

appropriate for designation as a NDZ, the State can submit to the EPA Regional Administrator an application to have the waterbody (or waterbodies) of concern designated. The application and designation process varies depending upon the type of NDZ that the State is seeking.

Issue 6: Several commenters suggest that stricter enforcement regulations for sewage discharge in the NYS Canal System are needed.

EPA Response: New York State's enforcement authority of NDZs is addressed in the New York State Navigation Law. Under Article 3, Section 33(e), paragraph 4 "any vessel being operated upon waters of the State that have been designated as a vessel waste NDZ may be boarded and inspected by the department or health department or any lawfully designated agents or inspectors thereof * * *" All certified peace officers are agents of the State, which means that any bona-fide law enforcement officer (State, County, Village police, including bay constables, Harbor Masters, etc.) has the authority to enforce the NDZ. Therefore, EPA believes that New York State's ability to enforce the NDZs is sufficient.
