**Fisheries off West Coast States; Pacific Coast Groundfish Fishery Management Plan; Amendments 20 and 21; Trawl Rationalization Program; Correction**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule; correction.

**SUMMARY:** NMFS is correcting dates referenced in the preamble to the proposed rule for Amendments 20 and 21 to the Pacific Coast Groundfish Fishery Management Plan (FMP), which published in the **Federal Register** on June 10, 2010. The dates being corrected refer to the decision date for the FMP amendments and the end date for the public comment period on the two amendments. Amendment 20 would establish a trawl rationalization program for the Pacific Coast groundfish fishery. Amendment 21 would establish fixed allocations for limited entry (LE) trawl participants.

**DATES:** Effective June 10, 2010.

**SUPPLEMENTARY INFORMATION:**

**Need for Correction**

Some dates referenced in the preamble to the proposed rule for the trawl rationalization program (75 FR 32994, June 10, 2010) regarding the decision date for the FMP amendments and the end date for the public comment period need to be corrected. In two places in the preamble to the proposed rule, NMFS had instructed the **Federal Register** to “Insert date XX days after date of publication of the NOA in the FEDERAL REGISTER.” The **Federal Register** inserted dates that were calculated from the proposed rule rather than the notice of availability (NOA) (75 FR 26702, May 12, 2010). NMFS has since learned that the **Federal Register** cannot calculate dates between two publications; in this case, between the NOA and the proposed rule. The erroneous dates show up on page 32994 of the published proposed rule as September 8, 2010, and August 9, 2010. They should read August 10, 2010, and July 12, 2010, respectively.

Accordingly, the preamble to the proposed rule, published on June 10, 2010, at 75 FR 32994, on page 32994, third column, second paragraph after “Electronic Access,” is corrected to read as follows:

“Although this proposed rule would implement only certain portions of Amendments 20 and 21, NMFS is reviewing both Amendments 20 and 21 in their entirety. On May 12, 2010, NMFS published a notice of availability of Amendments 20 and 21, and—consistent with requirements of the Magnuson-Stevens Fishery Conservation and Management Act (MSA)—must make a decision to approve, disapprove, or partially approve the amendments by August 10, 2010. Comments on the approvability of

the amendments must be submitted to NMFS by July 12, 2010. This preamble provides information about the full contents of each amendment for the purposes of promoting informed public comment. Detailed provisions regarding features of the proposed rule are provided where applicable. In addition, section IV of this preamble highlights what the main regulatory changes would be.”

**Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Surfclam and Ocean Quahog Fishery**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule; request for comments.

**SUMMARY:** NMFS proposes to open a portion of the Georges Bank (GB) Closed Area to the harvest of Atlantic surfclams and ocean quahogs, which has been closed since 1990 due to the presence of toxins known to cause paralytic shellfish poisoning (PSP). The U.S. Food and Drug Administration (FDA) has indicated that recent testing of clams collected from this portion of the GB Closed Area, known as Cultivator Shoal, has demonstrated that PSP toxin levels are well below the regulatory limit established for public health safety. As a result, the FDA has determined that harvesting of surfclams and ocean quahogs for human consumption, within this portion of the GB Closed Area, is safe.

**DATES:** Written comments must be received no later than 5 p.m. eastern standard time, on July 30, 2010.

**ADDRESSES:** You may submit comments, identified by RIN number 0648–AY71, by any of the following methods:

- Electronic Submissions: Submit all electronic public comments via the Federal e-Rulemaking portal <http://www.regulations.gov>.

- Fax: (978) 281–9135, Attn: Anna Macan.

- Mail: Patricia A. Kurkul, Regional Administrator, NMFS, Northeast Regional Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope: “Comments on Proposed Opening of GB PSP Closed Area.”

Instructions: All comments received are part of the public record and will generally be posted to <http://www.regulations.gov> without change. All Personal Identifying Information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

NMFS will accept anonymous comments. Attachments to electronic comments will be accepted via Microsoft Word, Microsoft Excel, WordPerfect, or Adobe PDF file formats only.

**SUPPLEMENTARY INFORMATION:**

**Background**

The GB Closed Area, located in the Exclusive Economic Zone east of 69°00' W. longitude and south of 42°20' N. latitude (see attachment), has been closed to the harvest of surfclams and ocean quahogs since 1990 due to red tide blooms that cause PSP. The closure was implemented based on advice from the FDA, after samples tested positive for toxins (saxotoxins) that cause PSP. PSP toxins are produced by the alga, *Alexandrium fundyense*, that can form blooms commonly referred to as red tides, or harmful algal blooms (HABs), and can produce toxins that accumulate in water column filter-feeding shellfish. Shellfish contaminated with the toxin, if eaten in large enough quantity, can cause illness or death in humans.

Due to inadequate testing or monitoring of the GB Closed Area for the presence of PSP-causing toxins, the closure was made permanent in 1999, under Amendment 12 to the Surfclam and Ocean Quahogs Fishery Management Plan (FMP). In addition, NMFS also established temporary PSP closure areas, specified at § 648.14(a)(10)(iii) and (iv), that have been in effect since 2005. NMFS has relied on the FDA's advice to open/close
