motor vehicle emissions budgets are provided in the following table:

Stanislaus	1.0	25.8	0.9	20.8
Tulare	0.9	23.3	0.8	19.5

Our letter dated April 23, 2010 also states that budgets for the attainment year of 2014 are inadequate for transportation conformity purpose. The State has included additional on-road mobile source emissions reductions in the budgets for 2014 from the 2007 State Strategy for the California State Implementation Plan (SIP). The adequate budgets include no such reductions but rather reflect emissions reductions from CARB rules that have already been adopted. EPA has determined that the 2014 budgets are inadequate because they include new emission reductions that do not result from specific or enforceable control measures. As a result, three of the transportation conformity rule's adequacy criteria are not met (40 CFR 93.118(e)(4)(iii), (iv), and (v)) for these budgets. The inadequate motor vehicle emissions budgets are provided in the following table:

SJV PM_{2.5} PLAN MOTOR VEHICLE EMISSIONS BUDGETS FOUND INADEQUATE

[Annual average, tons per day]

	2014	
	PM _{2.5}	NO _x
Fresno	1.1	26.0
Kern (SJV)	1.4	41.6
Kings	0.3	8.1
Madera	0.3	6.7
Merced	0.6	14.8
San Joaquin	0.9	20.3
Stanislaus	0.5	12.4
Tulare	0.5	12.2

Receipt of the motor vehicle emissions budgets in the San Joaquin Valley 2008 PM_{2.5} Plan was announced on EPA's transportation conformity Web site on August 19, 2008. We received no comments in response to the adequacy review posting. The finding is available at EPA's transportation conformity Web

site: <http://www.epa.gov/otaq/stateresources/transconf/adequacy.htm>.

Transportation conformity is required by Clean Air Act section 176(c). EPA's conformity rule requires that transportation plans, transportation improvement programs, and projects conform to SIPs and establishes the criteria and procedures for determining whether or not they do conform. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP's motor vehicle emission budgets are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4) which was promulgated in our August 15, 1997 final rule (62 FR 43780, 43781–43783). We have further described our process for determining the adequacy of submitted SIP budgets in our July 1, 2004 final rule (69 FR 40004, 40038), and we used the information in these resources in making our adequacy determination. Please note that an adequacy review is separate from EPA's completeness review, and should not be used to prejudge EPA's ultimate approval action for the SIP. Even if we find a budget adequate, the SIP could later be disapproved.

Adequacy Status of the Hickory-Morganton-Lenoir, North Carolina 1997 PM_{2.5} Attainment; Demonstration Motor Vehicle Emissions Budget for Transportation Conformity Purposes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy; correcting amendment.

SUMMARY: On March 1, 2010, EPA published a notice in the **Federal Register** to notify the public of an adequacy determination that the Agency made with regards to the motor vehicle emissions budget (MVEB) for nitrogen oxides (NO_x) and for an insignificance determination related to fine particulate matter (PM_{2.5}) for mobile sources' overall contribution to the PM_{2.5} pollution in the Hickory-Morganton-Lenoir area (hereafter referred to as the Hickory Area). In that notice, EPA identified the units of measure for the NO_x MVEB as kilograms per day (kgd). EPA is publishing this amendment to correctly identify the units of measure for the NO_x MVEB as kilograms per year (kgy). Additionally, the March 1, 2010, **Federal Register** notice included an inadvertent error to the docket ID number which is being corrected in this action.

DATES: This action is effective May 12, 2010.

ADDRESSES: Copies of the documentation used in the action being corrected are available for inspection during normal business hours at the following location: U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960. The Regional Office's official hours of business are Monday through

Friday, 8:30 to 4:30, excluding federal holidays.

FOR FURTHER INFORMATION CONTACT: Ms. Amanetta Somerville, Environmental Scientist, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960. Ms. Somerville can be reached at 404-562-9025, or via electronic mail at somerville.amanetta@epa.gov.

SUPPLEMENTARY INFORMATION: On August 21, 2009, the State of North Carolina, through the North Carolina Department of Environment and Natural Resources (NCDENR), submitted the attainment demonstration for the 1997 PM_{2.5} nonattainment area for the Hickory Area. The Hickory 1997 PM_{2.5} nonattainment area is comprised of Catawba County, North Carolina. North Carolina's attainment demonstration included a MVEB for NO_x and an insignificance finding for the overall contribution of direct PM_{2.5} from mobile sources to the PM_{2.5} pollution in Catawba County.

EPA Region 4 sent a letter to NCDENR on January 20, 2010, stating that the 2009 NO_x MVEB in the 1997 PM_{2.5} attainment demonstration for the Hickory Area was adequate for the purposes of transportation conformity purposes. The letter identified the NO_x MVEB as 2,887,955 kgd. Subsequently, in response to North Carolina's submission, on March 1, 2010, EPA notified the public of its finding of adequacy for the NO_x MVEB and also identified the NO_x MVEB as 2,887,955 kgd. The units of measure provided in North Carolina's submission for the NO_x MVEB are actually kgy and not kgd so EPA is correcting this error. The March 1, 2010, rulemaking also contained an inadvertent error to the docket ID number, published as EPA-R04-OAR-2009-0561. The correct docket ID number is EPA-R04-OAR-2009-0751, which EPA is correcting through this action.

On April 20, 2010, EPA sent a letter to North Carolina noting this error and announcing that a correcting amendment (this notice) would be published soon to alert the public to this correction. Below identifies the correct NO_x MVEBs for the Hickory Area.
