3506(c)(2)(A)) requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, the CPSC is publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, the CPSC invites comments on these topics: (1) Whether the proposed collection of information is necessary for the proper performance of CPSC's functions, including whether the information will have practical utility; (2) the accuracy of CPSC's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

Title: Safety Standard for Bicycle Helmets—16 CFR part 1203 (OMB Control Number 3041–0127—

Extension).

Description: In 1994, Congress passed the "Child Safety Protection Act," which, among other things, included the "Children's Bicycle Helmet Safety Act of 1994" Public Law 103-267, 108 Stat. 726. This law directed the Commission to issue a final standard applicable to bicycle helmets that would replace several existing voluntary standards with a single uniform standard that would include provisions to protect against the risk of helmets coming off the heads of bicycle riders, address the risk of injury to children, and cover other issues as appropriate. The Commission issued the final bicycle helmet standard in 1998. It is codified at 16 CFR part 1203. The standard requires all bicycle helmets manufactured after March 10, 1999, to meet impact-attenuation and other requirements. The standard also contains testing and recordkeeping requirements to ensure that bicycle helmets meet the standard's requirements. Certification regulations implementing the standard require manufacturers, importers, and private labelers of bicycle helmets subject to the standard to: (1) Perform tests to demonstrate that those products meet the requirements of the standard; (2) maintain records of those tests; and (3) affix durable labels to the helmets

stating that the helmet complies with the applicable standard. The certification regulations are codified at 16 CFR part 1203, subpart B. On September 2, 2009, the Commission issued a notice of requirements that provides the criteria and process for Commission acceptance of accreditation of third party conformity assessment bodies for testing bicycle helmets that are considered children's products under the Consumer Product Safety Act (74 FR 45428).

The Commission uses the information compiled and maintained by manufacturers, importers, and private labelers of bicycle helmets subject to the standard to help protect the public from risks of injury or death associated with head injury associated with bicycle riding. More specifically, this information helps the Commission determine whether bicycle helmets subject to the standard comply with all applicable requirements. The Commission also uses this information to obtain corrective actions if bicycle helmets fail to comply with the standard in a manner that creates a substantial risk of injury to the public.

OMB approved the collection of information in the certification regulations under control number 3041–0127. The Commission now proposes to request an extension of approval for the collection of information in the certification regulations.

We estimate the burden of this collection of information as follows. Approximately 30 firms manufacture or import bicycle helmets subject to the standard. There are an estimated 200 different models of bicycle helmets currently marketed in the United States. The Commission staff estimates that the time required to comply with the collection of information requirements is approximately 100 to 150 hours per model per year. The total amount of time estimated for compliance with these requirements for testing, including third-party testing for children's bicycle helmets, certification, and recordkeeping will be 20,000 to 30,000 hours per year (200 models \times 100 to 150 hours/model = 20,000 to 30,000 hours). The annualized cost to respondents for the hour burden for collection of information is \$1.138.600 to \$1.707.000 based on 20,000 to 30,000 hours times \$56.93/hour (based on total compensation of all civilian workers in managerial and professional positions in the United States, September 2009, Bureau of Labor Statistics).

The estimated expenditure to the Federal government is approximately \$83,000 which includes 10 staff months and travel costs expended for examination of the information in records required to be maintained by the standard and implementing regulations.

Dated: May 12, 2010.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-P

DEPARTMENT OF DEFENSE

Office of the Secretary

Department of Defense Wage Committee Meeting

AGENCY: Department of Defense.

ACTION: Notice of closed meeting.

SUMMARY: Pursuant to the provisions of section 10 of Public Law 92–463, the Federal Advisory Committee Act, notice is hereby given that closed meeting of the Department of Defense Wage Committee will be held on Tuesday, May 18, 2010, at 10 a.m. at 1400 Key Boulevard, Level A, Room A101, Rosslyn, Virginia, 22209.

Under the provisions of section 10(d) of Public Law 92–463, the Department of Defense has determined that the meetings meet the criteria to close meetings to the public because the matters to be considered are related to internal rules and practices of the Department of Defense and the detailed wage data to be considered were obtained from officials of private establishments with a guarantee that the data will be held in confidence.

However, members of the public who may wish to do so are invited to submit material in writing to the chairman concerning matters believed to be deserving of the Committee's attention.

Additional information concerning the meetings may be obtained by writing to the Chairman, Department of Defense Wage Committee, 4000 Defense Pentagon, Washington, DC 20301–4000.

Dated: May 13, 2010.

Mitchell S. Bryman,

Alternate OSD Federal Register Liaison Officer, Department of Defense.
