SUPPLEMENTARY INFORMATION:

Title: Animal Disease Traceability; Tribal Nations Using Systems for Location Identification.

OMB Number: 0579-0327.

Type of Request: Revision and extension of approval of an information collection.

Abstract: As part of its ongoing efforts to safeguard animal health, the U.S. Department of Agriculture (USDA) is developing a coordinated framework for animal disease traceability in the United States. Traceability will help document the movement history of an animal throughout its life, including during an emergency response or for ongoing animal disease programs. Under this new direction, States and Tribal Nations will help establish the ability to trace animals moving interstate back to their State of origin.

The Animal and Plant Health Inspection Service, USDA, has made systems for animal disease traceability available to Tribal Nations for managing the issuance of unique location identification numbers, including the Standardized Premises Location System and a Tribal Premises Location System. Participating Tribal Nations can designate the premises location system they prefer to use by completing and submitting Veterinary Services Form 1-63, Tribal Location Identification System Implementation Request, to

APHIS for access to their system of choice.

We are asking the Office of Management and Budget (OMB) to approve our use of this information collection activity for an additional 3 years.

We are revising the title of the current information collection approved under OMB number 0579-0327 from "National Animal Identification System; Tribal Participants in Premises Registration" to "Animal Disease Traceability; Tribal Nations Using Systems for Location Identification."

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.62 hours per response.

Respondents: Tribal organizations that participate or will participate in location identification for animal disease traceability.

Estimated annual number of respondents: 25.

Estimated annual number of responses per respondent: 2.

Estimated annual number of responses: 50.

Estimated total annual burden on respondents: 31 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 23rd day of June 2010.

Kevin Shea

Acting Administrator, Animal and Plant Health Inspection Service.

[Docket No. 2010-0011]

Exemption for Retail Store Operations

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice of adjusted dollar limitations.

SUMMARY: The Food Safety and Inspection Service (FSIS) is announcing the dollar limitations on the amount of meat and meat food products, poultry and poultry products that a retail store can sell to hotels, restaurants, and similar institutions without disqualifying itself for exemption from Federal inspection requirements. In accordance with FSIS's regulations, for calendar year 2010, the dollar limitation for meat and meat food products remains at \$60,200 but for poultry products is being increased from \$49,400 to \$50,200. FSIS is retaining or changing the dollar limitations from calendar year 2009 based on price changes for these products evidenced by the Consumer Price Index.

DATES: *Effective Date:* This notice is effective June 29, 2010.

FOR FURTHER INFORMATION CONTACT: Contact John O'Connell, Policy Issuances Division, Office of Policy and Program Development, FSIS, U.S. Department of Agriculture, Room 6083 South Building, 1400 Independence Avenue, SW., Washington, DC 20250-3700; telephone (202) 720-0345.

SUPPLEMENTARY INFORMATION:

Background

The Federal Meat Inspection Act (21 U.S.C. 601 *et seq.*) and the Poultry Products Inspection Act (21 U.S.C. 451 *et seq.*) provide a comprehensive statutory framework to ensure that meat, meat food products, poultry, and poultry products prepared for commerce are wholesome, are not adulterated, and are properly labeled and packaged. Statutory provisions requiring inspection of the preparation or processing of meat, meat food, poultry, and poultry products do not apply to the types of operations traditionally and usually conducted at retail stores and

restaurants when those operations are conducted at any retail store or restaurant or similar retail-type establishment for sale in normal retail quantities (21 U.S.C. 661(c)(2) and 454(c)(2)). FSIS's regulations (9 CFR 303.1(d) and 381.10(d)) elaborate on the conditions under which requirements for inspection do not apply to retail operations involving the preparation or processing of meat, meat food, poultry, and poultry products.

Sales to Hotels, Restaurants, and Similar Institutions

Under these regulations, sales to hotels, restaurants, and similar institutions (other than household consumers) disqualify a store for exemption if the product sales exceed either of two maximum limits: 25 percent of the dollar value of total product sales or the calendar year dollar limitation set by the Administrator. The dollar limitation is adjusted automatically during the first quarter of the year if the Consumer Price Index (CPI), published by the Bureau of Labor Statistics, shows an increase or decrease of more than \$500 in the price of the same volume of product for the previous year. FSIS publishes a notice of the adjusted dollar limitations in the **Federal Register**. (See 9 CFR 303.1(d)(2)(iii)(b) and 381.10(d)(2)(iii)(b)).

The CPI for 2009 reveals an annual average price decrease for meat and meat food products at 0.6 percent and an annual average price increase for poultry products at 1.7 percent. When rounded to the nearest \$100, the price for meat and meat food products decreased by \$400 and the price for poultry products increased by \$800. Because the price of meat and meat food products did not decrease by more than \$500, and because the price of poultry products increased by more than \$500, FSIS is retaining the dollar limitation on sales to hotels, restaurants, and similar institutions at \$60,200 for meat and meat food products and is increasing it to \$49,400 for poultry products for calendar year 2010, in accordance with 9 CFR 303.1(d)(2)(iii)(b) and 381.10(d)(2)(iii)(b).

USDA Nondiscrimination Statement

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information

(Braille, large print, audiotape, etc.) should contact USDA's Target Center at 202-720-2600 (voice and TTY).

To file a written complaint of discrimination, write USDA, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW., Washington, DC 20250-9410 or call 202-720-5964 (voice and TTY). USDA is an equal opportunity provider and employer.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that the public and in particular minorities, women, and persons with disabilities, are aware of this notice, FSIS will announce it on-line through the FSIS Web page located at http://www.fsis.usda.gov/regulations/2010_Notices_Index/index.asp.

FSIS also will make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Update is communicated via Listserv, a free e-mail subscription service consisting of industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals, and other individuals who have requested to be included. The Update also is available on the FSIS Web page. Through Listserv and the Web page, FSIS is able to provide information to a much broader, more diverse audience.

In addition, FSIS offers an e-mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at http://www.fsis.usda.gov/news_and_events/email_subscription/. Options range from recalls to export information to regulations, directives and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.
