

period to allow additional time for the preparation of their comments. DOE has determined that a brief extension of the public comment period is appropriate to allow stakeholders additional time to submit comments to DOE for consideration as the proposed rule is developed. DOE will consider any comments received by July 9, 2010 and deems any comments received between publication of the **Federal Register** notice and July 9, 2010 to be timely submitted.

Further Information on Submitting Comments

DOE will make its own determination about the confidential status of the information and treat it according to its determination.

Factors of interest to DOE when evaluating requests to treat submitted information as confidential include (1) a description of the items, (2) whether and why such items are customarily treated as confidential within the industry, (3) whether the information is generally known by or available from other sources, (4) whether the information has previously been made available to others without obligation concerning its confidentiality, (5) an explanation of the competitive injury to the submitting person which would result from public disclosure, (6) when such information might lose its confidential character due to the passage of time, and (7) why disclosure of the information would be contrary to the public interest.
