**NUCLEAR REGULATORY  
COMMISSION**

**[NRC–2010–0179]**

**Biweekly Notice; Applications and  
Amendments to Facility Operating  
Licenses Involving No Significant  
Hazards Considerations**

**I. Background**

Pursuant to section 189a. (2) of the  
Atomic Energy Act of 1954, as amended  
(the Act), the U.S. Nuclear Regulatory  
Commission (the Commission or NRC)  
is publishing this regular biweekly  
notice. The Act requires that the  
Commission publish notice of any  
amendments issued, or proposed to be  
issued and grants the Commission the  
authority to issue and make  
immediately effective any amendment  
to an operating license upon a  
determination by the Commission that  
such amendment involves no significant  
hazards consideration, notwithstanding  
the pendency before the Commission of  
a request for a hearing from any person.

This biweekly notice includes all  
notices of amendments issued, or  
proposed to be issued from April 22 to  
May 5, 2010. The last biweekly notice  
was published on May 4, 2010 (75 FR

**Notice of Consideration of Issuance of  
Amendments to Facility Operating  
Licenses, Proposed No Significant  
Hazards Consideration Determination,  
and Opportunity for a Hearing**

The Commission has made a  
proposed determination that the  
following amendment requests involve  
no significant hazards consideration.  
Under the Commission's regulations in  
Title 10 of the Code of Federal  
Regulations (10 CFR) 50.92, this means  
that operation of the facility in  
accordance with the proposed  
amendment would not (1) Involve a  
significant increase in the probability or  
consequences of an accident previously  
evaluated; or (2) create the possibility of  
a new or different kind of accident from  
any accident previously evaluated; or  
(3) involve a significant reduction in a  
margin of safety. The basis for this  
proposed determination for each  
amendment request is shown below.
