

6. Section 97.307 is amended by adding new paragraph (f)(14) to read as follows.

§ 97.307 Emission standards.

* * * * *

(f) * * *

(14) *In the 60 m band:*

(i) A station may transmit only phone, data, and CW emissions using the emission designators and any additional

restrictions that are specified in the table below (except that the use of a narrower necessary bandwidth is permitted):

60 M BAND EMISSION REQUIREMENTS

Emission type	Emission designator	Restricted to
Phone	2K80J3E	Upper sideband only.
Data	2K80J2D	Data using FACTOR-III technique.
Do	60H0J2B	Data using PSK31 technique.
CW	150HA1A	

(ii) The following requirements also apply:

(A) When transmitting phone emissions, the suppressed carrier frequency must be set as specified in 97.303(h).

(B) The control operator of a station transmitting data emissions must exercise care to limit the length of transmission so as to avoid causing harmful interference to United States Government stations.

7. Section 97.313 is amended by adding paragraph (i) to read as follows.

§ 97.313 Transmitter power standards.

* * * * *

(i) No station may transmit with an effective radiated power (ERP) exceeding 100 W PEP on the 60 m band. For the purpose of computing ERP, the transmitter PEP will be multiplied by the antenna gain relative to a dipole or the equivalent calculation in decibels. A half-wave dipole antenna will be presumed to have a gain of 1. Licensees using other antennas must maintain in their station records either the antenna manufacturer's data on the antenna gain or calculations of the antenna gain.

I. Background

The objective of this action is to update the existing Department of Energy Acquisition Regulation (DEAR) Subchapter D which has sections that need to be updated to conform to the Federal Acquisition Regulation (FAR). None of these changes are substantive or of a nature to cause any significant expense for DOE or its contractors. Changes are proposed to DEAR parts 919, 922, 923, 925, 926, and 952. A new part 924 is added to the DEAR. There are no DEAR parts 920 or 921. DEAR parts 919 and 926 will have another proposed rule to cover additional changes.

II. Section-by-Section Analysis

DOE proposes to amend the DEAR as follows:

1. Section 919.201 is amended by removing “DOE” in the first sentence of paragraph (c) and adding in its place “Department of Energy (DOE)”.

2. A new section 919.502 is added and the title of section 919.502-2 is revised to “Total small business set-asides” to conform to the FAR.

3. Section 919.503 is amended by revising the heading to “Setting aside a class of acquisitions for small business” and by removing “SBA” and adding in its place “Small Business Administration (SBA)” in the first sentence.

4. Section 919.7 is amended by revising the title heading to read “The Small Business Subcontracting Program” to conform to the FAR.

5. Sections 919.7007, 919.7009, 919.7010, and 919.7011 are amended by revising the punctuation in the

introductory text to remove the “.” and adding in its place “—”.

6. Subpart 922.6 is removed and reserved. This subpart implemented detailed instructions on protests of eligibility determinations (FAR 22.608) that were deleted from the FAR on December 20, 1996, 61 FR 67410.

7. Subpart 923.4 is removed in its entirety, including section 923.405, and reserved. The FAR has the current procedures, therefore a DOE supplement is unnecessary.

8. Subpart 923.5 is amended by adding a new section 923.500 Scope of subpart. This section clarifies that for contracts performed at DOE sites, in lieu of FAR Subpart 23.5, contracting activities shall use 923.570, Workplace Substance Abuse Programs at DOE Sites.

9. Section 923.570-1 is amended by renumbering paragraph (a) and removing paragraph (b) in its entirety. By adding the new section 923.500, paragraph (b) at 923.570-1 is not needed.

10. Section 923.570-3 is amended by correcting the clause reference in paragraph (a) to 970.5223-4, Workplace Substance Abuse Programs at DOE Sites.

11. Subpart 923.7 is removed in its entirety, including section 923.703, and reserved. DOE Directive 430.2B implements the Executive Order 13149 on environmental issues.

12. Section 923.7003 is amended by adding a new paragraph (h) to add a prescription on when to use the existing clauses at 952.223-75, Preservation of Individual Occupational Radiation Exposure Records, in contracts containing 952.223-71, Integration of Environment, Safety, and Health into Work Planning and Execution, or 952.223-72, Radiation Protection and Nuclear Criticality.

13. Part 924 is a new part being added titled Part 924—Protection of Privacy and Freedom of Information. This new part provides the cross reference to DOE’s regulations at 10 CFR part 1008, which implement the procedures prescribed at FAR 24.103.

14. Section 925.103(b)(2)(ii) is added to prescribe the DOE procedures for proposed additions to the list of nonavailable items at FAR 25.104 list.

15. Section 925.202 is renamed “Exceptions” to conform with the FAR.

16. Section 925.202(b) is redesignated “925.202(a)(2)” and “FAR 25.202(a)(3)” in the first sentence is changed to read “48 CFR 25.202(a)(2), if the cost of the materials is not expected to exceed \$100,000” to conform with the FAR and make the paragraph more concise.

17. Subpart 925.9 is redesignated to read “925.10” and the title is amended

to read “Additional Foreign Acquisition Regulations” to conform to the FAR.

18. Section 925.901 is redesignated to read “925.1001 Waiver of right to examination of records.”

19. Section 925.901(c) is redesignated to read “925.1001(b) Determination and findings.” Additionally, the first sentence is revised to read “A determination and finding required at 48 CFR 25.1001(b) shall be forwarded to either the Director, Office of Contract Management, Office of Procurement and Assistance Management, or for the National Nuclear Security Administration (NNSA), to the Director, Office of Acquisition and Supply Management, for coordination of the Secretary’s approval.”

20. Section 926.7001 is amended by removing “Department of Energy” and adding in its place “Department of Energy (DOE)” in the first sentence in paragraph (a), changing the punctuation in paragraph (c) and revising paragraph (e) to read “48 CFR subpart 15.6 and subpart 915.6” to conform with the FAR.

21. Sections 926.7005, 926.7006, and 926.7102 are amended by revising the punctuation.

22. Clauses 952.223-76 and 952.223-77 are amended to update the references to DOE Orders and Manuals.

23. Clauses 952.226-70 and 952.226-72 are amended by revising the title of the subcontracting plan to reflect the correct name, Small Business Subcontracting Plan.

24. Clauses 952.226-70, 952.226-71, 952.226-72, 952.226-73 are amended to revise the punctuation.

25. Throughout, sections were amended as follows: Removing “FAR” or “DEAR” and adding “48 CFR”; removing “(FAR)”, “DEAR”, or “48 CFR”; revising the punctuation; and capitalizing Offeror, Contractor, Contractor’s and Contracting Officer.

III. Procedural Requirements

A. Review Under Executive Order 12866

Today’s regulatory action has been determined not to be a “significant regulatory action” under Executive Order 12866, “Regulatory Planning and Review,” (58 FR 51735, October 4, 1993). Accordingly, this rule is not subject to review under that Executive Order by the Office of Information and Regulatory Affairs (OIRA) of the Office of Management and Budget (OMB).

B. Review Under Executive Order 12988

With respect to the review of existing regulations and the promulgation of new regulations, section 3(a) of Executive Order 12988, “Civil Justice Reform,” 61 FR 4729 (February 7, 1996),

imposes on Executive agencies the general duty to adhere to the following requirements: (1) Eliminate drafting errors and ambiguity; (2) write regulations to minimize litigation; and (3) provide a clear legal standard for affected conduct rather than a general standard and promote simplification and burden reduction. With regard to the review required by section 3(a), section 3(b) of Executive Order 12988 specifically requires that Executive agencies make every reasonable effort to ensure that the regulation: (1) Clearly specifies the preemptive effect, if any; (2) clearly specifies any effect on existing Federal law or regulation; (3) provides a clear legal standard for affected conduct while promoting simplification and burden reduction; (4) specifies the retroactive effect, if any; (5) adequately defines key terms; and (6) addresses other important issues affecting clarity and general draftsmanship under any guidelines issued by the United States Attorney General. Section 3(c) of Executive Order 12988 requires Executive agencies to review regulations in light of applicable standards in section 3(a) and section 3(b) to determine whether they are met or, alternatively, if it is unreasonable to meet one or more of them. DOE has completed the required review and determined that, to the extent permitted by law, this rule meets the relevant standards of Executive Order 12988.

C. Review Under the Regulatory Flexibility Act

The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) requires that an agency prepare an initial regulatory flexibility analysis for any regulation for which a general notice or proposed rulemaking is required, unless the agency certifies that the rule, if promulgated, will not have a significant economic impact on a substantial number of small entities (5 U.S.C. 605(b)). This rule updates references in the DEAR that apply to public contracts and does not impose any additional requirements on small businesses. Today's proposed rule does not alter any substantive rights or obligations. Consequently, today's proposed rule will not have a significant cost or administrative impact on contractors, including small entities. On the basis of the foregoing, DOE certifies that this proposed rule would not have a significant economic impact on a substantial number of small entities. Accordingly, DOE has not prepared a regulatory flexibility analysis for this rulemaking. DOE's certification and supporting statement of factual basis will be provided to the Chief Counsel

for Advocacy of the Small Business Administration pursuant to 5 U.S.C. 605(b).

D. Review Under the Paperwork Reduction Act

This proposed rule does not impose a collection of information requirement subject to the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.* Existing burdens associated with the collection of certain contractor data under the DEAR have been cleared under OMB control number 1910-4100.

E. Review Under the National Environmental Policy Act

DOE has concluded that promulgation of this proposed rule falls into a class of actions which would not individually or cumulatively have significant impact on the human environment, as determined by DOE's regulations (10 CFR part 1021, subpart D) implementing the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*). Specifically, this proposed rule is categorically excluded from NEPA review because the amendments to the DEAR are strictly procedural (categorical exclusion A6). Therefore, this proposed rule does not require an environmental impact statement or environmental assessment pursuant to NEPA.

F. Review Under Executive Order 13132

Executive Order 13132, 64 FR 43255 (August 4, 1999), imposes certain requirements on agencies formulating and implementing policies or regulations that preempt State law or that have federalism implications. Agencies are required to examine the constitutional and statutory authority supporting any action that would limit the policymaking discretion of the States and carefully assess the necessity for such actions. The Executive Order requires agencies to have an accountability process to ensure meaningful and timely input by state and local officials in the development of regulatory policies that have federalism implications. On March 14, 2000, DOE published a statement of policy describing the intergovernmental consultation process it will follow in the development of such regulations (65 FR 13735). DOE has examined the proposed rule and has determined that it does not preempt State law and does not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. No further action is required by Executive Order 13132.

G. Review Under the Unfunded Mandates Reform Act of 1995

The Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4) generally requires a Federal agency to perform a written assessment of costs and benefits of any rule imposing a Federal mandate with costs to State, local or tribal governments, or to the private sector, of \$100 million or more. This rulemaking proposes changes that do not alter any substantive rights or obligations. This proposed rule does not impose any mandates.

H. Review Under the Treasury and General Government Appropriations Act, 1999

Section 654 of the Treasury and General Government Appropriations Act, 1999 (Pub. L. 105-277) requires Federal agencies to issue a Family Policymaking Assessment for any rulemaking or policy that may affect family well-being. This rulemaking will have no impact on the autonomy or integrity of the family as an institution. Accordingly, DOE has concluded that it is not necessary to prepare a Family Policymaking Assessment.

I. Review Under Executive Order 13211

Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use, 66 FR 28355 (May 22, 2001), requires Federal agencies to prepare and submit to Office of Information and Regulatory Affairs of the Office of Management and Budget, a Statement of Energy Effects for any proposed significant energy action. A "significant energy action" is defined as any action by an agency that promulgates or is expected to lead to promulgation of a final rule, and that: (1) Is a significant regulatory action under Executive Order 12866, or any successor order; (2) is likely to have a significant adverse effect on the supply, distribution, or use of energy, or (3) is designated by the Administrator of OIRA as a significant energy action. For any proposed significant energy action, the agency must give a detailed statement of any adverse effects on energy supply, distribution, or use should the proposal be implemented, and of reasonable alternatives to the action and their expected benefits on energy supply, distribution, and use. Today's proposed rule is not a significant energy action. Accordingly, DOE has not prepared a Statement of Energy Effects.

J. Review Under the Treasury and General Government Appropriations Act, 2001

The Treasury and General Government Appropriations Act, 2001 (44 U.S.C. 3516 note) provides for agencies to review most disseminations of information to the public under guidelines established by each agency pursuant to general guidelines issued by OMB. OMB's guidelines were published at 67 FR 8452 (February 22, 2002), and DOE's guidelines were published at 67 FR 62446 (October 7, 2002). DOE has reviewed the proposed rule under the OMB and DOE guidelines and has concluded that it is consistent with applicable policies in those guidelines.

K. Approval by the Office of the Secretary of Energy

Issuance of this proposed rule has been approved by the Office of the Secretary.
