC oversight of the clearinghouses and the cost-sharing plan. Additionally, the requirements regarding foreign ownership, substantial service compliance, and interference coordination has been used in the past and will continue to be used to minimize interference, verify that the applicants are legally and technically qualified to hold licenses, and to determine compliance with Commission rules.
