

technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

### III. Current Actions

*Type of Review:* Extension with revisions.

*Agency:* Employment and Training Administration.

*Title:* SCSEP Performance Measurement System.

*OMB Number:* 1205-0040.

*Agency Form Numbers:* ETA-9120, ETA-9121, ETA-9122, ETA-9123, ETA-9124A, ETA-9124B, ETA-9124C, ETA-8705, and ETA-9130.

*Recordkeeping:* N/A.

*Affected Public:* Not-for-profit institutions; state, local and tribal governments; business or other for-profit organizations; the Federal government; and individuals.

*Forms:* Participant Data Form—ETA-9120; Community Service Assignment Form—ETA-9121; Unsubsidized Employment Form—ETA-9122; Exit Form—ETA-9123; Equitable Distribution Report Form—ETA-8705; Participant Customer Satisfaction—ETA-9124A; Host Agency Customer Satisfaction—ETA-9124B; Employer Customer Satisfaction—ETA-9124C; Quarterly Financial Report—ETA-9130.

*Total Respondents:* 33,621.

*Frequency:* Annual and/or Quarterly.

*Average Time per Response:* 8 minutes.

*Total Responses:* 324,621.

*Estimated Total Burden Hours:* 47,318.

*Total Burden Cost (operating/maintaining):* \$83,434.

Comments submitted in response to this comment request will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Signed at Washington, DC, this 6th day of May 2010.

**Jane Oates,**

*Assistant Secretary, Employment and Training Administration.*

## DEPARTMENT OF LABOR

### Employee Benefits Security Administration

#### 151st Meeting of the Advisory Council on Employee Welfare and Pension Benefit Plans; Notice of Meeting

Pursuant to the authority contained in Section 512 of the Employee Retirement

Income Security Act of 1974 (ERISA), 29 U.S.C. 1142, the 151st open meeting of the Advisory Council on Employee Welfare and Pension Benefit Plans will be held on June 29–July 1, 2010.

The three-day meeting will take place in C-5310 Room 1-B, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210. The purpose of the open meeting, which will run from 9 a.m. to approximately 5 p.m. on June 29 and 30, and from 8:30 a.m. to approximately 4 p.m. on July 1, with a one-hour break for lunch, is for Advisory Council members to hear testimony from invited witnesses and to receive an update from the Employee Benefits Security Administration (EBSA). The EBSA update is scheduled for June 30, subject to change.

*The Advisory Council will study the following issues:* (1) Employee Benefit Plan Auditing and Financial Reporting Models, (2) Disparities for Women and Minorities in Retirement and Health Care, and (3) Healthcare Literacy. The schedule for testimony and discussion of these issues generally will be one issue per day in the order noted above. Descriptions of these topics are available on the Advisory Council page of the EBSA Web site, at [http://www.dol.gov/ebsa/aboutebsa/erisa\\_advisory\\_council.html](http://www.dol.gov/ebsa/aboutebsa/erisa_advisory_council.html).

Organizations or members of the public wishing to submit a written statement may do so by submitting 30 copies on or before June 15, 2010, to Larry Good, Executive Secretary, ERISA Advisory Council, U.S. Department of Labor, Suite N-5623, 200 Constitution Avenue, NW., Washington, DC 20210. Statements also may be submitted as e-mail attachments in text or pdf format transmitted to [good.larry@dol.gov](mailto:good.larry@dol.gov). It is requested that statements not be included in the body of the e-mail. Relevant statements received on or before June 15, 2010, will be included in the record of the meeting and posted on the Advisory Council page of the EBSA Web site. Individuals or representatives of organizations wishing to address the Advisory Council should forward their requests to the Executive Secretary or telephone (202) 693-8668. Oral presentations will be limited to ten minutes, time permitting, but an extended statement may be submitted for the record. Individuals with disabilities who need special accommodations should contact Larry Good by June 22 at the address indicated.

Signed at Washington, DC, this 10th day of May 2010.

**Michael L. Davis,**

*Deputy Assistant Secretary, Employee Benefits Security Administration.*

## DEPARTMENT OF LABOR

### Mine Safety and Health Administration

#### Petitions for Modification

**AGENCY:** Mine Safety and Health Administration (MSHA), Labor.

**ACTION:** Notice of petitions for modification of existing mandatory safety standards.

**SUMMARY:** Section 101(c) of the Federal Mine Safety and Health Act of 1977 and 30 CFR Part 44 govern the application, processing, and disposition of petitions for modification. This notice is a summary of petitions for modification filed by the parties listed below to modify the application of existing mandatory safety standards published in Title 30 of the Code of Federal Regulations.

**DATES:** All comments on the petitions must be received by the Office of Standards, Regulations and Variances on or before June 14, 2010.

**ADDRESSES:** You may submit your comments, identified by “docket number” on the subject line, by any of the following methods:

1. *Electronic Mail:* [Standards-Petitions@dol.gov](mailto:Standards-Petitions@dol.gov).

2. *Facsimile:* 1-202-693-9441.

3. *Regular Mail:* MSHA, Office of Standards, Regulations and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, Virginia 22209-3939, Attention: Patricia W. Silvey, Director, Office of Standards, Regulations and Variances.

4. *Hand-Delivery or Courier:* MSHA, Office of Standards, Regulations and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, Virginia 22209-3939, Attention: Patricia W. Silvey, Director, Office of Standards, Regulations and Variances.

MSHA will consider only comments postmarked by the U.S. Postal Service or proof of delivery from another delivery service such as UPS or Federal Express on or before the deadline for comments. Individuals who submit comments by hand-delivery are required to check in at the receptionist desk on the 21st floor.

Individuals may inspect copies of the petitions and comments during normal business hours at the address listed above.

**FOR FURTHER INFORMATION CONTACT:** Barbara Barron, Office of Standards, Regulations and Variances at 202-693-9447 (Voice), *barron.barbara@dol.gov* (E-mail), or 202-693-9441 (Telefax). [These are not toll-free numbers.]

**SUPPLEMENTARY INFORMATION:**

**I. Background**

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary determines that: (1) An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or (2) that the application of such standard to such mine will result in a diminution of safety to the miners in such mine. In addition, the regulations at 30 CFR 44.10 and 44.11 establish the requirements and procedures for filing petitions for modification.

**II. Petitions for Modification**

*Docket Numbers:* M-2010-018-C and M-2010-019-C.

*Petitioner:* South Akers Mining Company, LLC, and Hubble Mining Company, LLC, P.O. Box 392, Pikeville, Kentucky 41502.

*Mine:* Mine No. S.A.M. 10, MSHA I.D. No. 15-18436, Mine No. S.A.M. 14, MSHA I.D. No. 15-16583, Mine No. S.A.M. 19, MSHA I.D. No. 15-19390, located in Pike County, Kentucky and Mine No. S.A.M. 17, MSHA I.D. No. 15-19178, located in Letcher County, Kentucky; and Mine No. 2, MSHA I.D. No. 15-18626, Mine No. 6, MSHA I.D. No. 15-19208, Mine No. 7, MSHA I.D. No. 15-19266, located in Pike County, Kentucky and Mine No. 8, MSHA I.D. No. 15-19252, located in Letcher County, Kentucky.

*Regulation Affected:* 30 CFR 75.1506(a)(2) (Refuge alternatives).

*Modification Request:* The petitioner requests a modification of the existing standard concerning the structural components of units consisting of 15 pounds per square inch (psi) stopping constructed prior to an event. The petitioner proposes to use a refuge alternative in the mines listed above consisting of a secure space cut in the rib on the intake air side of a mine or configured in other locations of the mine, all within 1,000 feet of the working face, which contain the Hubble Breathable Air Unit Emergency Supply Container, ("HBA Unit Emergency Supply Container"), and otherwise

complying with all applicable provisions set forth in 30 CFR 75.1506(b) through (g). The HBA Unit Emergency Supply Container is a steel reinforced materials storage box approximately 8 feet, 6½ inches in length, and 5 feet, 6 inches in width. The secure area will be accessible and included in pre-shift examinations involving the regular inspection of the secure area and the exterior and interior spaces of the HBA Unit Emergency Supply Container. The HBA Unit Emergency Supply Container: (A) Is certified as designed and constructed to withstand 15 psi overpressure for 0.2 seconds and the heat requirements of 30 CFR 75.505; (B) designed and made to withstand exposure to a flash fire of 300 degrees Fahrenheit for 3 seconds prior to deployment; (C) made with steel which does not have potential to ignite; (D) made from steel and is structurally reinforced, thus providing sufficient durability to withstand routine handling and resist puncture and tearing during deployment and use; and (E) guarded or reinforced to prevent damage to the structure that would hinder deployment, entry, or use.

The HBA Unit Emergency Supply Container contains an apparatus to supply breathable air to the secure space resulting in an isolated atmosphere with a consistently maintained positive pressure. The breathable air may be provided to the secure space for an indefinite duration because it is used in conjunction with the Hubble Breathable Air Unit ("HBA Unit") or other unit approved for supplying breathable air into the mine from the surface. The HBA Unit is currently being considered for approval by MSHA and the application has been issued Code Number 8297.

The HBA Unit Emergency Supply Container also contains two inflatable brattices manufactured by the Heintzmann Corporation, commercially referred to as the "Inflatable Life Curtain." The Inflatable Life Curtain will be used to isolate the safe haven from the mine atmosphere. Each Inflatable Life Curtain has a door allowing ingress and egress to and from the secure area that utilizes Velcro fastening. The Inflatable Life Curtain will be inflated in place, as recommended by Heintzmann Corporation manufacturing specifications. The inflation canisters containing carbon dioxide used in conjunction with the Inflatable Life Curtains are also contained within the HBA Unit Emergency Supply container, along with installation instructions. Alternatively, the Inflatable Life Curtains are designed to be inflated, by an apparatus connected to the regulator

within the HBA Unit Emergency Supply Container. Use of this apparatus to inflate the Inflatable Life Curtains with breathable air does not affect the supply of breathable air supplied to the secure area because the regulator can be used to increase flow to maintain all standards set forth in 30 CFR 75.506(c).

The Inflatable Life Curtains are designed to achieve a seal in areas with irregular sides, bottoms and roofs by virtue of the inflatable portion of the Inflatable Life Curtains being on its outer perimeter. The piping supplying breathable air to the HBA Unit Emergency Supply container does not affect the seal achieved by the Inflatable Life Curtain because, except in certain intersections of the mine where the piping is buried, the piping will be covered with inert material at a depth to the diameter of the pipe. The material used for covering will be material such as: Ballast, sand bags, rock dust, mine gob, earth—rock and dirt, gravel, refuse, or other similar material that is approved in the mine ventilation plan. Spray foam is also included in the HBA Unit Emergency Supply container to use in the unlikely event the Inflatable Life Curtain does not achieve a tight seal on the entry and exit to the secure area.

All miners working in the above-referenced mines will receive extensive training on the installation, use, and maintenance of the Inflatable Life Curtains. The useable life of the Inflatable Life Curtains is approximately 10 years, and those included within the HBA Unit Emergency Supply Container will be regularly inspected and replaced as needed.

The petitioner states that all miners in the mines affected by these petitions will receive regular and thorough training on all aspects of the installation, use, and maintenance of all proposed systems. The petitioner also states that they are unaware of existing technology that can be feasibly utilized in the mines listed above to provide an area behind 15 psi stoppings allowing for easy access. The petitioner has listed in these petitions other alternative provisions that will be followed when using the refuge alternative. Persons may review a complete list of the provisions for these petitions at the MSHA address listed in this notice. The petitioner asserts that application of the existing standard concerning the structural components of units consisting of 15 psi stoppings constructed prior to an event, will result in a diminution of safety to the miners located in the mines listed above, because there is no feasible way to ventilate harmful gases such as carbon monoxide and methane from an area

behind 15 psi stoppings. The petitioner asserts that the proposed alternative method will at all times guarantee no less than the same measure of protection afforded by the existing standard.

*Docket Number:* M-2010-001-M.

*Petitioner:* Morton International, Inc., Highway 83 South, New Iberia, Louisiana 70560.

*Mine:* Weeks Island Mine, MSHA I.D. No. 16-00970, located in Iberia County, Louisiana.

*Regulation Affected:* 30 CFR 57.22304 (Approved equipment (II-A mines)).

*Modification Request:* The petitioner proposes to use Model J251-D/E Face Drill, manufactured by J.H. Fletcher & Company. The petitioner states that: (1) The J251-D/E Face Drill consists of an electric drill combined with a diesel-powered tram system. The electric and diesel power systems are electrically interlocked within the permissible enclosure. The electric drill meets the requirements of 30 CFR part 18. The electrical interlock between the electric and diesel components prevents the operation of the electrical system when the diesel is running, and prevents the diesel system from operating when the electrical system is running. The diesel engine for the tram is not an MSHA-approved permissible engine. The J251-D/E Face Drill has a methane monitoring system which will be connected to both the electric drill and the diesel tram circuits of the machine and shuts down both functions at a set level of methane; (2) drilling equipment without a diesel tram system requires a multi-step process to transport the permissible drill equipment between remote face locations. These steps include: (a) hitching the permissible equipment to a diesel vehicle; (b) disabling the permissible equipment's tram system and brakes; (c) towing the permissible equipment to the new face location; (d) re-enabling the tram system and brakes; (e) disconnecting the tow vehicle; and (f) repositioning the tow vehicle away from the cutting and drilling equipment; (3) although procedures and training utilized by miners allow these manual steps to be accomplished safely, a machine with its own diesel tram system provides an engineered method to reduce hazards for miners associated with towing vehicles and towed equipment. Those hazards include some of the likely causes of fatalities and serious injuries in mines (e.g. getting caught between the equipment and/or rib); (4) prohibiting the use of the drill will require miners at the Weeks Island Mine to continue to rely on a manual multi-step process, with greater potential for human error to move drilling equipment

across long distances rather than benefiting from an engineered safety solution. The petitioner asserts that application of the existing standard will result in a diminution of safety to the miners and that the proposed alternative method will at all times assure no less than the same measure of protection afforded by the standard and actually will provide improved safety.

**Patricia W. Silvey,**

*Director, Office of Standards, Regulations and Variances.*

## DEPARTMENT OF LABOR

### Mine Safety and Health Administration

#### Petitions for Modification

This notice amends the petition for modification submitted by Lone Mountain Processing, Inc., on July 15, 2009, (Docket Number M-2009-024-C). The amendment assigns a separate docket number for each of the mines listed. Lone Mountain Processing, Inc., filed a petition for modification of existing standard 30 CFR 75.503 (Permissible electric face equipment; maintenance) and 30 CFR 18.35 (Portable trailing cables and cords) for the Clover Fork No. 1 Mine, (MSHA I.D. No. 15-18647), Huff Creek No. 1 Mine (MSHA I.D. No. 15-17234), and Darby Fork No. 1 Mine, (MSHA I.D. No. 15-02263). MSHA published the notice in the **Federal Register** on December 21, 2009 (74 FR 67915). Initially, this petition for modification was assigned one docket number. After investigating these mines it has been determined that the conditions at the mines are different and a separate decision and order will be issued for each mine. This requires having separate docket numbers for each mine. A docket number is assigned for each of the mines as follows: (a) The Lone Mountain Processing, Inc., Clover Fork No. 1 Mine, (MSHA I.D. No. 15-18647), Docket No. M-2009-024-C; (b) Huff Creek No. 1 Mine (MSHA I.D. No. 15-17234), Docket No. M-2010-021-C; and (c) Darby Fork No. 1 Mine, (MSHA I.D. No. 15-02263), Docket No. M-2010-022-C. These mines are located in Harlan County, Kentucky.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

### Notice of Information Collection

**AGENCY:** National Aeronautics and Space Administration (NASA).

**NOTICE:** (10-051).

**ACTION:** Notice of information collection.

**SUMMARY:** The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. 3506(c)(2)(A)).

**DATES:** All comments should be submitted within 30 calendar days from the date of this publication.

**ADDRESSES:** All comments should be addressed to Brenda Maxwell, Mail Code JF000, National Aeronautics and Space Administration, Washington, DC 20546-0001.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Brenda Maxwell, NASA PRA Officer, NASA Headquarters, 300 E Street, SW., Mail Code JF000, Washington, DC 20546, (202) 358-4616, [Brenda.Maxwell@nasa.gov](mailto:Brenda.Maxwell@nasa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

Information collection is required to effectively manage and administer contracts with an estimated value more than \$500,000 for required goods and services in support of NASA's mission.

##### II. Method of Collection

NASA collects this information electronically where feasible, but information may also be collected by mail or fax.

##### III. Data

*Title:* NASA acquisition process, reports required for contracts with an estimated value more than \$500,000.

*OMB Number:* 2700-0089.

*Type of Review:* Renewal of a currently approved collection.

*Affected Public:* Business or other for-profit; Not-for-profit institutions; and State, Local or Tribal Government.

*Estimated Number of Respondents:* 1,700.

*Estimated Annual Responses:* 93,500.

*Estimated Time per Response:* 7 hours.

*Estimated Total Annual Burden Hours:* 654,500.
