SUPPLEMENTARY INFORMATION:

Title: Citrus Canker; Interstate Movement of Regulated Nursery Stock and Fruit from Quarantined Areas.

OMB Number: 0579-0317.

Type of Request: Revision and extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture, either independently or in cooperation with States, to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests, such as citrus canker, that are new to or not widely distributed within the United States.

Citrus canker is a plant disease that affects plant and plant parts, including fresh fruit of citrus and citrus relatives (family *Rutaceae*). Citrus canker can cause defoliation and other serious damage to the leaves and twigs of susceptible plants. It can also cause

lesions on the fruit of infected plants and cause infected fruit to drop from the trees before reaching maturity. The aggressive A (Asiatic) strain of citrus canker can infect susceptible plants rapidly and lead to extensive economic losses in commercial citrus-producing areas.

APHIS regulations to prevent the interstate spread of citrus canker are contained in "Subpart—Citrus Canker" (7 CFR 301.75-1 through 301.75-14). The regulations restrict the interstate movement of regulated articles from and through areas quarantined because of citrus canker and provide, among other things, conditions under which regulated nursery stock and fruit may be moved interstate. The interstate movement of regulated nursery stock and fruit from quarantined areas involves information collection activities, including cooperative agreements, certificates, and limited permits.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

This information collection includes information collection requirements currently approved by OMB control numbers 0579-0317, "Citrus Canker; Interstate Movement of Regulated Nursery Stock from Quarantined Areas," and 0579-0325, "Citrus Canker; Movement of Fruit from Quarantined Areas." After OMB approves and combines the burden for both collections under a single collection (0579-0317), "Citrus Canker; Interstate Movement of Regulated Nursery Stock and Fruit from Quarantined Areas," the Department will retire number 0579-0325.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection

technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0019836 hours per response.

Respondents: Citrus growers; packinghouses.

Estimated annual number of respondents: 450.

Estimated annual number of responses per respondent: 498.5288.

Estimated annual number of responses: 224,338.

Estimated total annual burden on respondents: 445 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 14th day of June 2010.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Importation of Clementines, Mandarins, and Tangerines from Chile.
OMB Number: 0579-0242.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in "Subpart—Fruits and Vegetables" (7 CFR 319.56-1 through 319.56-50).

In accordance with these regulations, clementines, mandarins, and tangerines from Chile may be imported only under certain conditions to prevent the introduction of plant pests into the

United States. These conditions involve the use of information collection activities, including a phytosanitary certificate, trust fund agreement, permit, production site registration, and shipping documents.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.4984615 hours per response.

Respondents: Growers, shippers, and Chilean plant health officials.

Estimated annual number of respondents: 44.

Estimated annual number of responses per respondent: 7.3863636.

Estimated annual number of responses: 325.

Estimated total annual burden on respondents: 162 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 14th day of June 2010.
