BILLING CODE 4410-09-P

DEPARTMENT OF JUSTICE

National Institute of Corrections

Solicitation for a Cooperative Agreement: Meetings of the Institutional Corrections Research Network and Two Subject Matter Experts Meetings on Correctional Research

AGENCY: National Institute of Corrections, U.S. Department of Justice.

ACTION: Solicitation for a cooperative agreement.

SUMMARY: The National Institute of Corrections (NIC) is soliciting proposals from organizations, groups, or individuals to enter into a cooperative agreement for an 18-month period to begin in September 2010. Work under this cooperative agreement will involve organizing four meetings—two annual meetings of the Institutional Corrections Research Network (ICRN) and two other meetings, one focusing on the research needs of jails and the other on a combined research agenda for prisons, jails, and community corrections.

NIC established ICRN in 2007 to promote the development of a stronger research infrastructure in corrections by bringing together agency-based researchers to discuss issues and share insights on the conduct of research in agencies that operate correctional institutions. The network members met annually from 2007–2009 to show

examples of the research they were conducting for their agencies, identify new research directions, discuss how they make research relevant to their agency's mission, and share information and concerns about doing research in a correctional environment. ICRN is modeled after similar efforts sponsored by NIC that bring together corrections professionals from different sectors of corrections and by the Community Corrections Research Network, sponsored by the National Institute of Justice, which is made up of researchers working in community corrections agencies. ICRN represents NIC's ongoing commitment to assist correctional agencies as they work to become more evidence-based in their policies and practices, make greater use of outcome measures and performance standards, and incorporate data-driven approaches in their strategic planning and organizational development.

While the ICRN meetings have been very helpful to its members, two issues have emerged from their discussions and the meetings of other similar groups. One is the network's relative absence of researchers working in jails. Under this cooperative agreement, NIC will address this issue by (1) making a concerted effort to recruit jail researchers to participate in ICRN meetings and (2) hold a separate meeting focusing on the research needs of jails. A second issue concerns the lack of cross-discipline discussions among researchers working in state departments of corrections, in jails or jail systems, and in different parts of community corrections, such as pretrial, probation, and parole. The final meeting to be organized under this cooperative agreement will bring together researchers who focus on different aspects of corrections to have them develop a combined research agenda to address the problems that are common to them all.

DATES: Applications must be received by 4 p.m. (EDT) on Friday, July 23, 2010. Selection of the successful applicant and notification of review results to all applicants: September 30, 2010.

ADDRESSES: Mailed applications must be sent to Director, National Institute of Corrections, 320 First Street, NW., Room 5002, Washington, DC 20534. Applicants are encouraged to use Federal Express, UPS, or similar service to ensure delivery by the due date.

All expenses for these meetings will be provided out of the funding awarded under this agreement. The two ICRN meetings are each expected to last up to two days for up to 24 participants. The two additional meetings are expected to last one and a half days for up to 10 participants. NIC will identify the participants for each meeting, and it will also identify the location of the meetings based on the geographic distribution of the participants. The meetings will take place in the contiguous 48 states.

The recipient of this award will assist NIC in locating an appropriate venue and coordinating local arrangements at the site, including meeting rooms, food, and beverage services. The recipient will also assist participants in arranging travel and lodging and in reimbursing costs in conformity with Federal guidelines.

With input from NIC, the recipient will prepare each meeting agenda, participant lists, white papers, handouts, and supplementary materials; duplicate them in sufficient quantities; and deliver them to the venue. The recipient will also provide a note taker for each meeting.

Deliverables: By the end of the project, the recipient of this award will deliver the following products: (1) Each of the four meetings, (2) detailed notes of the proceedings of each meeting, including transcriptions of any other written material produced during the meeting, such as the contents of flip charts, (3) a summary report providing an overview of the meetings, their major themes, and any recommendations for the field.

The original should have the applicant's signature in blue ink.
