The NOI did not include specific details of the public scoping meetings. This notice announces the locations, dates, times, and format of the public scoping meetings.

Public Law 111-8 authorizes the USACE to review the original project purposes within the Missouri River Basin based on the Flood Control Act of 1944, as amended, and other subsequent relevant legislation and judicial rulings to determine if changes to the authorized project purposes and existing federal water resource infrastructure may be warranted. The authorized Missouri River project purposes are: Flood control, navigation, irrigation, power, water supply, water

quality, recreation, and fish and wildlife.

ADDRESSES: Written comments should be sent to: Missouri River Authorized Purposes Study; Department of the Army; Corps of Engineers, Omaha District; CENWO-PM-AA; 1616 Capitol Avenue; Omaha, NE 68102-4901. Comments can also be e-mailed to: mraps@usace.army.mil. Comments on the scope of the Missouri River Authorized Purposes Study must be postmarked, e-mailed, or otherwise submitted no later than September 20th, 2010.

SUPPLEMENTARY INFORMATION:

1. *Background.* The 1944 Flood Control Act, as amended, and subsequent legislation have directed the USACE to allocate the River's resources among the authorized Missouri River project purposes; which are: Flood control, navigation, irrigation, power, water supply, water quality, recreation, and fish and wildlife.

Section 108 of the Energy and Water Development Section of the FY09 Omnibus Appropriations Act provides the USACE authorization to study the Missouri River projects located within the Missouri River Basin to review the original authorized project purposes to determine if changes to the project purposes and existing Federal water resource infrastructure may be warranted. The study authorized by Section 108 will be referred to as the Missouri River Authorized Purposes Study (MRAPS). The MRAPS is a broad-based multi-purpose study that is anticipated to culminate in a comprehensive feasibility-type report with an integrated EIS. The MRAPS will be conducted in accordance with NEPA and with the "Principles and Guidelines for Water and Related Land Resource Implementation Studies" (Water Resource Council, 1983).

2. *Scoping.* The Omaha and Kansas City Districts of the U.S. Army Corps of Engineers invites all interested entities including Tribal governments, Federal agencies, state and local governments, and the general public to comment on the scope of the Missouri River Authorized Purposes Study (MRAPS). The public scoping period began with the publication of the NOI in the **Federal Register** (75 FR 19948) on April 16, 2010 and will continue until September 20, 2010.

All public scoping meetings will use an open house format. Informational materials about the Missouri River Authorized Purposes Study and the eight authorized purposes will be located throughout the room for participant perusal throughout the evening. Corps representatives will be available to meet one-on-one with meeting participants. Written comments will be collected on comment cards and computer terminals, and a court reporter will be at the meeting for those who wish to make formal verbal comments. All forms of comment will be weighted equally. Input from the scoping meetings, along with comments received by other means (regular mail or e-mail), will be used to refine the scope of issues to be addressed by the Missouri River Authorized Purposes Study.

As part of the scoping process, The Corps has scheduled public meetings at the following locations:
