Natural Currents Energy Services, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

May 24, 2010.

On May 5, 2010, Natural Currents Energy Services, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Hoffmans Marina Tidal Energy Project, which would be located on the Manasquan River, in Monmouth County, New Jersey. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

Natural Currents proposes to develop this project, in conjunction with Hoffmans Marina, to install and operate in-stream tidal turbines to power the office building and marina on site. Natural Currents Red Hawk™ Tidal In-Stream Energy Conversion (TISEC) modules will generate electricity in the free flow of the tides. The initial installations would consist of ten in-stream 20-kilowatt (kW) turbines with an initial peak output of 200 kW.

Applicant Contact: Mr. Roger Bason, Natural Currents Energy Services, LLC, 24 Roxanne Boulevard, Highland, NY 12561; phone (845) 691-4009.

FERC Contact: John M. Mudre, (202) 502-8902.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36.
