SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-62019; File No. SR-NYSEArca-2010-16]

Self-Regulatory Organizations; NYSE Arca, Inc.; Order Granting Approval of Proposed Rule Change Amending Rule 6.37A and Rule 6.64

April 30, 2010.

On March 11, 2010, NYSE Arca, Inc. ("NYSE Arca" or "Exchange") filed with the Securities and Exchange Commission ("Commission") a proposed rule change pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4² thereunder to amend the bid-ask differentials for

market maker quotations outlined in NYSE Arca Rule 6.37A(b)(4) and amend NYSE Arca Rule 6.64(b) to establish bid-ask parameters in the OX System to be used during the opening auction process ("Auction") and to implement an associated conforming change to NYSE Arca Rule 6.87. The proposed rule change was published for comment in the **Federal Register** on March 30, 2010.³ The Commission received no comment letters regarding the proposal. This order approves the proposed rule change.

Currently, NYSE Arca Rule 6.37A(b)(4) specifies the bid-ask differential requirements applicable to market maker quotations when electronically bidding and offering on the OX System during an Auction. The Exchange now proposes to replace the applicable bid-ask differentials for market maker quoting obligations during an Auction, with the \$5 quote differential that is in place at all other times.

NYSE Arca also proposes to establish parameters for the opening auction as described in Rule 6.64. Pursuant to this proposed rule change, the OX System will not conduct an Auction in a given series unless the composite NYSE Arca bid-ask is within an acceptable range. For the purposes of the Auction, an acceptable range will be the bid-ask parameters pursuant to Rule 6.37(b)(1)(A)-(E). These bid-ask differentials are identical to the existing legal width differentials for market maker Auction quotations which this filing proposes to delete. The Exchange represented that by establishing price protection parameters within the Auction process of the OX System, rather than just as a requirement for submitted quotes, customers and other market participants will be afforded a higher level of price protection than they presently have on NYSE Arca.

In addition, the Exchange proposes a minor change to Rule 6.87—Obvious Errors and Catastrophic Errors. Rule 6.87(b)(2)(B) presently contains a reference to bid-ask differentials pursuant to Rule 6.37A(b)(4)-(5). Due to the proposed changes contained in this filing related to the bid-ask differentials of Rule 6.37A(b)(4)-(5), the Exchange proposes to now reference the bid-ask differentials contained in Rule 6.37(b)(1)(A)-(E). The bid-ask differentials of each rule are identical, therefore the change will not alter in any way the methods used by the Exchange when making obvious error determinations.

After careful consideration, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange⁴ and, in particular, the requirements of Section 6 of the Act.⁵ Specifically, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act,⁶ which requires, among other things, that the rules of a national securities exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanisms of a free and open market and a national market system, and, in general, to protect investors and the public interest.

The Commission notes that the requirements provided under the Exchange's current quote parameters applicable during the Auction are not being eliminated but instead are being transferred and integrated into the Auction process itself. Pursuant to the proposed rule change, the OX System will not conduct an Auction in a given series unless the BBO is within an acceptable range, delineated by the parameters in NYSE Arca Rule 6.37(b)(1)(A)-(E), the identical width differentials for market maker Auction quotations that currently exist. The Commission believes that establishing parameters in the Auction process itself instead should enhance efficiency in pricing for customers and other market participants. Lastly, the proposed conforming changes to NYSE Arca Rule 6.87 are not substantive and thus do not raise any regulatory concerns. For these reasons, the Commission finds that the proposed changes are consistent with the Act.

Therefore, it is ordered, pursuant to Section 19(b)(2) of the Act,⁷ that the proposed rule change (SR-NYSEArca-2010-16) is hereby approved.

⁴ In approving this proposed rule change, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-62028; File No. SR-Phlx-2010-65]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by NASDAQ OMX PHLX, Inc. To Add Seventy-Five Options Classes to the Penny Pilot Program

May 4, 2010.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4² thereunder, notice is hereby given that on April 27, 2010, NASDAQ OMX PHLX, Inc. (“Phlx” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing with the Commission a proposal to designate seventy-five options classes to be added to the Penny Pilot Program (“Penny Pilot” or “Pilot”) on May 3, 2010.³ The Exchange is not proposing to amend any rule text, but simply administering or enforcing an existing rule.⁴

The text of the proposed rule change is available on the Exchange’s Web site at <http://nasdaqomxphlx.cchwallstreet.com/NASDAQOMXPHLX/Filings/>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to identify the next seventy-five options classes to be added to the Penny Pilot effective May 3, 2010.

In the Exchange’s immediately effective filing to extend and expand the Penny Pilot through December 31, 2010,⁵ the Exchange proposed expanding the Pilot four times on a quarterly basis. Each such quarterly expansion would be of the next seventy-five most actively traded multiply listed options classes based on the national average daily volume (“ADV”) for the six months prior to selection, closing under \$200 per share on the Expiration Friday prior to expansion; however, the month immediately preceding the addition of options to the Penny Pilot will not be used for the purpose of the six month analysis. Index option products would be included in the quarterly expansions if the underlying index levels were under 200.

The Exchange is identifying, in the chart below, seventy-five options classes that it will add to the Penny Pilot on May 3, 2010, based on ADVs for the six months ending March 31, 2010.
