Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Quarterly Summary of State and Local Government Tax Revenue.

OMB Control Number: 0607-0112.

Form Number(s): F-71, F-72, F-73.

Type of Request: Revision of a currently approved collection.

Burden Hours: 18,401.

Number of Respondents: 10,752.

Average Hours per Response: 26 minutes.

Needs and Uses: The U.S. Census Bureau requests a revision to the Quarterly Summary of State and Local Government Tax Revenues to ensure accurate collection of information about state and local government tax collections. The revision consists of a new survey universe, to a probability sample from a panel study, and modifications to the collection instrument for the F-73 portion of the program. With the change in the survey universe, the F-73 component is being renamed to the Quarterly Survey of Non-Property Taxes from the Quarterly Survey of Selected Local Taxes.

These tax collections, amounting to nearly \$1.3 trillion annually, constitute approximately 43 percent of all governmental revenues. Quarterly measurement of, and reporting on, these fund flows provides valuable insight into trends in the national economy and that of individual states. Information collected on the type and quantity of taxes collected gives comparative data on how the various levels of government fund their public sector obligations.

The Census Bureau uses the three forms covered by this statement to collect state and local government tax data for this long established data series. Tax collection data are used to measure economic activity for the Nation as a whole, as well as for comparison among

the various states. These data are also useful in comparing the mix of taxes employed by individual states, and in determining the revenue raising capacity of different types of taxes in different state-areas.

Key users of these data include the Bureau of Economic Analysis, the Federal Reserve Board, the Department of Housing and Urban Development who rely on these data to provide the most current information on the financial status of state and local governments. These data are included in the quarterly estimates of National Income and Product Accounts developed by the Bureau of Economic Analysis; and the Department of Housing and Urban Development has used the property tax data as one of nine cost indicators for developing Section 8 rent adjustments. Legislators, policy makers, administrators, analysts, economists, and researchers use these data to monitor trends in public sector revenues. Journalists, teachers, and students use these data as well.

Affected Public: State, local or Tribal Government.

Frequency: Quarterly.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C., Section 182.

OMB Desk Officer: Brian Harris-Kojetin, (202) 395-7314.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dhynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Brian Harris-Kojetin, OMB Desk Officer either by fax (202-395-7245) or e-mail (bharrisk@omb.eop.gov).

Dated: June 14, 2010.

Glenna Mickelson,

Management Analyst, Office of the Chief Information Officer.

Stainless Steel Wire Rod from Italy, Japan, the Republic of Korea, Spain, and Taiwan: Continuation of Antidumping Duty Orders

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (the Department) and the International Trade Commission (ITC) that revocation of the antidumping duty orders on stainless steel wire rod (SSWR) from Italy, Japan, the Republic of Korea (Korea), Spain, and Taiwan would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, the Department is publishing a notice of continuation of the antidumping duty orders.

EFFECTIVE DATE: June 17, 2010

FOR FURTHER INFORMATION: Holly Phelps or Elizabeth Eastwood, AD/CVD Operations, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-0656 and (202) 482-3874, respectively.

SUPPLEMENTARY INFORMATION:

Background

On July 1, 2009, the Department published the notice of initiation of the sunset reviews of the antidumping duty orders on SSWR from Italy, Japan, Korea, Spain, and Taiwan pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). See *Initiation of Five-year ("Sunset") Review*, 74 FR 31412 (July 1, 2009).

As a result of its reviews, the Department determined that revocation of the antidumping duty orders on SSWR from Italy, Japan, Korea, Spain, and Taiwan would likely lead to a continuation or recurrence of dumping and, therefore, notified the ITC of the magnitude of the margins likely to prevail should the orders be revoked. See *Stainless Steel Wire Rod From Italy, Japan, the Republic of Korea, Spain, and Taiwan: Final Results of the Expedited Sunset Reviews of the Antidumping Duty Orders*, 74 FR 56179 (Oct. 30, 2009).

On May 14, 2010, the ITC published its determination, pursuant to section 751(c) of the Act, that revocation of the

antidumping duty orders on SSWR from Italy, Japan, Korea, Spain, and Taiwan would likely lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable future. See *Stainless Steel Wire Rod From Italy, Japan, Korea, Spain, and Taiwan*, 75 FR 32503 (June 8, 2010).

Scope of the Orders

The merchandise covered by these orders is SSWR, which comprises products that are hot-rolled or hot-rolled annealed and/or pickled and/or descaled rounds, squares, octagons, hexagons or other shapes, in coils, that may also be coated with a lubricant containing copper, lime, or oxalate. SSWR is made of alloy steels containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. These products are manufactured only by hot-rolling or hot-rolling, annealing, and/or pickling and/or descaling, are normally sold in coiled form, and are of solid cross-section. The majority of SSWR sold in the United States is round in cross-sectional shape, annealed and pickled, and later cold-finished into stainless steel wire or small-diameter bar.

The most common size for such products is 5.5 millimeters or 0.217 inches in diameter, which represents the smallest size that normally is produced on a rolling mill and is the size that most wire-drawing machines are set up to draw. The range of SSWR sizes normally sold in the United States is between 0.20 inches and 1.312 inches diameter. Two stainless steel grades, SF20T and K-M35FL, are excluded from the scope of the orders. The chemical makeup for the excluded grades is as follows:
