Participation Requirements

All parties interested in participating in the Commercial Service Aerospace Supplier Development Mission to Russia must complete and submit an application package for consideration by the Department of Commerce. All applicants will be evaluated on their ability to meet certain conditions and best satisfy the selection criteria as outlined below. A minimum of ten and a maximum of fifteen companies will be selected to participate in the mission from the applicant pool.

Fees and Expenses

After a company has been selected to participate on the mission, a participation fee paid to the U.S. Department of Commerce is required. The participation fee for one company representative will be \$5,250 for small or medium-sized enterprises (SME) ¹

¹ An SME is defined as a firm with 500 or fewer employees or that otherwise qualifies as a small business under SBA regulations.

and \$6,575 for large companies, which will cover one representative.² The fee for each additional firm representative (large firm or SME) is \$250. Expenses for travel-airfare, lodging, in-country transportation (except for airport transfers and bus transportation to/from group meetings and air travel from Moscow to Ulyanovsk and back to Moscow), meals and incidentals will be the responsibility of each mission participant.

Conditions for Participation

- An applicant must submit a completed and signed mission Participation Agreement and a completed Market Interest Questionnaire, which must include adequate information on the company's products and/or services, primary market objectives, and goals for participation. If the Department of Commerce receives an incomplete application, the Department may reject the application, request additional information, or take the lack of information into account when evaluating the applications.
- Each applicant must also certify that the products and services to be promoted through the mission are either produced in the United States or marketed under the name of a U.S. firm and have at least 51 percent U.S. content of the value of the finished product or service.

Selection Criteria for Participation

Selection will be based on the following criteria:

- Suitability of the company's products or services for the Russian aerospace market;
- Applicant's potential for business in Russia, including the likelihood of exports resulting from the mission;
- Consistency in the applicant's goals and objectives with the stated scope of the mission.

Referrals from political organizations and any documents containing references to partisan political activities (including political contributions) will be removed from an applicant's submission and not considered during the selection process.

Timeframe for Recruitment and Applications

Mission recruitment will be conducted in an open and public manner, including publication in the **Federal Register**, posting on the

CS Moscow will conduct a webinar on aerospace opportunities in the Russian market in May 2010; the mission will be promoted during the webinar as well. The International Trade Administration will explore and welcome outreach assistance from other interested organizations, including other U.S. Government agencies.

Recruitment for the mission will begin immediately and will close on June 30, 2010. The U.S. Department of Commerce will review all applications immediately after the deadline. We will inform applicants of selection decisions as soon as possible after June 30, 2010. Applications received after the deadline will be considered only if space and scheduling constraints permit.

Agency Approval Number: 0651–0012.

Type of Request: Revision of a currently approved collection.

Burden: 98,028 hours annually.

Number of Respondents: 93,340 responses per year.

Avg. Hours per Response: The USPTO estimates that it will take the public between 1 minute (0.02 hours) and 40 hours, depending upon the complexity of the situation, to gather the necessary information, prepare, and submit the forms and requirements in this collection.

Needs and Uses: This information is required by 35 U.S.C. 2(b)(2)(D) and administered by the USPTO through 37 CFR 1.21, 10.14, 10.170, 11.2, 11.5–11.14 and 11.28. The information is

used by the Director of the Office of Enrollment and Discipline (OED) to determine whether the applicant for registration is of good moral character and repute; has the necessary legal, scientific, and technical qualifications; and is otherwise competent to advise and assist applicants in the presentation and prosecution of patent applications.

Note that the USPTO is approved to collect a fee under 37 CFR 11.8 and is seeking continued approval to collect that fee. The USPTO has not implemented the changes from that final rule or the new information collection activities associated with that rulemaking; however, we continue to include the estimates of that burden in this request. The USPTO at this time is not collecting that fee but is retaining an estimated burden for the fee collection. If the agency chooses to begin collecting the fee, it will inform the public.

Please Note ALSO that the USPTO is requesting continued approval for items currently approved but not collected that are associated with 37 CFR 11.13 and were introduced as collection items on June 24, 2004 by the final rule 0651–AB55, Changes to Representation of Others Before the United States Patent and Trademark Office (60 Fed. The USPTO has not implemented the changes from that proposed rule or the new information collection activities associated with that rulemaking; however, we continue to include the estimates of that burden in this request.

If the agency determines that it will not implement the Rule and/or determines that the fee under 37 CFR 11.8 will never be collected, the agency will request a removal of the burden estimates from this collection.

Affected Public: Individuals or households; businesses or other for-profits; not-for-profit institutions.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or retain benefits.
