It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

As it relates to any qualifying facility filings, the notices of self-certification [or self-recertification] listed above, do not institute a proceeding regarding qualifying facility status. A notice of self-certification [or self-recertification] simply provides notification that the entity making the filing has determined the facility named in the notice meets the applicable criteria to be a qualifying facility. Intervention and/or protests do not lie in dockets that are qualifying facility self-certifications or self-recertifications. Any person seeking to challenge such qualifying facility status may do so by filing a motion pursuant to 18 CFR 292.207(d)(iii). Intervention and protests may be filed in response to notices of qualifying facility dockets other than self-certifications and self-recertifications.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling

link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). What information is EPA particularly interested in?

Pursuant to section 3506(c) (2) (A) of the Paperwork Reduction Act (PRA), EPA is soliciting comments and information to enable it to:

(1) Evaluate whether the proposed collections of information are necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

(2) Evaluate the accuracy of the Agency's estimates of the burdens of the proposed collections of information.

(3) Enhance the quality, utility, and clarity of the information to be collected.

(4) Minimize the burden of the collections of information on those who are to respond, including through the use of appropriate automated or electronic collection technologies or other forms of information technology, e.g., permitting electronic submission of responses.

What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing comments:

1. Explain your views as clearly as possible and provide specific examples.

2. Describe any assumptions that you used.

3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Offer alternative ways to improve the collection activity.

6. Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

Affected Entities: Entities potentially affected by this action are producers, registrants, and applicants for registration of pesticides and pesticide devices.

Title: Recordkeeping Requirements for Producers, Registrants, and Applicants of Pesticides and Pesticide Devices under Section 8 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). ICR Number 0143.11, OMB Control Number 2070-0028. Expires 01/31/11.

Abstract: Section 8 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) states that the Administrator of the Environmental Protection Agency may prescribe regulations requiring producers, registrants and applicants for registration to maintain such records with respect to their operations and the effective enforcement of this Act as the Administrator determines are necessary for the effective enforcement of FIFRA and to make such records available for inspection and copying as specified in the statute. The regulations at 40 CFR part 169 (Books and Records of Pesticide Production and Distribution) specify the following records that producers must keep and the disposition of those records: Production data for pesticides, devices, or active ingredients (including pesticides produced pursuant to an experimental use permit); receipt by the producer of pesticides, devices, or active ingredients used in producing pesticides; delivery, moving, or holding of pesticides; inventory; domestic advertising for restricted use pesticides; guarantees; exports; disposal; human testing; and

tolerance petitions. Additionally, section 8 gives the Agency inspectional authority to monitor the validity of research data (including raw data), including data developed in accordance with Good Laboratory Practice Standards, and used to support pesticide registration. The EPA or States/Indian Tribes operating under Cooperative Enforcement Agreements make use of the records required by section 8 through periodically inspecting them to help determine FIFRA compliance of this subject to the provisions of the Act. In addition, producers themselves make use of such records in order to comply with reporting requirements under FIFRA section 7 and 40 CFR 167.85. (Those reporting requirements are addressed in the ICR entitled "Pesticide Registration Application, Notification and Report for Pesticide-Producing Establishments.")

Since most of the records required to be maintained are likely to be collected and maintained in the course of good business practice, the records are generally stored on site at either the establishment producing the pesticide or at the place of business of the person holding the registration. However, the registrant may decide to transfer records relating to disposal of pesticides and human testing to EPA for storage because of a twenty year retention requirement for the records. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9.

Burden: The average annual burden to the industry over the next three years is estimated to be 2 person hours per response.

Respondents/Affected Entities: 11,600.

Estimated Number of Respondents: 11,600.

Frequency of Response: 1.

Estimated Total Annual Hour Burden: 23,200.

There are no capital/startup costs or operating and maintenance (O&M) costs associated with this ICR since all equipment associated with this ICR is present as part of ordinary business practices.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying

information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

EPA will consider any comments received and may amend the ICR, as appropriate. Then the final ICR package will be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue a **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about any of the above ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: June 17, 2010.

Al Havinga,

Acting Director, Agriculture Division, Office of Compliance, Office of Enforcement and Compliance Assurance.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:
