The data collected consists of the actual, most recently completed fiscal year's program expenditures and hours broken out by functional activity and two years of projected expenditures. The actual cost data informs ETA's administrative funding allocation model so that state UI program administration funds are allocated as equitably as possible among states.

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- * Enhance the quality, utility, and clarity of the information to be collected; and

* Minimize the burden of the information collection on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor (DOL) conducts a variety of voluntary Customer Satisfaction Surveys of regulated/non-regulated entities, which are specifically designed to gather information from a customer's perspective as prescribed by E.O. 12862, Setting Customer Service Standards, September 11, 1993. These Customer Satisfaction Surveys provide information on customer attitudes about the delivery and quality of agency products/services and are used as part of an ongoing process to improve DOL programs. This generic clearance allows agencies to gather information from both Federal and non-Federal users. In addition to conducting Customer Satisfaction Surveys, the Department also includes the use of evaluation forms for those DOL agencies conducting conferences. These evaluations are helpful in determining the success of the current conference, in developing future conferences, and in meeting the needs of the Department's product/service users.

II. Current Actions

This is a new collection. The Federal Employees' Compensation Act provides workers' compensation coverage to three million federal and postal workers around the world for employment-related injuries and occupational diseases. The Division of Federal Employees' Compensation (DFEC) is charged with administering the FECA program. To obtain better feedback
