SUPPLEMENTARY INFORMATION:

Background and Purpose

A Certificate of Alternative Compliance, as allowed under Title 33, Code of Federal Regulation, Parts 81 and 89, has been issued for the offshore supply vessel JOSHUA CANDIES, O.N.

1219732. Full compliance with 72 COLREGS and Inland Rules Act will hinder the vessel's ability to conduct loading and unloading operations. The horizontal distance between the forward and aft masthead lights may be 6.506 meters. Placing the aft masthead light at the horizontal distance from the forward masthead light as required by Annex I, paragraph 3(a) of the 72 COLREGS would result in an aft masthead light location directly over the aft cargo deck where it would interfere with loading and unloading operations.

The Certificate of Alternative Compliance allows for the horizontal separation of the forward and aft masthead lights to deviate from the requirements of Annex I, paragraph 3(a) of 72 COLREGS. This notice is issued under authority of 33 U.S.C. 1605(c), and 33 CFR 81.18.

Dated: April 15, 2010.

Certificate of Alternative Compliance for the Crew Boat CAPT PEYTON P

AGENCY: Coast Guard, DHS.

ACTION: Notice.

SUMMARY: The Coast Guard announces that a Certificate of Alternative Compliance was issued for the crew boat CAPT PEYTON P as required by 33 U.S.C. 1605(c) and 33 CFR 81.18.

DATES: The Certificate of Alternate Compliance was issued on April 22, 2010.

SUPPLEMENTARY INFORMATION:

Background and Purpose

A Certificate of Alternative Compliance as allowed under title 33, Code of Federal Regulation, parts 81 and 89, has been issued for the crew boat CAPT PEYTON P, O.N. 1224730. Full compliance with 72 COLREGS and the Inland Rules Act would hinder the vessel's ability to maneuver within close proximity of offshore platforms. Due to the design of the vessel it would be difficult and impractical to build a supporting structure that would put the side lights within 2'11-7/8" from the greatest breadth of the vessel, as required by Annex I, paragraph 3(b) of the 72 COLREGS and Annex I, Section 84.05(b), of the Inland Rules Act. Compliance with the rule would cause the lights on the crew boat CAPT PEYTON P to be in a location which would be highly susceptible to damage from offshore platforms. The crew boat CAPT PEYTON P cannot comply fully with lighting requirements as set out in international regulations without interfering with the special function of the vessel (33 U.S.C. 1605(c); 33 CFR 81.18). Locating the side lights 5'7-1/16" inboard from the greatest breadth of the vessel on the pilot house will provide a sheltered location for the lights and allow maneuvering within close proximity to offshore platforms.

In addition, the forward masthead light may be located on the top forward portion of the pilothouse 18'-2" above the hull. Placing the forward masthead light at the height as required by Annex I, paragraph 2(a) of the 72 COLREGS, and Annex I, Section 84.03(a) of the Inland Rules Act, would result in a masthead light location highly

susceptible to damage when working in close proximity to offshore platforms.

Furthermore the horizontal distance between the forward and aft masthead lights may be 16'-9 15/16". Placing the aft masthead light at the horizontal distance from the forward masthead light as required by Annex I, paragraph 3(a) of the 72 COLREGS, and Annex I, Section 84.05(a) of the Inland Rules Act, would result in an aft masthead light location directly over the aft cargo deck where it would interfere with loading and unloading operations.

The Certificate of Alternative Compliance allows for the placement of the side lights to deviate from requirements set forth in Annex I, paragraph 3(b) of 72 COLREGS, and Annex I, paragraph 84.05(b) of the Inland Rules Act. In addition the Certificate of Alternative Compliance allows for the vertical placement of the forward masthead light to deviate from requirements set forth in Annex I, paragraph 2(a), and Annex I, Section 84.03(a) of the Inland Rules Act. Furthermore the Certificate of Alternative Compliance allows for the horizontal separation of the forward and aft masthead lights to deviate from the requirements of Annex I, paragraph 3(a) of 72 COLREGS, and Annex I, Section 84.05(a) of the Inland Rules Act.

This notice is issued under authority of 33 U.S.C. 1605(c), and 33 CFR 81.18.

Dated: April 27, 2010.

J.W. Johnson,

Commander, U.S. Coast Guard, Chief, Inspections and Investigations Branch, By Direction of the Commander, Eighth Coast Guard District.
