

provide more reliable estimates and significantly improve policymakers' ability to assess policy effects on fishery-dependent communities in Southeast Alaska. The survey will be conducted one-time only. The survey (mailed) will request data on employment, labor payments, and other expenditures from owners of 1,700 vessels that delivered fish to Southeast Alaska processors in 2009.

II. Method of Collection

Mail surveys will be used.

III. Data

OMB Control Number: None.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 425.

Estimated Time per Response: 20 minutes.

Estimated Total Annual Burden Hours: 142.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: May 4, 2010.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-22-P

U.S. DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 29-2010]

Foreign-Trade Zone 125 - South Bend, Indiana

Application for Reorganization under Alternative Site Framework

An application has been submitted to the Foreign-Trade Zones (FTZ) Board (the Board) by the St. Joseph County Airport Authority, grantee of Foreign-Trade Zone 125, requesting authority to reorganize the zone under the alternative site framework (ASF) adopted by the Board (74 FR 1170, 1/12/09; correction 74 FR 3987, 1/22/09). The ASF is an option for grantees for the establishment or reorganization of general-purpose zones and can permit significantly greater flexibility in the designation of new "usage-driven" FTZ sites for operators/users located within a grantee's "service area" in the context of the Board's standard 2,000-acre activation limit for a general-purpose zone project. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u) and the regulations of the Board (15 CFR part 400). It was formally filed on April 29, 2010.

FTZ 125 was approved by the Board on March 11, 1986 (Board Order 326, 51 F.R. 10564; 3/27/86). After approval of a minor boundary modification (A(27f)-33-95), the general-purpose zone currently consists of the following two sites: *Site 1:* (7 acres) - located at 2809 North Foundation Drive within the Airport Industrial Park, South Bend (St. Joseph County); and *Site 2:* (21 acres) - located at 1507 South Olive Street, South Bend (St. Joseph County), Indiana.

The grantee's proposed service area under the ASF would be St. Joseph, Elkhart, Kosciusko, Marshall, LaPorte and Starke Counties, Indiana, as described in the application. If approved, the grantee would be able to serve sites throughout the service area based on companies' needs for FTZ designation. The proposed service area is within and adjacent to the Chicago Customs and Border Protection port of entry.

The applicant is requesting authority to reorganize its existing zone project to include both of the existing sites as "magnet" sites. The ASF allows for the possible exemption of one magnet site from the "sunset" time limits that generally apply to sites under the ASF, and the applicant proposes that Site 2 be so exempted. No usage-driven sites

are being requested at this time. Because the ASF only pertains to establishing or reorganizing a general-purpose zone, the application would have no impact on FTZ 125's authorized subzones.

In accordance with the Board's regulations, Claudia Hausler of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is July 6, 2010. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to July 21, 2010.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue, NW, Washington, DC 20230-0002, and in the "Reading Room" section of the Board's website, which is accessible via www.trade.gov/ftz. For further information, contact Claudia Hausler at Claudia.Hausler@trade.gov or (202)482-1379.

Dated: April 29, 2010.

Andrew McGilvray,

Executive Secretary.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XV18

Endangered and Threatened Species; Recovery Plans

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Extension of public comment period.

SUMMARY: On March 18, 2010, we, NMFS, announced the release of the Draft Recovery Plan for Central California Coast coho salmon (Draft Plan) for public review and comment. The Draft Plan addresses the Central California Coast coho salmon (*Oncorhynchus kisutch*) Evolutionarily Significant Unit (ESU). NMFS is soliciting review and comment from the

public and all interested parties on the Draft Plan. As part of that proposal, we provided a 60-day comment period, ending on May 17, 2010. We have received requests for an extension of the public comment period. In response to these requests, we are extending the comment period for the proposed action an additional 60 days.

DATES: Information and comments on the subject action must be received by July 6, 2010.

ADDRESSES:

Please send written comments to Charlotte Ambrose, National Marine Fisheries Service, 777 Sonoma Avenue, Room 325, Santa Rosa, CA 95404. Comments may also be submitted by e-mail to: CohoRecovery.SWR@noaa.gov. Include in the subject line of the e-mail comment the following identifier: Comments on Central Valley Salmon and Steelhead Draft Plan. Comments may be submitted via facsimile (fax) to (707) 578-3435.

Persons wishing to review the Draft Plan can obtain an electronic copy (i.e., CD-ROM) from Andrea Berry by calling (866) 300-2948 or by e-mailing a request to Andrea.Berry@noaa.gov with the subject line "CD-ROM Request for CCC coho salmon Recovery Draft Plan." Electronic copies of the Draft Plan are also available on-line on the NMFS website http://swr.nmfs.noaa.gov/recovery/Coho_Recovery_Plan_031810.htm.

FOR FURTHER INFORMATION CONTACT: Charlotte Ambrose, NCCC Domain Recovery Coordinator at (707) 575-6068, or Maura Eagan Moody at (707) 575-6092.

SUPPLEMENTARY INFORMATION:

Background

On March 18, 2010, we published a Notice of Availability of the Draft Central California Coast coho salmon Recovery Plan (Draft Plan) for public review and comment (FR 13081). The Draft Plan addresses the Central California Coast coho salmon (*Oncorhynchus kisutch*) Evolutionarily Significant Unit (ESU). NMFS is soliciting review and comment from the public and all interested parties on the Draft Plan. As part of that proposal, we provided a 60-day comment period, ending on May 17, 2010. Public meetings were held in Fort Bragg, CA, on March 31, 2010, in Santa Cruz, CA, on April 8, and in Santa Rosa, CA on April 9, 2010. We have received requests for an extension of the public comment period. In response to these requests, we are extending the comment period for the proposed action an additional 60 days.

Information and comments must be received by July 6, 2010.

Authority: 16 U.S.C. 1531 *et seq.*

Dated: May 4, 2010.

Therese Conant,

Acting Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XW33

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: NOAA's National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), U. S. Department of Commerce.

ACTION: Notice of receipt of a permit application; request for comments.

SUMMARY: Notice is hereby given that NMFS has received an application for a permit to conduct research for scientific purposes from the Resource Conservation District of the Santa Monica Mountains (RCD), in southern California. The requested permit would affect the endangered Southern California (SC) Distinct Population Segment (DPS) of steelhead (*Oncorhynchus mykiss*). The public is hereby notified of the availability of the permit application for review and comment before NMFS either approves or disapproves the application.

DATES: Written comments on the permit application must be received at the appropriate address or fax number (see **ADDRESSES**) on or before June 7, 2010.

ADDRESSES: Written comments on the permit application should be sent to Matt McGoogan, Protected Resources Division, NMFS, 501 W. Ocean Blvd., Suite 4200, Long Beach, California 90802. Comments may also be sent using email (FRNpermits.1b@noaa.gov) or fax (562.980.4027). The permit application is available for review, by appointment, at the foregoing address and is also available for review online at the Authorizations and Permits for Protected Species website at <https://apps.nmfs.noaa.gov>.

FOR FURTHER INFORMATION CONTACT: Matt McGoogan at phone number (562.980.4026) or e-mail: matthew.mcgoogan@noaa.gov

SUPPLEMENTARY INFORMATION:

Authority

Issuance of permits, as required by the Endangered Species Act of 1973 (16 U.S.C. 1531B1543) (ESA), is based on a finding that such permits: (1) are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits are issued in accordance with and are subject to the ESA and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 222B226).

Those individuals requesting a hearing on an application listed in this notice should provide the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the permit action summaries are those of the applicant and do not necessarily reflect the views of NMFS.

Permit Application Received

The RCD has applied for a permit (permit 15390) to study the endangered SC DPS of steelhead (*Oncorhynchus mykiss*) in streams emptying to the Santa Monica Bay of southern California, with specific focus on Topanga Creek, Arroyo Sequit, and Malibu Creek. The purpose of this study is to use monitoring methods to gather information that will contribute to the understanding of migration patterns, diet, and the abundance and distribution of steelhead in the subject streams. Monitoring methods include using direct underwater observation techniques for estimating abundance and distribution of steelhead, migratory trapping, and Passive Integrated Transponder (PIT) tagging. Sampling methods to obtain steelhead for abundance counts and PIT tagging may include hand nets, seine nets, angling, fyke traps, and electrofishing. Field activities will occur between June 2010 and December 2020. The RCD has requested an annual non-lethal take of 1150 juvenile steelhead, 100 smolts, and 10 adult steelhead as well as an annual collection and possession of up to 950 steelhead tissue samples and 10 steelhead carcasses. The 100 smolts and up to 850 juvenile steelhead (depending on size) could be processed for PIT tags. Adult steelhead may be captured in fyke traps, but will be released without being PIT tagged. Gastric lavage would be
