Notice of Availability of a Final General Conformity Determination and Record of Decision for the Pacific L.A. Marine Terminal LLC Crude Oil Terminal Project, Port of Los Angeles, Los Angeles County, CA

AGENCY: Department of the Army—U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: In November 2008, the Los Angeles Harbor Department (LAHD) and the U.S. Army Corps of Engineers, Los Angeles District, Regulatory Division (Corps) published a joint Final Supplemental Environmental Impact Statement and Subsequent Environmental Impact Report (SEIS/SEIR) for the development of a marine oil terminal at Berth 408 on Pier 400 in the Port of Los Angeles, Los Angeles

County, California (Project). On February 19, 2010, the Corps published a draft general conformity determination for the Federal action associated with the Project. Comments were received on the draft general conformity determination until March 22, 2010. A general conformity determination was required because Project construction would require Federal action (i.e., issuance of a Corps permit for work and structures in and over navigable waters of the U.S. pursuant to Section 10 of the River and Harbor Act) and not all the Federal action's direct and indirect air emissions would be below specified de minimis thresholds (40 CFR 51.853(b)). On June 1, 2010 and June 3, 2010, the Corps made a final general conformity determination and completed its environmental review and executed the Record of Decision (ROD), respectively, for the Federal action associated with the Project. The Corps considered and responded to all comments received in making the final general conformity determination and executing the ROD.

The public can request copies of the final general conformity determination document or the ROD from the Corps at the address listed below, or can view or download the final general conformity determination document from the Corps' Website (<http://www.spl.usace.army.mil/regulatory/POLA.htm>), scroll down to the link under Pier 400 Crude Oil Marine Terminal Project) or the Port's Web site (http://www.portoflosangeles.org/environment/public_notices.asp), scroll down to link under Pacific L.A. Marine Terminal LLC Crude Oil Terminal). In addition, copies of the final general conformity document are available for review during the next 30 days at the following libraries: L.A. Public Library, Central Branch, 630 West 5th Street, Los Angeles, California; L.A. Public Library, San Pedro Branch, 921 South Gaffey Street, San Pedro, California; and L.A. Public Library, Wilmington Branch, 1300 North Avalon, Wilmington, California.

FOR FURTHER INFORMATION CONTACT:

Questions or comments concerning the final general conformity determination or the ROD should be directed to Dr. Spencer D. MacNeil, Senior Project Manager, North Coast Branch, Regulatory Division, U.S. Army Corps of Engineers, 2151 Alessandro Drive, Suite 110, Ventura, California 93001, (805) 585–2152.

Notice of Availability for the Final Environmental Impact Statement/ Environmental Impact Report for the Newhall Ranch Resource Management and Development Plan and Spineflower Conservation Plan, Los Angeles County, CA

AGENCY: Department of the Army—U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: The U.S. Army Corps of Engineers, Los Angeles District (Regulatory Division), in coordination with the California Department of Fish and Game (CDFG), has completed a Final Environmental Impact Statement/ Environmental Impact Report (EIS/EIR) for the Newhall Ranch Resource Management and Development Plan and Spineflower Conservation Plan. The project proponent and landowner, The Newhall Land and Farming Company, requires a long-term Section 404 permit from the Corps of Engineers for permanent impacts to approximately 93.3 acres of waters of the United States, including, 20.5 acres of wetlands, for the construction of various facilities in waters of the United States associated with the development of a new community composed of a broad range of residential, mixed-use and nonresidential land uses in the 12,000-acre project area located in Santa Clarita, Los Angeles County, California. The Corps considered all comments received in preparing the Final EIS/EIR, which is available for a 30-day review. The Final EIS/EIR includes a draft general conformity determination (*see* Section 3.2, Section 4.7 and Appendix D.7), pursuant to Section 176(c) of the Clean Air Act. A general conformity determination is necessary because construction of the proposed project would require Federal action (*i.e.*, issuance of a Corps permit for activities proposed in waters of the U.S.) and not all the Federal action's direct and indirect emissions would be below specified de minimis thresholds (40 CFR 93.153(b)). Pursuant to the general conformity regulations (40 CFR part 93 Subpart B), general conformity

determinations do not have to be included in the EIS and can be separately noticed, but the draft general conformity determination for the Federal action associated with the proposed project is being included in the Final EIS/EIR in this case.

The Final EIS/EIR, including the draft general conformity determination and a Draft 404(b)(1) alternatives analysis, is available for public review during the next 30 days at the U.S. Army Corps of Engineers Ventura Office, 2151 Alessandro Drive, Suite 110, Ventura, California; in addition, the Final EIS/EIR, including the draft general conformity determination, is available at the following libraries: County of Los Angeles Newhall Branch, Castaic Branch, Sylmar Branch, Valencia Branch; County of Ventura Fillmore Branch and H.P. Wright Library Branch. The Final EIS/EIR is available at the Corps' Web site: <http://www.spl.usace.army.mil/regulatory/NewhallRanch.htm> (see links under Newhall Ranch) and it is also available via the CDFG's Web page: <http://www.dfg.ca.gov/regions/5/newhall/>. Any comments received by the Corps on the Final EIS/EIR or the included draft general conformity determination during the next 30 days will be considered fully before the Corps makes a final general conformity determination and finalizes the Record of Decision (ROD) for the Federal action associated with the proposed project. The Corps will publish a notice of a final general conformity determination in the **Federal Register** within 30 days of rendering a final decision. The public can request from the Corps copies of the ROD, which includes responses to comments on the Final EIS/EIR, including any on the draft general conformity determination, following publication of a final general conformity determination and upon execution of the ROD.

FOR FURTHER INFORMATION CONTACT: Questions or comments concerning the Final EIS/EIR or the included draft general conformity determination should be directed within the next 30 days to Dr. Aaron O. Allen, Chief, North Coast Branch, Regulatory Division, U.S. Army Corps of Engineers, 2151 Alessandro Drive, Suite 110, Ventura, California 93001, (805) 585-2148.
