

facilitate as much group interaction as possible, formal presentations will not be permitted. OSHA believes the stakeholder meeting discussion should center on major issues such as:

- Possible regulatory approaches
- Scope and application of a rule
 - Covered industries
 - Covered employers (size, high/low injury rates)
 - Covered hazards
 - Relationship to existing OSHA requirements
- Organization of a rule
 - Regulatory text
 - Mandatory or voluntary appendices
 - Other standards incorporated by reference
- The role of consensus standards
- Economic impacts
- Any additional topics as time permits

In addition, OSHA is interested in receiving feedback on the following specific questions:

- In light of the ANSI Z10 standard, the OHSAS 18001 standard, and OSHA's 1989 guidelines, what are the advantages and disadvantages of addressing through rulemaking a systematic process that proactively addresses workplace safety and health hazards?

- Based on OSHA's experience, the Agency believes that an Injury and Illness Prevention Program rule would include the following elements:

1. Management duties (including items such as establishing a policy, setting goals, planning and allocating resources, and assigning and communicating roles and responsibilities);
2. Employee participation (including items such as involving employees in establishing, maintaining and evaluating the program, employee access to safety and health information, and employee role in incident investigations);
3. Hazard identification and assessment (including items such as what hazards must be identified, information gathering, workplace inspections, incident investigations, hazards associated with changes in the workplace, emergency hazards, hazard assessment and prioritization, and hazard identification tools);
4. Hazard prevention and control (including items such as what hazards must be controlled, hazard control priorities, and the effectiveness of the controls);
5. Education and training (including items such as content of training, relationship to other OSHA training requirements, and periodic training); and
6. Program evaluation and improvement (including items such as

monitoring performance, correcting program deficiencies, and improving program performance).

Are these the appropriate elements? Which elements are essential for an effective approach? Should additional elements be included?

- How can OSHA ensure that small business employers are able to implement and maintain an effective Injury and Illness Prevention Program?
 - Should an OSHA Injury and Illness Prevention Program rule apply to every business or should it be limited in some way based on an employer's size, industry, incident rates, and/or hazard indices?
 - To what extent should OSHA rely on existing consensus standards in developing a rule?
 - How can OSHA use State experience with injury and illness prevention in developing a rule?
 - What mechanisms have been found to be effective for enabling employees to participate in safety and health in the workplace?
 - Given the variety of names used to describe processes to reduce injuries and illnesses in the workplace, what is the most appropriate name for OSHA to describe this topic?

III. Public Participation

Approximately 50 participants will be accommodated in each meeting, and eight hours will be allotted for each meeting. Members of the general public may observe, but not participate in, the meetings on a first-come, first-served basis as space permits. OSHA staff will be present to take part in the discussions. Logistics for the meetings are being managed by Eastern Research Group (ERG), which will provide a facilitator and compile notes summarizing the discussion; these notes will not identify individual speakers. ERG also will make an audio recording of each session to ensure that the summary notes are accurate; these recordings will not be transcribed. The summary notes will be available on OSHA's Web page at <http://www.osha.gov>.

Specific information on the location of each meeting can be found on the Injury and Illness Prevention Program Web site at <https://www2.ergweb.com/projects/conferences/osharegister-oshal2p2.htm>.

To participate in one of the stakeholder meetings, or be a nonparticipating observer, you may submit a notice of intent electronically, by facsimile, or by hard copy. To encourage as wide a range of viewpoints as possible, OSHA will confirm participants as necessary to ensure a fair

representation of interests and to facilitate gathering diverse viewpoints. To receive a confirmation of your participation 1 week before the meeting, register by the date listed in the **DATES** section of this notice. However, registration will remain open until the meetings are full. Additional nonparticipating observers that do not register for the meeting will be accommodated as space permits. See the **ADDRESSES** section of this notice for the registration Web site, facsimile number, and address. To register electronically, follow the instructions provided on the Web site. To register by mail or facsimile, please indicate the following:

- Name, address, phone, fax, and e-mail
- Meeting location you would like to attend
- Organization for which you work
- Organization you represent (if different)
- Stakeholder category: government, industry, standards-developing organization, research or testing agency, union, trade association, insurance, consultant, or other (if other, please specify)
- Industry sector (if applicable)

Electronic copies of this **Federal Register** notice, as well as news releases and other relevant documents, are available on the OSHA Web page at <http://www.osha.gov>.

IV. Authority and Signature

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 81

[Docket EPA-R10-OAR-2010-0294; FRL-9165-3]

Determination of Attainment for PM₁₀ for the Sandpoint PM₁₀ Nonattainment Area, Idaho

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to determine that the Sandpoint nonattainment area in Idaho attains the National Ambient Air Quality Standard for particulate matter with an aerodynamic diameter of less than or equal to a nominal ten micrometers (PM₁₀).

DATES: Comments must be received on or before July 22, 2010.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R10-OAR-2010-0294, by any of the following methods:

- <http://www.regulations.gov>: Follow the on-line instructions for submitting comments.

- *E-mail:* body.steve@epa.gov.

- *Mail:* Steve Body, U.S. EPA Region 10, Office of Air, Waste and Toxics (AWT-107), 1200 Sixth Avenue, Suite 900, Seattle, WA 98101.

Steve Body at telephone number: (206) 553-0782, *e-mail address:* body.steve@epa.gov, or the above EPA, Region 10 address.

SUPPLEMENTARY INFORMATION:

For further information, please see the direct final action, of the same title, which is located in the Rules section of this **Federal Register**. EPA is approving the attainment determination as a direct final rule without prior proposal because EPA views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the approval is set forth in the preamble to the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule.

If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if we receive adverse

comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

Dated: May 28, 2010.

Dennis J. McLerran,

Regional Administrator, EPA Region 10.
